**English by the Nature Method** Arthur M Jensen, 2021-02-23 English by the by Nature Method. The aim of the natural approach is to develop communicative skills, and it is primarily intended to be used with beginning learners. It is presented as a set of principles that can apply to a wide range of learners and teaching situations, and concrete objectives depend on the specific context in which it is used. Terrell outlines three basic principles of the approach: Focus of instruction is on communication rather than its form. Speech production comes slowly and is never forced. Early speech goes through natural stages (yes or no response, one- word answers, lists of words, short phrases, complete sentences.) These principles result in classrooms where the teacher emphasizes interesting, comprehensible input and low-anxiety situations.
