Genetic Transformation Systems in Fungi, Volume 2 Marco A. van den Berg,Karunakaran Maruthachalam,2014-10-31 Fungi are an economic very important class of microbes. Not only do they host a range of versatile enzymes used in industrial applications (biofuels, laundry, food processing), as well do they produce several very important pharmaceutical drugs (statins and penicillins). Moreover, fungal pathogens can cause great damage in agricultural production (*Phytophthora* and *Botrytis*) and during mammalian infections

(*Penicillium marneffeii* and *Candida*). Transformation of DNA is used to understand the genetic basis behind these traits. Several different techniques have been developed over the years and readily shown to be decisive methods to improve fungal biotechnology. This book will cover the basics behind the most commonly used transformation methods, as well as associated tools and techniques. Each chapter will provide protocols along with examples to be used in laboratories worldwide.

"An Arch Rebel Like Myself" Gene C. Armistead,Robert D.

Arconti,2018-07-19 Dan Showalter was Speaker Pro Tem of the California State Assembly at the outbreak of the Civil War and the exemplar of treason in the Far West among the pro-Union press. He gained notoriety as the survivor of California's last political (and actual, fatal) duel, for his role in the display of a Confederate flag in Sacramento, and for his imprisonment after an armed confrontation with Union troops. Escaping to Texas, he distinguished himself in the Confederate service in naval battles and in pursuit of Comanche raiders. As commander of the 4th Arizona Cavalry, he helped recapture the Rio Grande Valley from the Union and defended Brownsville against a combined Union and Mexican force. Refusing to surrender at war's end, he fled to Mexico, where he died of a wound sustained in a drunken bar fight at age 35.

The Ten Thousand Things Maria Dermout, 2002-07-31 In Wild, Cheryl Strayed writes of *The Ten Thousand Things*: Each of Dermoût's sentences came at me like a soft knowing dagger, depicting a far-off land that felt to me like the blood of all the places I used to love." And it's true, *The Ten Thousand Things* is at once novel of shimmering strangeness—and familiarity. It is the story of Felicia, who returns with her baby son from Holland to the Spice Islands of Indonesia, to the house and garden that were her birthplace, over which her powerful grandmother still presides. There Felicia finds herself wedded to an uncanny and dangerous world, full of mystery and violence, where objects tell tales, the dead come and go, and the past is as potent as the present. First published in Holland in 1955, Maria Dermoût's novel was immediately recognized as a magical work, like nothing else Dutch—or European—literature had seen before. *The Ten Thousand Things* is an entranced vision of a far-off place that is as convincingly real and intimate as it is exotic, a book that is at once a lament and an ecstatic ode to nature and life.

Political Animal Frank Perez, 2022-10-17 During Mardi Gras 1973, Stewart Butler (1930–2020) fell in love with Alfred Doolittle—a wealthy socialite and schizophrenic from San Francisco. Their relationship was an improbable love story that changed the course of LGBTQ+ history. With Doolittle's money, Butler was able to retire and devote his life to political activism in the cause of queer liberation.

A survivor of the horrific Up Stairs Lounge arson, Butler was a founding member of the first statewide lesbian and gay rights organization in Louisiana and an early champion for transgender rights, playing a key role in the eight-year struggle to persuade PFLAG to become the first national LGBTQ+ organization to include trans people in its mission statement. In *Political Animal: The Life and Times of Stewart Butler*, author Frank Perez traces Butler's amazing life from his early childhood in Depression-era New Orleans, his adolescence at Carville where his father worked, his first unsuccessful attempt at college, his time in the army as a closeted gay man, his adventures in Alaska, his transformation into a hippie in the 1960s, his love affair with Doolittle, his decades as a gay rights advocate, and ultimately, his twilight years as an elder statesman. Based on Butler's own personal papers, including hundreds of letters, and dozens of interviews, *Political Animal* paints an intimate portrait of a legendary figure in gay politics and the times in which he lived.
