How are you going to express your love for that beautiful Bambina that just walked past? How do you get directions to the magnificent Coliseum? With the knowledge of language, that's how. This book contains a lexicon of some of the most used words in everyday Italian conversation. It makes use of the age-old learning techniques of repetition and rote memorization, in an attempt to condition the brain for learning Italian as quickly as possible. In addition, an auxiliary feature called story mode has been included to aid the reader in a test for comprehension. Finally, it should be noted that while this book will aid in a visual recognition and comprehension of words in the Italian language, students must also have an understanding of their proper pronunciations. To help with this, there is an accompanying audiobook that will be made available, in order to enable listening lessons. And so, from the beautiful city of Milan, the city of love and all things fashionable, we present to you, The Simple Way To Learn Italian.
