*Libraries to the People* Robert S. Freeman,David M. Hovde,2003-01-27 With today’s technology, anyone anywhere can access public library

materials without leaving home or office—one simply logs on to the library’s website to be exposed to a wealth of information. But one of the concerns that arises is the lack of access for groups isolated by socioeconomic, geographical, or cultural factors. This problem is not a new one. For almost two centuries, public libraries and other organizations have been trying to bring library services to isolated populations. This book is a collection of fourteen essays examining the contributions of librarians, educators, and organizations in the United States who have endeavored to bring library services to groups that previously did not have access. There are three sections: Benevolent and Commercial Organizations, Government Supported Programs, and Innovative Outreach Services. The essays discuss reading materials for two centuries of rural Louisianians, shipboard libraries for the American Navy and merchant Marine, library outreach to prisoners, the Indiana Township Library Program, tribal libraries in the lower forty-eight states, open-air libraries, electronic outreach, and the use of radio in promoting the Municipal Reference Library of the City of New York, to name just a few of the essay topics.

**The Library Book** Susan Orlean,2019-10-01 Susan Orlean’s bestseller and New York Times Notable Book is “a sheer delight...as rich in insight and as varied as the treasures contained on the shelves in any local library” (USA TODAY)—a dazzling love letter to a beloved institution and an investigation into one of its greatest mysteries. “Everybody who loves books should check out The Library Book” (The Washington Post). On the morning of April 28, 1986, a fire alarm sounded in the Los Angeles Public Library. The fire was disastrous: it reached two thousand degrees and burned for more than seven hours. By the time it was extinguished, it had consumed four hundred thousand books and damaged seven hundred thousand more. Investigators descended on the scene, but more than thirty years later, the mystery remains: Did someone purposefully set fire to the library—and if so, who? Weaving her lifelong love of books and reading into an investigation of the fire, award-winning New Yorker reporter and New York Times bestselling author Susan Orlean delivers a “delightful...reflection on the past, present, and future of libraries in America” (New York magazine) that manages to tell the broader story of libraries and librarians in a way that has never been done before. In the “exquisitely written, consistently entertaining” (The New York Times) The Library Book, Orlean chronicles the LAPL fire and its aftermath to showcase the larger, crucial role that libraries play in our lives; delves into the evolution of libraries; brings each department of the library to vivid life; studies arson and attempts to burn a copy of a book herself; and reexamines the case of Harry Peak, the blond-haired actor long suspected of setting fire to the LAPL more than thirty years ago. “A book lover’s dream...an ambitiously researched, elegantly written book that serves as a portal into a place of history, drama, culture, and stories” (Star Tribune, Minneapolis), Susan Orlean’s thrilling journey through the stacks reveals how these beloved institutions provide much more than just books—and why they remain an essential part of the heart, mind, and soul of our country.

*Library Ideals* Henry Eduard Legler,1918 WISCONSIN, a true cradle of freedom and successful government, has fostered several librarians who were true humanists. Dr. Peckham was one. Dr. Thwaites was another. Henry E. Legler was unlike either of these, but greater than either in his continued and unabated activity for the good of the people. Once, on being complimented for his splendid work in natural history and his persistence in the pursuit of scientific facts, Dr. Peckham remarked: Oh, yes, but the facts have no value in themselves. They merely build up the groundwork of the ideas, and help you climb to the point of view where the deeper aspects of the subject spread out before you like a landscape beneath a mountain-top. Mr. Legler's activity in behalf of libraries will support the same explanation. He seemed always immersed in detail, always planning some movement and carrying it into effect by his peculiar, dynamic persistence. But he who observed the man kindly and closely cannot have failed to have noticed that there was a distinct Beyond illumining and overshadowing it all. There was a dream to come true, a vision to be unfolded. The dream and vision were in the man's speech and eye. He lived under a prophecy.
