The Romantic Life D. Andrew Yost, 2022-08-24 The world is disenchanted. Rationalization, intellectualization, and scientism rule the day. We used to see the world as a magical place, but now it's just a material space. How did we get here? The shift comes in part from the rise of a certain kind of secularism, one that reduces human experiences to whatever is explainable through observation. Love? It's just a biological drive. Joy, a rush of adrenaline. Beauty, an influx of dopamine. If you can't test it, it isn't true; or so the thinking goes. The Romantic Life draws upon eighteenth- and nineteenth-century Romanticism to provide five strategies to re-enchant the world, five ways to imbue the world with meaning, truth, and beauty. According to the Romantics, far from being useless, encounters with impractical things like the imagination, nature, symbolism, sincerity, and the sublime give our lives a richness and depth that cannot be attained on a purely material account of the world. By learning from their example, we can come to see into the life of things, as William Wordsworth called it. We can be re-enchanted.

Handbook of Visual Communication Sheree Josephson, James Kelly, Ken Smith, 2020-04-03 This *Handbook of Visual Communication* explores the key theoretical areas and research methods of visual communication. With chapters contributed by many of the best-known and respected scholars in visual communication, this volume brings together significant and influential work in the discipline. The second edition of this already-classic text has been completely revised to reflect the metamorphosis of communication in the last 15 years and the ubiquity of visual communication in our modern mediated lifestyle. Thirteen major theories of communication are defined by the top experts in their fields: perception, cognition, aesthetics, visual rhetoric, semiotics, cultural studies, ethnography, narrative, media aesthetics, digital media, intertextuality, ethics, and visual literacy. Each of these theory chapters is followed by an exemplar study or two in the area, demonstrating the various methods used in visual communication research as well as the research approaches applicable for specific media types. The *Handbook of Visual Communication* is a theoretical and methodological handbook for visual communication researchers and a compilation for much of the theoretical background necessary to understand visual communication. It is required reading for scholars, researchers, and advanced students in visual communication, and it will be influential in other disciplines such as advertising, persuasion, and media studies. The volume will also be essential to media practitioners seeking to understand the visual aspects of how audiences use media to contribute to more effective use of each specific medium.

Jesus for President Shane Claiborne,Chris Haw,2009-08-30 Jesus for President is a radical manifesto to awaken the Christian political imagination, reminding us that our ultimate hope lies not in partisan political options but in Jesus and the incarnation of the peculiar politic of the church as a people 'set apart' from this world. In what can be termed lyrical theology, Jesus for President poetically weaves together words and images to sing (rather than dictate) its message. It is a collaboration of Shane Claiborne's writing and stories, Chris Haw's reflections and research, and Chico Fajardo-Heflin's art and design. Drawing upon the work of biblical theologians, the lessons of church history, and the examples of modern-day saints and ordinary radicals, Jesus for President stirs the imagination of what the Church could look like if it placed its faith in Jesus instead of Caesar. A fresh look at Christianity and empire, Jesus for President transcends questions of 'Should I vote or not?' and 'Which candidate?' by thinking creatively about the fundamental issues of faith and allegiance. It's written for those who seek to follow Jesus, rediscover the spirit of the early church, and incarnate the kingdom of God.
