

Aristide of Le Figaro Mary Munro-Hill, 2017-05-11 Is it true that French people enjoy reading grammar articles over their coffee and croissants? Can matters of language really be so interesting and absorbing? For thirty years, Aristide composed his *Usage et grammaire* and *Divertissements grammaticaux* for one of France's foremost daily newspapers, *Le Figaro*. His fans avidly read his weekly *chroniques de langue*, corresponding with him and asking him questions, which he delighted in answering. His linguistic writings, topical, witty and elegant, are both entertaining and instructive. This book on Aristide's work will be appreciated by lovers of the French language the world over. Although written in English, it is peppered throughout with extracts from Aristide's weekly rubriques. Aristide stood in the long tradition of French grammarians, some purist and others relatively laxist. Bernard Pivot described him as one who was «sévère pour une faute de français, indulgent pour un français en faute».

Le Figaro Claire Blandin, 2007-05-30 Plus ancien titre de la presse française, *Le Figaro* est sans doute l'un des plus vieux journaux du monde. Apparu en 1826 sous la forme d'un petit journal satirique, devenu quotidien en 1866 sous l'impulsion d'Hippolyte de Villemessant, il était déjà, à la fin du XIXe siècle une institution de la vie politique et culturelle française. La Belle Époque est aussi la sienne ; il bénéficie de l'élan de l'ensemble de la presse qui connaît un âge d'or, exerçant une influence sans partage sur l'opinion. Rupture majeure, la Première Guerre mondiale ouvre une période d'instabilité pendant laquelle les propriétaires du journal se succèdent. L'institution résiste cependant jusqu'à la reprise en mains par Pierre Brisson qui fait du Figaro le journal triomphant de la Libération. La prospérité de la maison Figaro accompagne celle des Trente Glorieuses : le prestigieux journal du Rond-Point peut choyer ses « grandes plumes ». Dans le contexte de crise de la presse écrite quotidienne des trente dernières années, le journal invente enfin nouvelles formes et nouvelles formules pour se maintenir parmi les deux plus grands quotidiens français : *Le Figaro magazine* naît en 1978, et la politique des suppléments initiée par le groupe contamine rapidement l'ensemble du secteur. S'appuyant sur plusieurs fonds d'archives inédits, cette histoire offre non seulement une histoire renouvelée du Figaro, une aventure intellectuelle et économique passionnante, mais aussi un récit vivant de deux siècles d'évolution de la presse française. Maître de conférences à l'Université Paris 12, Claire Blandin est l'auteur d'une thèse de doctorat sur *Le Figaro littéraire (1946-1971)*. En septembre 2006, elle a organisé, le premier colloque sur l'histoire du Figaro. Préface de Alain-Gérard Slama. Les premiers Figaro. Hippolyte de Villemessant inventeur du Figaro. La Belle Époque du Figaro. Le traumatisme de la Première Guerre mondiale. François Coty au Figaro. Le Figaro occupé, Le Figaro libéré. Le Figaro triomphant. Un journal dans la tourmente. Le fleuron de l'empire Hersant. Le Figaro aujourd'hui.

The Politics of Intimacy Anna Durnová, 2018-07-23 Debates on the end-of-life controversy are complex because they seem to hijack national and cultural traditions. Where previous books have focused on ideological grounds, *The Politics of Intimacy* explores dying as the site where policies are negotiated and implemented. Intimacy comprises the emotional experience of the end of life and how we acknowledge it—or not—through institutions. This process shows that end-of-life controversy relies on the conflict between the individual and these institutions, a relationship that is the cornerstone of Western liberal democracies. Through interviews with mourners, stakeholders, and medical professionals, examination of media debates in France and the Czech Republic, Durnová shows that liberal institutions, in their attempts to accommodate the emotional experience at the end of life, ultimately fail. She describes this deadlock as the “politics of intimacy,” revealing that political institutions deploy power through collective acknowledgment of individual emotions but fail to maintain this recognition because of this same experience.

Europe and the End of the Age of Innocence Francesco M. Bongiovanni, 2018-04-02 “Bongiovanni's message should be heeded, especially in Brussels, Berlin and Paris” – John Peet, Political Editor, *The Economist* Francesco Bongiovanni returns with a sequel to *The Decline and the Fall of Europe*, a book Guardian journalist Nils Pratley labelled 'a wake-up call for the twenty-first century'. Since 2012 Europe has been confronted with new, unexpected game-changing challenges such as the refugee crisis and its human tsunami, the surprise of Brexit and the explosion of 'alternative' politics. Europeans have finally come to realize that the open-societies that they have been comfortably living in are under threat and fragmenting, leaving their survival uncertain. Minorities are falling prey to an Islamist ideology that conveys values and customs diametrically opposed to European ones. Terrorist acts have become the 'new normal', part of daily life. The North-South cleavage brought about by the eurozone crisis is now completed by a deep East-West cleavage born from the refugee crisis. Against this backdrop, a Germany that is not all that it seems has become Europe's de-facto ruler, but is unfit to lead, while Trump's America cannot be counted on as it once used to be, forcing Europe to fend for itself. A beacon of stability and prosperity in the past, a naive and unprepared Europe, facing new and terrifying challenges is today more than ever torn apart, increasingly unstable and adrift.

Managing Negotiations Thorsten Reiter, 2021-12-28 *Managing Negotiations* is a collection of seven global, real-life case studies on prominent negotiations in the realm of international business and politics. The book combines the rigorously researched frameworks of academia with the real-world challenges of negotiations. The cases combine scientific negotiation management practices as well as theories with real-world examples that demonstrate how to conduct successful negotiations and which prominent pitfalls to avoid. The topics discussed reach from mergers & acquisitions, collective bargaining, international diplomatic treaties to international free trade agreements. Each case study starts with an overview comprising three

key objectives and ends with the key learnings as well as reflective questions for class discussion. This casebook can be used as recommended reading on Negotiation and Strategic Management courses at postgraduate, MBA and Executive Education level and serves as a guide for practitioners responsible for contract management, negotiation and procurement.

The Sarkozy Presidency G. Raymond, 2013-02-18 Sarkozy came to power promising radical political and social change while simultaneously developing a presidential persona that melded the public and the personal under the glare of media attention, unparalleled in the French Fifth Republic. This volume provides a detailed analysis of the fit between his ambitions and the outcomes of his presidency

The Oxford Handbook of European Islam Jocelyne Cesari, 2015 For centuries, Muslim countries and Europe have engaged one another through theological dialogues, diplomatic missions, political rivalries, and power struggles. In the last thirty years, due in large part to globalization and migration from Islamic countries to the West, what was previously an engagement across national and cultural boundaries has increasingly become an internalized encounter within Europe itself. Questions of the Hijab in schools, freedom of expression in the wake of the Danish Cartoon crisis, and the role of Shari'a have come to the forefront of contemporary European discourse. The Oxford Handbook of European Islam is the first collection to present a comprehensive approach to the multiple and changing ways Islam has been studied across European countries. Parts one to three address the state of knowledge of Islam and Muslims within a selection of European countries, while presenting a critical view of the most up-to-date data specific to each country. These chapters analyze the immigration cycles and policies related to the presence of Muslims, tackling issues such as discrimination, post-colonial identity, adaptation, and assimilation. The thematic chapters, in parts four and five, examine secularism, radicalization, Shari'a, Hijab, and Islamophobia with the goal of synthesizing different national discussion into a more comparative theoretical framework. The Handbook attempts to balance cutting edge assessment with the knowledge that the content itself will eventually be superseded by events. Featuring eighteen newly-commissioned essays by noted scholars in the field, this volume will provide an excellent resource for students and scholars interested in European Studies, immigration, Islamic studies, and the sociology of religion.

France Since the Liberation Gino Raymond, 2024-02-20 This book focuses on the tension between the modernising thrust that places France on a trajectory of convergence with comparable liberal democracies and the defence of a national specificity that can act as a brake, complicating France's relationship with its neighbours, its present and its past. This ambivalence in French political and social life stems from the conscious attempt to rebuild the nation after the trauma of Occupation during World War II and the new beginning provided by the Liberation. The government of the Fourth Republic embraced the pursuit of a modernisation that would enable it to regain its place among the world's leading democratic states. However, this modernising ambition co-exists with the belief in a specific destiny and a unique sense of mission that are intrinsic to the emergence of a sense of nationhood after the revolution of 1789. Raymond defines a critical perspective that draws together historical, economic, social, and political issues into a coherent understanding of what makes France the way it is today. Written with both academic rigour and a highly accessible clarity of style, this volume is a valuable resource for students, educators, and researchers in French and European Studies.

The Routledge Handbook of French Politics and Culture Marion Demossier, David Lees, Aurélien Mondon, Nina Parish, 2019-11-12 The Routledge Handbook of French Politics and Culture provides a detailed survey of the highly differentiated field of research on French politics, society and culture across the social sciences and humanities. The handbook includes contributions from the most eminent authors in their respective fields who bring their authority to bear on the task of outlining the current state-of-the art research in French Studies across disciplinary boundaries. As such, it represents an innovative as well as an authoritative survey of the field, representing an opportunity for a critical examination of the contrasts and the continuities in methodological and disciplinary orientations in a single volume. The Routledge Handbook of French Politics and Culture will be essential reading and an authoritative reference for scholars, students, researchers and practitioners involved in, and actively concerned about, research on French politics, society and culture.

Writing the Black Decade Joseph Ford, 2021-01-28 *Writing the Black Decade: Conflict and Criticism in Francophone Algerian Literature* examines how literature—and the way we read, classify, and critique literature—impacts our understanding of the world at a time of conflict. Using the bitterly-contested Algerian Civil War as a case study, Joseph Ford argues that, while literature is frequently understood as an illuminating and emancipatory tool, it can, in fact, restrain our understanding of the world during a time of crisis and further entrench the polarized discourses that lead to conflict in the first place. Ford demonstrates how Francophone Algerian literature, along with the cultural and academic criticism that has surrounded it, has mobilized visions of Algeria over the past thirty years that often belie the complex and multi-layered realities of power, resistance, and conflict in the region. Scholars of literature, history, Francophone studies, and international relations will find this book particularly useful.

Great Powers' Foreign Policy, 2022-12-19 This book provides a timely comparative analysis on the foreign policy of eleven great powers, in the context of the Russian invasion of Ukraine, Putin's war against the West and the global competition reshaping the world order.

Reporting the Road to Brexit Anthony Ridge-Newman, Fernando León-Solís, Hugh O'Donnell, 2018-05-07 This edited collection brings together

leading international scholars to explore the connection between Brexit and the media. The referendum and the activism on both sides of the campaign have been of significant interest to the media in the UK and around the world. How these factors have been represented in the media and the role of the media in constructing the referendum narrative are central to assisting the development in our understanding of how UK and global democracy is being manifested in contemporary times. This book explores these topics through presenting a wide range of perspectives from research conducted by leading international scholars, and concludes with an assessment of the potential democratic and international implications for the future. By grappling with a highly important and controversial topic in a comparative and varied way, the volume contributes to theoretical debates about the nature and role of the media in complex social, political and cultural contexts.

The Palgrave Handbook of Global Counterterrorism Policy Scott Nicholas Romaniuk, Francis Grice, Daniela Irrera, Stewart Webb, 2017-07-26 The Palgrave Handbook of Global Counterterrorism Policy examines a comprehensive range of counterterrorism policies, strategies, and practices across dozens of states and actors around the world. It covers the topics of terrorism and counterterrorism both thematically and by region, allowing for discussions about the underpinning dynamics of these fields, consideration of how terrorism and counterterrorism are evolving in the modern period, and in-depth analyses of individual states and non-state actors, and their approaches to countering terrorism and terrorist threats. It draws upon a multidisciplinary range of established scholars and upcoming new researchers from across multiple fields including political science and international relations, sociology, and history, examining both theory and practice in their respective chapters. This volume is an essential resource for scholars and practitioners alike.

Tax and Time Anthony C. Infanti, 2022-01-04 How tax law perpetuates injustice but might instead be used as a powerful force for creating a more just and equitable society The relationship between tax law and society, Anthony C. Infanti asserts, is too often overlooked by those who work outside of the field of fiscal policy. Yet, the way a country collects and spends its revenue can be viewed as a quantifiable reflection of how a country sees itself, sending messages about both what it values now and what it aspires to be in the future. Tax and Time sheds light on two of the most misunderstood universal human experiences: time and taxes. Anthony C. Infanti asserts that time in tax law is the product of pure imagination and calls into question the world beyond time that we have created for ourselves. Written with clarity and powerful insight, Tax and Time demonstrates how the tax laws have been used to imaginatively manipulate time in ways that perpetuate economic and social injustice. With its social justice focus, the book brings a sorely needed critical perspective to technical tax policy discussions. Infanti calls for a systematic reexamination and reworking of the relationship between time and tax law, asserting that the power of the legal imagination to manipulate time in tax law can both correct past injustices and help us to envision—and actually work toward—a better and more just society.

Le Figaro Richard Brunois, 1973-01-01 T00:00:00+01:00 La presse quotidienne vit une époque charnière. Cet ouvrage doit permettre de préciser les diverses données d'un secteur de l'économie, qui nous concerne tous en tant que lecteurs et citoyens. La survie de cette presse est, en effet, un des éléments fondamentaux de notre liberté. La société du Figaro, avec son cadre historique et juridique - l'entreprise de presse, avec ses réalités économiques et humaines et les lecteurs du quotidien, avec leur profil et leur comportement particuliers, sont examinés par l'auteur, juriste, professeur, mais surtout praticien en tant que collaborateur, pendant de nombreuses années, de Me Pierre Bevierre, administrateur judiciaire près le tribunal de commerce de Paris. Jacques de Lacretelle, de l'Académie française, écrit notamment dans sa préface : « L'auteur de ce livre, Me Richard Brunois, a eu le privilège d'être associé - pendant quelque temps - aux destinées du Figaro. Il a eu, ainsi, les moyens d'étudier - en toute liberté et en toute objectivité - le fonctionnement de cette maison, de mesurer son extension progressive et son succès peu commun dans les annales de la presse. Ce contrôle lui a permis de procéder à une analyse à la fois étendue et précise... Rapportant les faits et ajustant les chiffres, il a brossé, en somme, un panorama de la grande presse française à l'heure actuelle. »

Rethinking Historical Time Marek Tamm, Laurent Olivier, 2019-08-22 Is time out of joint? For the past two centuries, the dominant Western time regime has been future-oriented and based on the linear, progressive and homogeneous concept of time. Over the last few decades, there has been a shift towards a new, present-oriented regime or 'presentism', made up of multiple and percolating temporalities. Rethinking Historical Time engages with this change of paradigm, providing a timely overview of cutting-edge interdisciplinary approaches to this new temporal condition. Marek Tamm and Laurent Olivier have brought together an international team of scholars working in history, anthropology, archaeology, geography, philosophy, literature and visual studies to rethink the epistemological consequences of presentism for the study of past and to discuss critically the traditional assumptions that underpin research on historical time. Beginning with an analysis of presentism, the contributors move on to explore in historical and critical terms the idea of multiple temporalities, before presenting a series of case studies on the variability of different forms of time in contemporary material culture.

DAB Digital Radio: Licensed To Fail Grant Goddard, 2010-09-01 Goddard offers a blow-by-blow chronicle of the efforts to implement DAB as a replacement for FM and AM radio in Britain, from the deliberations of the Digital Radio Working Group in 2008 to the legislation of the Digital Economy

Act during the final days of the Labour government in 2010.

World Leadership In The Balance: China And The Us Clash For Supremacy Pierre-antoine Donnet,2021-05-19 China and the United States have entered a multifaceted cold war: trade, high tech, space, defense, environment and values as they jostle for influence throughout the world. This rivalry between the world's top two economic powers will likely dominate the decades to come and its outcome is uncertain. After the American century, this new century may indeed be China's, or it may not. With Joe Biden's election as president of the United States, we are certainly in for a change of leadership style. But in terms of substance, US policy towards China is likely to remain tough. How will Beijing react? What strengths and weaknesses does China have in this long struggle for supremacy against the United States? This book analyzes the different aspects of this disconcerting rivalry that has had, and will continue to have, an impact on our daily lives. The coronavirus pandemic has further exposed the failings of a monolithic Chinese system that does not tolerate freedom of expression but it has also, paradoxically, placed China in a position of strength against the United States.

The Sociology of Arts and Markets Andrea Glauser,Patricia Holder,Thomas Mazzurana,Olivier Moeschler,Valérie Rolle,Franz Schultheis,2020-06-15 This edited collection offers an in-depth analysis of the complex and changing relationship between the arts and their markets. Highly relevant to almost any sociological exploration of the arts, this interaction has long been approached and studied. However, rapid and far-reaching economic changes have recently occurred. Through a number of new empirical case studies across multiple artistic, historic and geographical settings, this volume illuminates the developments of various art markets, and their sociological analyses. The contributions include chapters on artistic recognition and exclusion, integration and self-representation in the art market, sociocultural changes, the role of the gallery owner, and collectives, rankings, and constraints across the cultural industries. Drawing on research from Japan, Switzerland, France, Italy, China, the US, UK, and more, this rich and global perspective challenges current debates surrounding art and markets, and will be an important reference point for scholars and students across the sociology of arts, cultural sociology and culture economy.
