Level Up Stacey Abrams, Lara Hodgson, Heather Cabot, 2022-02-22 An inspiring and revelatory guide to starting and scaling a small business, from powerhouse duo Stacey Abrams and Lara Hodgson Like many business owners, renowned politician and activist Stacey Abrams didn't start a business because she dreamed of calling herself an entrepreneur. Her part-time post (and its \$17,310 annual salary) as a member of the Georgia House of Representatives necessitated striking out on her own as a consultant—her first small business. Then, Stacey and her friend Lara Hodgson launched an infrastructure advisory firm—named *Insomnia Consulting* because they did their best thinking at 3:00 a.m.—and then another business, and then another. Fifteen years into their entrepreneurial journey together, they have tackled the obstacles that many business owners face: how to grow sustainably, hire thoughtfully, and keep up with the Goliaths in your industry. Now, for the first time, Stacey and Lara share their inspiring and relatable personal story and lessons learned the hard way to show how every business owner can confront the forces that conspire to keep small businesses small. Lauded for her “resilient, visionary leadership” (Barack Obama) and celebrated as a “passionate advocate of democracy” (Madeleine Albright), Stacey now brings her fierce sense of justice to the challenges that America's business owners face. *Level Up* arms readers with the confidence, know-how, and savvy to overcome the obstacles that hold their businesses back.

How Would You Like to Pay? Bill Maurer,2015-10-14 From Bitcoin to Apple Pay, big changes seem to be afoot in the world of money. Yet the use of coins and paper bills has persisted for 3,000 years. In *How Would You Like to Pay?*, leading anthropologist Bill Maurer narrates money's history, considers its role in everyday life, and discusses the implications of how new technologies are changing how we pay. Homerooms and Hall Passes: Heroes Level Up Tom O'Donnell,2020-10-06 Dungeons & Dragons meets Jumanji in the second book in the laugh-out-loud adventure series *Homerooms and Hall Passes*! Months after saving suburbia from destruction, our heroes are back to their old lives of dungeon delving and magical quests. All except the wizard Albiorix, who has given up adventuring and uses his time trying (unsuccessfully) to create his own board game. When the party finds their old friend June Westray's smartphone for sale in a Bríandalörian bazaar, however, they fear the Realm of Suburbia is under threat. Thus, the five young adventurers must travel back into *Homerooms & Hall Passes*, a role-playing game where they assume the characters of average American kids. This time they're at Level 9 and will face a whole new set of challenges: their freshman year of high school!

There are different cliques, different rules, and higher stakes. And if that wasn't stressful enough, the heroes must track down an evil spellbook, defeat a sinister foe, and figure out how to get back home "You can't help falling in love with this hilarious upside-down take on Dungeons & Dragons. I read; I cheered; I laughed out loud."—Gordon Korman on Homerooms and Hall Passes

BattleSpace of Mind Michael Joseph McCarron,2024-02-29 The Nazi's never surrendered and planned their 4th Reich using neurocognitive weapons. Going underground their technology made it's way to S. America, the Soviet Union, the United States, among other places. We all are bound by the new rules of corporate fascism, long planned by Himmler, and his main strategy for a 4th Reich, financial control. Are we all just living in a computer-controlled information battlespace continued from World War II? This book dissects the matrix of control used by advanced military industrial powers; it breaks down the technology bit by bit so you have an understanding how technology is being used in a battle for your mind. I address these issues from a veteran's insight as a former Signal Intelligence specialist and with some background in the Intelligence Community, I bring forth countermeasures to this control, showing you how you can safeguard your mind from these attacks. Countermeasures that are not available anywhere in the commercial world, yet without them you will be easy prey for these directed targeted pulse modulated attacks first used by the Nazis.

From then on, his dream returned to a thousand twists and turns ...The dogs in the village continued to scream in pain, while hundreds of sows screamed in the middle of the night. Level Up Your Time with God Patrick DA Sims,2021-05-10 Why level up your time with God? The latest stats say 65 percent of adults in America play video games, and we all know kids who play video games as well, but there come issues with that. We've all been told that video games are no good at one point or another, or some of us are the ones who've said it. The media talks about violence caused by games, and many churches and parents talk about them being mental garbage. But how much of that is true? Are video games fundamentally different than spending time with God, or can they actually be something that helps our relationship with God? What if our games could be something that helps us know God more instead of being something that distracts us from God to the point we either feel guilty thinking about God or we just leave the church altogether? What if you, as a gamer, could read something that connects games to God in a meaningful way? What if you-as a parent, grandparent, spouse, or friend of a gamer-could read something that answers your worries and shows just how much of God is in this stuff? We don't have to wonder. We can love video games and still choose God. You just need to Level Up Your Time with God.
