Martial Arts Training Through The Teacher's Eyes GM David J. Harrell,2016-11-04 Embedded in the pages is the story of the making of a teacher of the martial arts and the methods he uses to teach martial arts to children and adults at the Traditional Martial Arts Institute based in Aberdeen, Scotland. The author, Grand Master David J. Harrell has dedicated most of his life to the study and practice of an ancient art of self defence, and to the development of those skills that would allow him to share his knowledge with the next generation. His book tells the story of his personal journey in martial arts and the lessons learned from fifty-three years of training. The book begins with the author's introduction to martial arts in his home town in Suffolk at a time when segregation usually led to the exclusion of black children and adults from these white-dominated activities. Even at this early stage GM Harrell had a

strong desire to teach and he asked his first, and every subsequent teacher to teach him to teach the martial arts. He goes on to describe those things that he learned from each of his teachers about how to share knowledge and skill with students of all ages and ability levels. In addition he reveals numerous insights gained from his many years of teaching and training. The book explains how he makes use of modern teaching methods and resources to replicate and remain faithful to what has been handed down to him by his instructors, including the traditions and values of martial art training.

Aimed at fans, students, and practitioners, the book explains the principles, techniques, and forms of each system while also placing them in the wider cultural context of Chinese martial arts. Individual chapters cover the history of the manuals, Taiwanese martial arts, the lives and livelihoods of the masters, the Imperial military exams, the significance of the Shaolin Temple, and more. Featuring a wealth of rare photographs of great masters as well as original drawings depicting the intended forms of each discipline, this book offers a multifaceted portrait of Chinese martial arts and their place in Chinese culture.
