awakening to the greater power of the Universe, in an unbiased, un-favoring way to creation. This brought him to the natural path to becoming a Law of Attraction devotee and coach. Lance has always been amazed at the spiritual healing and other spiritual miracles that he witnessed in church, personally and in others. These miracles were and are the classic example of the Law of Attraction in action. This began a journey to understand how these instant healings happened, knowing that it gives insight into how the Law of Attraction manifests. That brought him to quantum physics and a marriage between spirituality and quantum physics.\*\* This book is enrolled in Amazon's matchbook program so you get the ebook free with purchase of the printed edition.

Manifestation Destiny Talaria Gaines, 2017-08-04 You get it when you believe you have it, remarked Jim Carrey in an interview. Jim Carrey has said on multiple occasions, in many interviews, that he is a true believer in the Law of Attraction. It's hard not to be when he recounts the story of how he had written himself a \$10 million check for acting services rendered, post-dated it 10 years and kept it in his wallet. This was in 1985. In 1994, Carrey's father was buried with the check in his casket. Carrey's payday in 1994 for Dumb & Dumber? Ten-million dollars. That is simply one example of how the Law of Attraction can make a profound impact on the quality of your life, and what you can accomplish. Any bad and negative experiences you went to in the past were manifested by your attitude and mindset at the time. You are responsible for whatever you manifest in your life. Whatever you have in your life right now is all your doing. You attract those things: money, success, relationships, friends, employment, and so on. That's why you should always strive to be positive, gracious, and optimistic about life as the Universe will be working in your favor. The whole principal might be new to you, where your thoughts influence your physical world. You probably find it hard to believe in the Law of Attraction. That is perfectly fine. The Law of Attraction isn't magic. It's a mindset change. It's biology.
