Fingerprints of the Gods Graham Hancock, 2012-09-19 Could the story of mankind be far older than we have previously believed? Using tools as varied as archaeo-astronomy, geology, and computer analysis of ancient myths, Graham Hancock presents a compelling case to suggest that it is. Graham Hancock is featured in Ancient Apocalypse, a Netflix original docuseries. "A fancy piece of historical sleuthing . . . intriguing and entertaining and sturdy enough to give a long pause for thought."—Kirkus Reviews In Fingerprints of the Gods, Hancock embarks on a worldwide quest to put together all the pieces of the vast and fascinating jigsaw of mankind's hidden past. In ancient monuments as far apart as Egypt's Great Sphinx, the strange Andean ruins of Tihuanaco, and Mexico's awe-inspiring Temples of the Sun and Moon, he reveals not only the clear fingerprints of an as-yet-unidentified civilization of remote antiquity, but also startling evidence of its vast sophistication, technological advancement, and evolved scientific knowledge. A record-breaking number one bestseller in Britain, Fingerprints of the Gods contains the makings of an intellectual revolution, a dramatic and irreversible change in the way that we understand our past—and so our future. And Fingerprints of God tells us something more. As we recover the truth about prehistory, and discover the real meaning of ancient myths and monuments, it becomes apparent that a warning has been handed down to us, a warning of terrible cataclysm that afflicts the Earth in great cycles at irregular intervals of time—a cataclysm that may be about to recur. "Readers will hugely enjoy their quest in these pages of inspired storytelling."—The Times (UK)

Insight On Astrology III Lamar J. Young, 2020-09-18 Who are you? Who are they? Who are we? Why did this happen? And where do we go from here? These are the kinds of questions commonly asked as we try to find meaning—meaning in our purpose and meaning in our existence. Our species is engaged in a continual evolutionary process that causes us to question not only other humans and the things happening around us but also ourselves. Examining intent and motivation is a key component in the process of unraveling the mysteries associated with our existence in the here and now. The Insight on Astrology series is a tool we can utilize in getting answers and understanding context. Rooted in the tenets of metaphysics, this book, along with Young's two prior books, What's the Deal with My Sign and What's the

Deal with Your Sign, is a part of a library of resources that may make you, as well as others, appreciate astrology, where seeking a deeper meaning beyond the generic and arbitrary is the ultimate goal. Given some of the rather profound challenges our species faces as we move further into the twenty-first century, your letting the Insight on Astrology III: Your Access and Guide to Context book be a part of your reading selection is indeed a wise choice. Though varied in our perception and behavior, we're nonetheless intractably interconnected, and Insight on Astrology III: Your Access and Guide to Context may be that beacon in mending it altogether, where it all simply makes sense. Enjoy, and may your reading be fulfilling!

Planet Mars Secrets Saket Shah, 2020-01-05 In a Vedic Astrology Horoscope, the positions and effect of 9 heavenly bodies are carefully examined. These are the seven planets - Sun, Moon, Mars, Mercury, Jupiter, Venus and Saturn along with two nodes - Rahu and Ketu. Each planet has a long list of significations which are further divided into the direction, metals, age, nature, elements, body part / body system, colors, rulership of zodiac signs and the host of other attributes which a good Astrologer has to keep in mind at the time of making the calculations and giving the forecast. While all planets are given equal attention but it is Mars which is given special attention to check for suddenness in giving bad results - if it is a malefic. At the time of matching the Horoscopes for marriage purposes, it is the presence or absence of Manglik feature which is checked before anything else. So let us go a little deeper into the nature, functioning, and mode of operation of Mars in a Horoscope. Is it always to be feared or does it have the power to give also? Mars is the fourth planet from the Sun. It is called Mangal in Hindi, Kujja in Sanskrit. West has named it after the Roman God of War. Mars is also referred to as the Red Planet because of its reddish appearance as seen from Earth. Similarly all the planets are divided into 4 elements of nature - Fire, Earth, Air and Water. Mars is supposed to be a fiery planet. As the story goes in the Vedic system, Mars is the commander-in-chief of the celestial army. It is therefore, quite natural to associate Mars with action & raw energy, after all it is fiery, hot red and fast (compared to Jupiter and Saturn it is a much faster planet orbiting the Sun).

Science and the Indian Tradition David L. Gosling, 2007-09-12 This new text is a detailed study of an important process in modern Indian history. During the late nineteenth and early twentieth century, India experienced an intellectual renaissance, which owed as much to the influx of new ideas from the West as to traditional religious and cultural insights. Gosling examines the effects of the introduction of Western science into India, and the relationship between Indian traditions of thought and secular Western scientific doctrine. He charts the early development of science in India, its role in the secularization of Indian society, and the subsequent reassertion, adaptation and rejection of traditional modes of thought. The beliefs of key Indian scientists, including Jagadish Chandra Bose, P.C. Roy and S.N. Bose are explored and the book goes on to reflect upon how individual scientists could still accept particular religious beliefs such as reincarnation, cosmology, miracles and prayer. Science and the Indian Tradition gives an in-depth assessment of results of the introduction of Western science into India, and will be of interest to scholars of Indian history and those interested in the interaction between Western and Indian traditions of intellectual thought.

Magicians of the Gods Graham Hancock,2015-09-10 Graham Hancock's multi-million bestseller Fingerprints of the Gods remains an astonishing, deeply controversial, wide-ranging investigation of the mysteries of our past and the evidence for Earth's lost civilization. Twenty years on, Hancock returns with a book filled with completely new, scientific and archaeological evidence, which has only recently come to light... The evidence revealed in this book shows beyond reasonable doubt that an advanced civilization that flourished during the Ice Age was destroyed in the global cataclysms between 12,800 and 11,600 years ago. Near the end of the last Ice Age 12,800 years ago, a giant comet that had entered the solar system from deep space thousands of years earlier, broke into multiple fragments. Some of these struck the Earth causing a global cataclysm on a scale unseen since the extinction of the dinosaurs. At least eight of the fragments hit the North American ice cap, while further fragments hit the northern European ice cap. The impacts, from comet fragments a mile wide approaching at more than 60,000 miles an hour, generated huge amounts of heat which instantly liquidized millions of square kilometres of ice, destabilizing the Earth's crust and causing the global Deluge that is remembered in myths all around the world. A second series of impacts, equally devastating, causing further cataclysmic flooding, occurred 11,600 years ago, the exact date that Plato gives for the destruction and submergence of Atlantis. But there were survivors - known to later cultures by names such as 'the Sages', 'the Magicians', 'the Shining Ones', and 'the Mystery Teachers of Heaven'. They travelled the world in their great ships doing all in their power to keep the spark of civilization

burning. They settled at key locations - Gobekli Tepe in Turkey, Baalbek in the Lebanon, Giza in Egypt, ancient Sumer, Mexico, Peru and across the Pacific where a huge pyramid has recently been discovered in Indonesia. Everywhere they went these 'Magicians of the Gods' brought with them the memory of a time when mankind had fallen out of harmony with the universe and paid a heavy price. A memory and a warning to the future... For the comet that wrought such destruction between 12,800 and 11,600 years may not be done with us yet. Astronomers believe that a 20-mile wide 'dark' fragment of the original giant comet remains hidden within its debris stream and threatens the Earth. An astronomical message encoded at Gobekli Tepe, and in the Sphinx and the pyramids of Egypt, warns that the 'Great Return' will occur in our time...
