The Maker Cookbook Cindy Wall, Lynn Pawloski, 2014-08-28 The Maker Movement is hot, and librarians are eager to participate. Even if you feel restricted by budget, staff, or space, this step-by-step guide will help you turn your library into a creativity center. The Maker Movement is sweeping the nation because it is creative and educational—and a lot of fun. Nonetheless, some librarians have hesitated to incorporate the movement into their programming because their libraries do not have dedicated makerspaces. If that describes you, then take heart. Written by librarians for librarians, this cookbook proves that every library is already a MakerPlace and provides you with recipes to make your library come alive with creativity. Easy-to-use, step-by-step guidance helps you create engaging K–8 programs in science and technology, arts and crafts, and home skills that are perfect for the library setting. The menu of ideas is broken into four types of programming. Appetizers add a taste of the Maker movement to existing library programs. Entrees present full programs for a lengthy one-day event or a short series. Side Dishes are programs you can use if you have limited staff, budget, space, or any combination of those. Desserts are low-tech programs, suitable for young children. Each recipe includes extensions, variations, and curriculum tie-ins that give you even more ways to present the program ideas, whether to a different audience or as part of other related activities. Programs that involve creating a Balloon Zip Line, a Zen Garden, or a Maker

Marketplace will delight library users and generate activity and excitement in your library.

Using Math in Finance Richard Barrington, 2017-07-15 The motivation to learn something new often comes from realizing how useful that knowledge will be in the future. This title helps provide that motivation for young math students by showing them ways various math operations are used in everyday financial transactions, from shopping to banking. To ease the intimidation some students feel about math, examples include simple tasks most students may already be doing. Content builds on this past experience and gives readers a possible glimpse of their futures by also briefly introducing financial careers that relate to some of the tasks used as examples.

The Lemonade Stand Timothy Foster, 1999-01-01

New Standards-Based Lessons for the Busy Elementary School Librarian Joyce Keeling, 2020-02-06 Busy elementary librarians need help applying the new AASL Standards Framework, especially in collaboration with social studies teachers seeking to apply the social studies standards framework. This book shows a path forward for both. This book will be a tremendous help to the busy elementary school librarian who is working with busy elementary social studies teachers. As they are designing and co-teaching library-based lessons based on the Social Studies Standards Framework, the English Literacy Common Core Standards, and the new American Association of School Librarians (AASL) Standards Learners Framework, these reproducible lessons will enhance

planning and implementation. You'll get ready-to-use lessons as well as model lessons to adapt to the needs of your own curriculum and students. All standards are applied—with needed handouts—and other tools and current lists of recommended resources are provided. Lessons are coordinated to common elementary social studies curricula at indicated grade levels but can be adapted as template lessons as needed. Current resource lists aid librarians in collection development to support new and current standards.

The Great Peach Experiment 1: When Life Gives You Lemons, Make Peach Pie
Erin Soderberg Downing, 2021-04-06 Mix together a used food truck, a road trip that doesn't exactly go as planned, and a lot of pie, and you have the recipe for this sweet middle grade series starter brimming with humor, heart, and a family you'll fall in love with. Perfect for readers who gobbled down *The Penderwicks* and *The Vanderbeekers of 141st Street*. Sweet summer has taken a rotten turn . . . After a tough year, Lucy, Freddy, and Herb Peach are ready for vacation. Lucy wants to read all of the books on the summer reading list. Freddy wants to work on his art projects (when he isn't stuck in summer school). Herb wants to swim every day. Then their dad makes a big announcement: one of the inventions their mom came up with before she passed

away has sold, and now they're millionaires! But Dad has bigger plans than blowing the cash on fun stuff or investing it. He's bought a used food truck. The Peaches are going to spend the summer traveling the country selling pies. It will be the Great Peach Experiment--a summer of bonding while living out one of Mom's dreams. Summer plans, sunk. And there's one more issue Dad's neglected: none of them knows how to bake. . . . A perfect blend of humor, heart, and family antics, *When Life Gives You Lemons, Make Peach Pie* is a delectable treat to be gobbled down or savored slowly. (Slice of pie on the side, optional, but highly recommended.) A Junior Library Guild Gold Standard Selection Named to the Iowa Children's Choice List Named to the Minnesota Maude Hart Lovelace List

Carpenter Susan Hindman, 2010-08-01 Part of the Career and Tech Education series, this book explains many aspects of the job of a Carpenter, including training and skills needed.

Sadiq and the Cookie Crash Siman Nuurali, 2024 In order to earn enough money to buy a birthday gift for his mother Sadiq, his siblings, and his friends start a cookie delivery business, but baking and delivering cookies proves to be more complicated (and messy) than they expected.

Oddball Minnesota Jerome Pohlen, 2003-04 Land of the world's largest prairie

chicken, birthplace of Spam, and home of the world's oldest rock, this is Minnesota, where summers are short, winters are long, and back-road wonders abound. This entertaining guide wastes no time with descriptions of scenic lakes, pristine bike trails, or quaint cafes. Instead it directs travelers (and residents) to the spot where Tiny Tim strummed his last notes on the ukulele; to the Cold Spring chapel where two grasshoppers bow down to the Virgin Mary; and to the McLeod County Museum, where the mummy on display could be from Peru or outer space. While ordinary tourists are fighting off mosquitoes in the Boundary Waters, oddball travelers can size up the world's largest ear of corn and admire the fourth Zamboni ever built. And one last thing: there aren't 10,000 lakes in Minnesota; there are 14,215. For travelers who are in search of the unusual, there is no better reason to park the bike and hiking boots in the garage, fill up the gas tank, and hit the road to Minnesota, where weirdness awaits.
