Marching with Dr. King Cyril Robinson, 2011-07-22 This book shows how a Jewish lawyer utilized his philosophy of prophetic Judaism (a belief in social justice) and his training as a lawyer to become the head of a trade union that formulated policies embodying these social beliefs, bringing many benefits to its members. In 1946, Ralph Helstein was the general counsel for the United Packinghouse Workers Union (UPWA), which had become a predominantly black worker organization. At the time there was a divisive left-right split in the union. As the only individual both sides trusted, Helstein was elected president of the union, thus beginning an era of positive change

for the UPWA and its workers. Beyond Helstein's efforts for the UPWA, *Marching with Dr. King: Ralph Helstein and the United Packinghouse Workers of America* also examines the involvement of Helstein in the civil rights movement, his personal association with Martin Luther King, Jr., and how his actions as union president championed the rights of African Americans, women, and even an immigrant group outside the United States—the sugar workers in Puerto Rico. This text presents a unique perspective on the life of a labor leader, revealing the connection between Helstein's religious and philosophical ideas with his leadership of the UPWA union.

The Rise and Fall of the American Whig Party Michael F. Holt, 2003-05-01 Here, Michael F. Holt gives us the only comprehensive history of the Whigs ever written. He offers a panoramic account of the tumultuous antebellum period, a time when a flurry of parties and larger-than-life politicians--Andrew Jackson, John C. Calhoun, Martin Van Buren, and Henry Clay--struggled for control as the U.S. inched towards secession. It was an era when Americans were passionately involved in politics, when local concerns drove national policy, and when momentous political events--like the Annexation of Texas and the Kansas-Nebraska Act--rocked the country. Amid this contentious political activity, the Whig Party continuously strove to unite North and South, emerging as the nation's last great hope to prevent secession.

Rolling Transition and the Role of Intellectuals András Bozóki, 2022-08-02 Utilizing a new and original framework for examining the role of intellectuals in countries transitioning to democracy, Bozóki analyses the rise and fall of dissident intellectuals in Hungary in the late 20th century. He shows how that framework is applicable to other countries too as he forensically examines their activities. Bozóki argues that the Hungarian intellectuals did not become a 'New Class'. By rolling transition, he means an incremental, non-violent, elite driven political transformation which is based on the rotation of agency, and it results in a new regime. This is led mainly by different groups of intellectuals who do not construct a vanguard movement but create an open network which might transform itself into different political parties. Their roles changed from dissidents to reformers, to movement organizers and negotiators through the periods of dissidence, open network building, roundtable negotiations, parliamentary activities, and new movement politics. Through the prism of political sociology, the author focuses on the following questions: Who were the dissident intellectuals and what did they want? Under what conditions do intellectuals rebel and what are the patterns of their protest? This book will be of interest to students, researchers, and public intellectuals around the world aiming to promote human rights and democracy.
