Lectures on Faith Joseph Smith (Jr.),1988 This special edition of the Lectures on Faith from Zion's Camp Books is formatted for convenience on an eReader, with more than 100 internal links to scriptures and citations. We hope it will give you a great reading experience! The Lectures on Faith were originally prepared as materials for the School of the Prophets in Kirtland, Ohio in 1834 and were included in the Doctrine and Covenants from 1835 to 1921. Although the Lectures on Faith have never been accepted as revelation by the body of the church (and so were removed from the Doctrine and Covenants in 1921), they contain important doctrinal insights that can help anyone seeking to learn more about faith and come closer to Heavenly Father and Jesus Christ. President Joseph Fielding Smith noted, "I suppose that the rising generation knows little about the Lectures on Faith. . . . In my own judgment, these Lectures are of great value and should be studied. . . . I consider them to be of extreme value in the study of the gospel of Jesus Christ." (Joseph Fielding Smith, *Seek Ye Earnestly*. Salt Lake City: Deseret Book, 1970.) Elder Bruce R. McConkie of the Quorum of the Twelve Apostles has stated the lectures contain "some of the best lesson material ever prepared on the Godhead; on the character, perfections, and attributes of God; on faith, miracles, and sacrifice. They can be studied with great profit by all gospel scholars." (Bruce R. McConkie, *Mormon Doctrine*. Salt Lake City: Bookcraft, 1966.)

For Times of Trouble Jeffrey R. Holland,2012 The author explores dozens of scriptural passages from the psalms, offering personal ideas and insights and sharing his testimony that no matter what the trouble and trial of the day may be, we start and finish with the eternal truth that God is for us.--

The Lost 116 Pages: Reconstructing the Book of Mormon's Missing Stories Don Bradley,2019-11-21 On a summer day in 1828, Book of Mormon scribe and witness Martin Harris was emptying drawers, upending furniture, and ripping apart mattresses as he desperately looked for a stack of papers he had sworn to God to protect. Those pages containing the only copy of the first three months of the Joseph Smith's translation of the golden plates were forever lost, and the detailed stories they held forgotten over the ensuing years--until now. In this highly anticipated work, author Don Bradley presents over a decade of historical and scriptural research to not only tell the story of the lost pages but to reconstruct many of the detailed stories written on them. Questions explored and answered include: Was the lost manuscript actually 116 pages? How did Mormon's abridgment of this period differ from the accounts in Nephi's small plates? Where did the brass plates and Laban's sword come from? How did Lehi's family and their descendants live the Law of Moses without the temple and Aaronic priesthood? How did the Liahona operate? Why is Joseph of Egypt emphasized so much in the Book of Mormon? How were the first Nephites similar to the very last? What message did God write on the temple wall for Aminadi to translate? How did the Jaredite interpreters come into the hands of the Nephite kings? Why was King Benjamin so beloved by his people? Despite the likely demise of those pages to the sands of time, the answers to these questions and many more are now available for the first time in nearly two centuries in *The Lost 116 Pages: Reconstructing the Book of Mormon's Missing Stories*.

The Internet and Social Change Carla G. Surratt,2017-07-06 Starting with only four hosts in 1969, the Internet consisted of more than 56 million hosts by the end of 1999. In 1993, the World Wide Web was only 130 sites strong; six years later it boasted more than seven million sites. Despite this explosive growth of the Internet

and computer technology, little is known about the social implications of computer mediated communications. In this work, the author uses social science theory to evaluate the social transformations taking place today. She asks whether human beings use the Internet to change basic social institutions, and if so, whether these changes are a matter of degree only or represent an overthrow of previous modes of organizing. The work examines the rise of the Internet as the logical extension of the Industrial Revolution and urbanization consistent with the basic tenets of modernity, and offers a new conceptual framework through which to understand the Internet.
