Leadership Without Silver Bullets Phillip Ralph, 2010-07-29 This book aims to inspire and ignite leadership action that makes a difference for you, your organisation and the world we live in. Its purpose is to clearly state the case for leadership and its importance to all of us at this time. At an organisational level, there is little doubt that real leadership is the engine room of performance. In the absence of systemic, results-focused leadership, breakthrough performance and high commitment will not be achieved. To make progress on our most significant issues, we need a new paradigm of leadership that supersedes the outdated industrial age leadership paradigm and liberates us from old ways of thinking about how to manage and lead people. A new paradigm needs to guide our actions and decisions in a constructive, values-driven way. It is one that will empower each of us to take full responsibility and accountability at all levels of organisations, in government, and in the community. Importantly, a new paradigm will create an environment of high levels of commitment and learning. *Leadership Without Silver Bullets: A Guide to Exercising Leadership* will show you: * a fresh, honest examination of leadership today * why and how the industrial age leadership paradigm continues to dominate today and hinder performance * the type of leadership demanded for the future * an important new emerging paradigm and what you can do in your own organisation * leadership to successfully adapt What people are saying about *Leadership Without Silver Bullets*: I have had the privilege of seeing the results of Phillip Ralph's work as a leadership coach. He is outstanding. I can highly recommend this book as both practical and inspiring with valuable insights on how leadership in organisations really works. Michael Rennie, Managing Partner McKinsey and Company, Australia and New Zealand Engaging style, easy to read, great mix of theory and live experience. Phillip Ralph has written a practical handbook for leaders who want to dig deeper and transform themselves and their organisations. Courage required. Faint-hearted types advised to steer clear of this book. Phil Clothier, CEO Barrett Values Centre, United Kingdom This is not just another book claiming to deliver the secrets of leadership success. Instead, through the use of thought-provoking examples and practical ideas, Phillip shares his unique take on what defines real leaders... Shaneen Argall, Director, Human Resources SMS Management & Technology, Melbourne, Australia Phillip Ralph is a leading consultant to CEOs and executives and he partners with organisations to achieve breakthrough, team and organisational performance. He is an author, coach, facilitator and keynote speaker. Phillip is the founder of The Leadership Sphere.

Leadership Matthew J. Jamison, 2020-07-08 First and foremost, this book is about leadership. The world is in need of great leaders to ensure the success of all organizations, businesses, and government entities. Perhaps as much as any company or business, police departments require effective leadership. It is critical to distinguish leadership from other related terms like management, supervision, and oversight. Leadership means much more than any of these words. Leaders are personally invested in the well-being of their organization and in their personal success. This includes the idea that true leaders are willing to work tirelessly and fully commit themselves to their organization and its mission. The most effective leaders do so by the example they set each day. Leaders must also be accountable by taking responsibility for the success of the organization through measurable results. In doing so, they will be required to improve upon existing procedures and take calculated risks via the implementation of new programs. *Leadership: Turning Silver into Gold* details the ascent of a police department, due in large measure to effective leadership. While this text is based largely upon the dynamics of police leadership, the overall themes may be applied within virtually any type of business. In moving any entity forward, changes will occur, both by the choosing of those running the organization and by necessity when outside influences so dictate. The best leaders are receptive to change and embrace this growing process in order to realize success. In leading a police organization, those in positions of power must realize that the most minute details can be critical, and thus the little things must never be overlooked. All persons, whether inside or outside the

agency, must be treated with dignity and respect. True leadership includes developing the next generation of leaderships via the mentoring process. Developing new talent is an ongoing process which ensures the future success of any organization. This book is dedicated to those who commit themselves to the cause of leading others. Effective leadership can be likened to, and as rewarding as, the idea of turning silver into gold.

Offers a framework for adopting the principles of values-based leadership—self-reflection, balance, true self-confidence, and genuine humility—to lead organizations effectively Based on Kraemer's popular Kellogg MBA course on values-based leadership A recognized expert in values-based leadership, Kraemer is a sought after speaker on the subject Lively and engaging, Kraemer's book comes at a critical time when true leadership in every facet of society is desperately needed. Meaningful Partnership at Work Seth Silver, Timothy Franz, 2021-08-26 Why are some work partnerships exceptional while most are not? How can we establish and sustain an enhanced level of cohesion, connection, and collaboration in the most important work relationship, the one between a manager and team? What could remedy the high levels of isolation and anxiety so many feel at work these days? Silver and Franz explore the concept of 'meaningful partnership' in the workplace. They present meaningful partnership as a mindset where both leaders and their teams are fully committed to ensuring the support and success of the other. Then, they describe a model called ERTAP, which stands for Empathy, Respect, Trust, Alignment, and Partnership, which is the foundation for meaningful partnership. Finally, they detail a practical yet transformative relationship-building process referred to as the Workplace Covenant. This enables leaders and teams to create mutual commitments with obligatory weight that help them to feel accountable for the success of the relationship and each other. The book includes real client stories that illustrate the dimensions of partnership and the Workplace Covenant process. Silver and Franz also outline other work relationships that can benefit from meaningful partnership, pitfalls to avoid, relevant research, and insights derived from years of consulting experience. This book is a must-read for leaders interested in a better working relationship with their team; for teams who have critical work partnerships with other teams; for individuals who work closely with other individuals and need an exceptional 1:1 partnership; and finally for third-party experts in HR or continuous improvement who are seeking a new powerful way to help clients feel supported and be more successful.

Is it pedigree, experience, intelligence? The answer is yes...and much more. Exceptional leadership hinges on a complex interaction between individual psychology and unique business needs. At the top rung of the ladder, where the dynamics are most complicated, subtle adjustments in style can produce outstanding results. In his new book, *The Intangibles of Leadership*, Management Psychologist Richard Davis, Ph.D., uncovers patterns in the attributes that truly distinguish those who succeed at the top. What he found was that extraordinary leaders possess certain characteristics that fall between the lines of existing leadership models, yet are fundamental to executive success. Davis explains each of these qualities, the people who exemplify them, how to detect them in others, and most importantly, how to develop the subtle characteristics that will enable them to stand out from the pack. Learn why... It's often better to aim for silver than for gold Playing hard to get attracts people to you It's important to have a slightly inflated view of your abilities Your peripheral vision is so important It's ok to get angry with your team So many extraordinary executives have gone through crises early in their lives

The Prepared Leader Erika H. James, Lynn Perry Wooten, 2022-09-20 The next crisis might be here now, or it might be around the corner. In *The Prepared Leader: Emerge from Any Crisis More Resilient Than Before*, two history-making experts in crisis leadership—James, dean of The Wharton School of the University of Pennsylvania, and Wooten, president of Simmons University—forcefully argue that the time to prepare is always. In no other time in recent history have leaders in every industry and on every continent grappled with so many changes that have independently and simultaneously undermined their ability to lead. *The Prepared Leader* encapsulates more than two decades of the authors’ research to convey how it has positioned them to navigate through the distinct challenges of today and tomorrow. Their insights have implications for every leader in every industry and every worker at every level. In their fast-reading and actionable book, James and Wooten provide tools and frameworks for addressing and learning from crises, and they provide insight into what you need to know to become a Prepared Leader, including: The five phases of crisis management and the skills you need for each phase. They examine how the National Basketball Association and its commissioner, Adam Silver, responded to the COVID-19 pandemic. Making the right decisions under pressure and how to avoid common mistakes. They reveal how Burger King CEO Jose Cil began planning for the aftermath of a crisis right in the middle of one. Building a crisis leadership team and how to lead one that you’ve inherited. They detail how Wonya Lucas, CEO and President of the Crown Media Family Networks, aligned and mobilized an executive team during a time of crisis. James and Wooten argue that—in addition to people, profit, and the planet—prepared leadership should be the fourth “P” in a company’s bottom line. They bring decades of world-renowned research on crisis leadership, diversity and inclusion, management strategy, and positive leadership to the table to help leaders better prepare themselves to lead through crises—and for whatever lies around the corner.

Thinking and Interacting Like a Leader Kim Sydow Campbell, 2015-08-15 This textbook is a concise guide to help current and future managers become better leaders. By virtue of their organizational position, managers have “position” power over some members of their organization. They can hire and fire, sanction a bonus or promotion, and assign both desirable and undesirable tasks. However, managers who are great leaders have an additional source of power that is not related to their official position within the organization. Great leaders influence people through “personal” power—their knowledge and behavior. The system of leadership communication introduced in this book is designed to increase your own personal power.
