**Art in Latin America** Dawn Ades, Guy Brett, Stanton Loomis Catlin, Rosemary O'Neill, 1989-01-01 This authoritative and beautiful book presents the first continuous narrative history of Latin American art from the years of the Independence movements in the 1820s up to the present day. Exploring both the indigenous roots and the colonial and post-colonial experiences of the various countries, the book investigates fascinating though little-known aspects of nineteenth and twentieth-century art and also provides a context for the contemporary art of the continent.

Art and Architecture of Viceregal Latin America, 1521-1821 Kelly Donahue-Wallace, 2008 A chronological overview of important art, sculpture, and architectural monuments of colonial Latin America within the economic and religious contexts of the era.

**Latin Art in Minnesota** William G. Franklin, 2023-04-11 A richly illustrated and personal presentation of the lives and careers of twelve Latin American artists in Minnesota. The art created by Latin Americans in Minnesota is as diverse as the homelands of these artists--an array of sculpture, paintings, photography, ceramics, films, murals, installations, and performance made by artists originally from Mexico, Cuba, Chile, Venezuela, and Tejana and Chicano cultures. Exploring crucial themes of immigration, identity, and the preservation of traditions in diaspora, the twelve artists featured in this book share their stories and experiences candidly in interviews conducted by other Latino leaders and activists from Minnesota. These casual conversations reveal a unique and intimate perspective of this vibrant arts community. From the collectives that have united some of these artists in collaboration, to dynamic responses to social injustice and a vital presence in galleries, museums, and universities throughout the state, this volume shows how Latin American art is significant and vigorously active in Minnesota--with much more creativity still to come. Artists: Cecilia Cornejo Sotelo, Guillermo Cuellar, Martha Gabriela Driessen, Selma Fernández Richter, Luis Fitch, Alondra Marisol Garza, Carmen Gutiérrez-Bolger, Gustavo Lira García, Dougie Padilla, Alonso Sierralta, Maria Cristina Tavera, Xavier Tavera. Interviewers: Ta-coumba T. Aiken, Nancy Ariza, Roma Calatayud-Stocks, Carlos Carrasco, Sara Cluggish, Gloria Echevarría Portal, Juan Escobedo, Evonne Gallardo, William Hernández Luege, María Isa, Paola Nuñez-Obetz, Heather Rutledge.

Essays on 20th Century Latin American Art Francine Birbragher-Rozencwaig, 2022-03-31 Essays on 20th Century Latin American Art provides a broad synthesis of the subject through short chapters illustrated with reproductions of iconic works by artists who have made significant contributions to art and society. Designed as a teaching tool for non-art historians, the book's purpose is to introduce these important artists within a new scholarly context and recognize their accomplishments with those of others beyond the Americas and the Caribbean. The publication provides an in-depth analysis of topics such as political issues in Latin American art and art and popular culture, introducing views on artists and art-related issues that have rarely been addressed. Organized both regionally and thematically, it takes a unique approach to the exploration of art in the Americas, beginning with discussions of Modernism and Abstraction, followed by a chapter on art and politics from the 1960s to the 1980s. The author covers Spanish-speaking Central America and the Caribbean, regions not usually addressed in Latin American art history surveys. The chapter on Carnival as an expression of popular culture is a particularly valuable addition. This book will be of interest to students and scholars of Latin American history, culture, art, international relations, gender studies, and sociology, as well as Caribbean studies.

Latin American Art Since 1900 (Third) (World of Art) Edward Lucie-Smith, 2020-04-14 An extraordinary synthesis of more than a century's worth of art across Central and South America, Latin American Art Since 1900 covers everyone from popular figures such as Diego Rivera and Frida Kahlo, to a wide range of other artists who are less well-known outside Latin America. In this classic survey, now updated with full-color images throughout, Edward Lucie-Smith introduces the art of Latin America from 1900 to the present day. Lucie-Smith examines major artists such as Diego Rivera and Frida Kahlo, as well as dozens of less familiar Latin American artists and exiled artists from Europe and the United States who spent their lives in South America, such as Leonora Carrington. The author explains the political context for artistic development and sets the works in national, cultural, and international frameworks. Featured in this book are the artists who have searched for indigenous roots and local tradition; explored abstraction, expressionism, and new media; entered into dialogue with European and North American movements, while insisting on reaching a wide, popular audience for their work; and created an energetic, innovative, and varied art scene across the South American continent. With a new chapter that extends the discussion into the twenty-first century, a constant theme of Latin American Art Since 1960 is the embrace of the experimental and the new by artists across Latin America.

Defining Latin American Art Dorothy Chaplik, 2005 This bilingual book describes the numerous elements that have shaped the twentieth and twenty-first century art of Latin America. Beginning with the pre-Columbian cultures of Mexico, Central America, South America and the Caribbean Islands, and following historical developments through today, the values and symbols of these early civilizations have remained a constant in much of Latin American art. The work gives a brief history of Latin American art, defines the modernist movements and trends that surfaced in Paris in the early twentieth century and traces the way Latin American artists adapted the forms to express their own national culture. The main section is a list of significant artworks, each accompanied by biographical details from the artist's life, an explanation of the work's subject matter and a discussion of the inspiration and meaning behind it. The work boasts a wide selection of illustrations, including three color inserts, and concludes with a bibliography.

**Leonard's Price Index of Latin American Art at Auction** Susan Theran, 1999-11-29 The new Leonard's Price Index of Latin American Art at Auction focuses on a category of art that covers a wide range of periods and styles. **Thirteen Ways of Looking at Latino Art** Ilan Stavans,Jorge J. E. Gracia,2014-01-22 The essayist and cultural commentator Ilan Stavans and the analytic philosopher Jorge J. E. Gracia share long-standing interests in the intersection of art and ideas. Here they take thirteen pieces of Latino art, each reproduced in color, as occasions for thematic discussions. Whether the work at the center of a particular conversation is a triptych created by the brothers Einar and Jamex de la Torre, Andres Serrano's controversial Piss Christ, a mural by the graffiti artist BEAR\_TCK, or Above All Things, a photograph by María Magdalena Campos-Pons, Stavans and Gracia's exchanges inevitably open out to literature, history, ethics, politics, religion, and visual culture more broadly. Autobiographical details pepper Stavans and Gracia's conversations, as one or the other tells what he finds meaningful in a given work. Sparkling with insight, their exchanges allow the reader to eavesdrop on two celebrated intellectuals—worldly, erudite, and unafraid to disagree—as they reflect on the pleasures of seeing.

**Art and Revolution in Latin America, 1910-1990** David Craven,2006-01-01 In this uniquely wide-ranging book, David Craven investigates the extraordinary impact of three Latin American revolutions on the visual arts and on cultural policy. The three great upheavals - in Mexico (1910-40), in Cuba (1959-89), and in Nicaragua (1979-90) - were defining moments in twentieth-century life in the Americas. Craven discusses the structural logic of each movement's artistic project - by whom, how, and for whom artworks were produced -- and assesses their legacies. In each case, he demonstrates how the consequences of the revolution reverberated in the arts and cultures far beyond national borders. The book not only examines specific artworks originating from each revolution's attempt to deal with the challenge of 'socializing the arts,' but also the engagement of the working classes in Mexico, Cuba, and Nicaragua with a tradition of the fine arts made newly accessible through social transformation. Craven considers how each revolution dealt with the pressing problem of creating a 'dialogical art' -- one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were. In addition, the author charts the impact on the revolutionary processes of theories of art and education, articulated by such thinkers as John Dewey and Paulo Freire. The book provides a fascinating new view of the Latin American revolutionaries -- from artists to political leaders -- who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art, ideology, and class, within a revolutionary process.
