The letter Alif is soundless and used to express the long vowel 'aa' and also as a support for the Hamza sign. - The Arabic language does not contain capital letters. The Arabic letters are written in slightly different forms, depending on whether they come at the beginning, middle, or end of a word. For your learning practice curve, this volume milestone step starts with isolated letters. Arabic Language Sound Transcription This workbook includes guided sound pronunciation suitable for native English speakers. However, we advise looking for letters sounds over the internet, especially for authentic Arabic letters pronunciation. What to expect from Genie Arabic Writing Workbook?
