Eastern Armenian for English Speakers T Baghdasaryan,A Mkhitaryan,2019-02-10 This Armenian language textbook is one-of-its kind, innovative tool for everyone who wants to learn Armenian from A to Z. It is easy, fun and culturally informative. It educates and unfolds a whole new world in front of the learners' eyes. I have written this textbook with the challenges of my students in mind and by utilizing most strategic methodologies of teaching foreign languages. The textbook consists of two parts. Part 1 is for complete beginners, where one learns the alphabet, basic dialogues accompanied by Latin transliteration, grammar and essential vocabulary. Part 2, on the other hand, is intended for intermediate learners. We have almost no transliteration in this Part and assume that the student is feeling more comfortable reading the Armenian letters. The units in Part 2 have more exercises, longer texts and teach richer vocabulary. The texts and dialogues include information about Armenian places of interest, famous writers and artists, historical facts, pictures. This way the student feels more engaged with the Armenian culture and does not simply learn a new foreign language. In the appendix, one can find a more elaborate vocabulary list, common Armenian proverbs, acronyms and useful expressions.We hope you enjoy your Armenian journey!

Conversational Armenian Quick and Easy Yatir Nitzany,2019-01-19 THIS BOOK DOESN'T CONTAIN ANY WORDS IN THE ARMENIAN ALPHABET! ALL ARMENIAN WORDS, IN BOTH THE KINDLE AND PAPERBACK VERSION OF THIS BOOK, WERE WRITTEN IN ENGLISH-TRANSLITERATION! Have you always wanted to learn how to speak Eastern Armenian but simply didn't have the time? Well if so, then, look no further. You can hold in your hands one of the most advanced and revolutionary method that was ever designed for quickly becoming conversational in a language. In creating this time-saving program, master linguist Yatir Nitzany spent years examining the twenty-seven most common languages in the world and distilling from them the three hundred and fifty words that are most likely to be used in real conversations. These three hundred and fifty words were chosen in such a way that they were structurally interrelated and, when combined, form sentences. Through various other discoveries about how real conversations work—discoveries that are detailed further in this book—Nitzany created the necessary tools for linking these words together in a specific way so that you may become rapidly and almost effortlessly conversant—now. If you want to learn complicated grammar rules, or the non-Romanized alphabet of a foreign language, then this book is not for you. However, if you need to actually hold a conversation while on a trip to Armenia, to impress that certain someone, or to be able to speak with your grandfather or grandmother as soon as possible, then the Nitzany Method is what you have been looking for. This method is designed for fluency in a foreign language, while communicating in the present tense. Nitzany believes that what's most important is actually being able to understand and be understood by another human being right away. Therefore, unlike other courses, all words in this program are taught in English transliteration, without having to learn the complex Armenian alphabet. More formalized training in grammar rules, etc., can come later. This isn't a pronunciation book. Thus, this book is recommended for those with prior knowledge in pronunciation of the Armenian language. However, for those who aren't previously familiar, this book does provide some basic tools to teach pronunciation. This is one of the several, in a series of instructional language guides, the Nitzany Method's revolutionary approach is the only one in the world that uses its unique language technology to actually enable you to speak and understand native speakers in the shortest amount of time possible. No more depending on volumes of books of fundamental, beginner, intermediate, and advanced levels, all with hundreds of pages in order to learn a language. With Conversational Armenian Quick and Easy, all you need are fifty-three pages. Learn Armenian today, not tomorrow, and get started now!
