The Dabare Snake Launcher Joelle Presby,2022-11-01 A RACE TO BUILD THE FIRST SPACE ELEVATOR IN AFRICA New money, old tribes, and international megacorps race to build the first space elevator. With a little Dabare magic, it just might work! The Sadous, an oil-rich West African family, are handed a plum contract as repayment for a decades-old favor that could make the next generation even richer if the family doesn't tear itself apart first. Two engineer daughters of the Sadou family, Pascaline and Maurie, upon whom the burden of success rests, have troubles of their own. One wants nothing more than to leave and make her own name as an engineering prodigy, while the other is troubled by fever dreams and snakes. Ethan Schmidt-Li is an ambitious megacorp executive with eyes on a big promotion—only to get more than he bargained for when put in charge of the company's make-or-break project. These are some of the people that Tchami "Chummy" Fabrice has brought together to an ambitious end—constructing the world's first space elevator in Africa and ensuring the space industry that it catapults will enrich the continent and all involved. They have the carbon nanofiber, prime land around Kilimanjaro, and a captured rock in orbit for the tether. The hard part will be getting all these different people working together long enough to see it built. At the publisher's request, this title is sold without DRM (Digital Rights Management). Praise for *The Dabare Snake Launcher* "Joelle Presby's novel is a fascinating fictional look behind the scenes of the construction of the world's first space elevator in a

near-future version of Africa that has enough grounded elements to be thoroughly believable . . . The story maintains a keen eye on the largely larger-than-life characters and respect for the business processes, customs, and beliefs of the people on the ground making things happen.” —Wole Talabi, Locus

Award-nominated author and editor of Africanfuturism: An Anthology You guys should all be on the lookout for Joelle Presby’s solo Baen novel THE DABARE SNAKE LAUNCHER. It is... remarkable. Just truly, truly remarkable.” —David Weber, NYT Bestselling author of the Honorverse series The Dabare Snake Launcher is a very believable depiction of when this species decides to do something amazing: backstabbing, plotting, and inflamed passions galore. Presby has created a future that I could easily imagine reading on the news in a few decades, and the novel is all the better for it. —Warped Factor “The Dabare Snake Launcher takes you on a journey of possibilities, an Africa foremost in groundbreaking technology and not focused on deprivation and poverty. Joelle’s writing is nuanced . . . There’s family drama . . . romance . . . and laugh-out-loud humour. Writing is vivid and the characters fascinating.” —Hannah Onoguwe, author and poet Set in Cameroon, where the author lived for many years, and full of lovely detail about the local cultures, clashes between traditional and modern, and differing expectations. —Jane Lindskold, author of the Star Kingdom series and Over Where series.

The Proton Launcher Christian Lardier, Stefan Barensky, 2018-03-27 The Soviet / Russian space program was in the hands of three industrial empires: those of Serguei Korolev, the Soviet von Braun who launched Sputnik-1 and Yuri Gagarin, Vladimir Tchelomei, his main competitor, and Mikhail Yangel, Many launchers and satellites in Ukraine. In 2011, we published a first book on the history of the Soyuz launcher that was developed by Korolev and launched more than 1,800 copies. This time, we tell the story of the Proton, the main competitor of the European launcher Ariane, which was developed by Chelomei and launched more than 400 copies. Finally, the last book of the trilogy will deal with the many developments of Yangel. In the three books, the first part deals with the history of rockets in the USSR / Russia (East) and the second part on the history of their commercialization in the West.

Small Arms Survey 2014 Small Arms Survey,
Geneva,2014-07-03 The Small Arms Survey 2014 considers the
multiple roles of women in the context of armed violence,
security, and the small arms agenda. The volume's thematic
section comprises one chapter on violence against women and
girls - with a focus on post-conflict Liberia and Nepal - and
another on the recent convergence of the small arms agenda with
that of women, peace and security. Complementing these
chapters are illustrated testimonies of women with experience as
soldiers, rebels and security personnel. The 'weapons and
markets' section assesses the potential impact of the Arms Trade
Treaty, presents the 2014 Transparency Barometer and an update
on the authorised small arms trade, and analyses recent
ammunition explosions in the Republic of the Congo. Additionally,
it examines ammunition circulating in Africa and the Middle East,
maps the sources of insurgent weapons in Sudan and South
Sudan, and evaluates crime gun records in the United States.
