A mix of project-based lessons, practical videos, and regular assessments throughout prepares beginning learners for an entry-level position in a competitive job market. Based on feedback from educators, design professionals, businesses, and educational institutions around the world, the objectives cover entry-level skill expectations for each topic. The ACA exams have proved to be highly successful; Adobe reports that the total number of exams taken worldwide has reached one million since 2008. Product development was guided by Peachpit's research in the entry-level creative media market. Interviews with educators from high school through four-year colleges provided valuable data and insight into this realm. The Peachpit team identified essential elements for a product that would teach design students what they need to prepare for the job market and to take the ACA cert exam. Peachpit also was able to identify a stellar team of teachers/trainers who have high rates of success getting students certified: Rob Schwartz and his colleagues at BrainBuffet.com & acatestprep.com.
