Gradspot.com's Guide to Life After College David Klein,Chris Schonberger,Stuart Schultz,Tory Hoen,2011-04-05 Whether you're searching for your first job or apartment, navigating the treacherous waters of office politics, or just trying to figure out how to file your tax return, Gradspot.com's Guide to Life After College tackles the most common issues facing twentysomethings as they find their feet in the real world. Authors Chris Schonberger, Stuart Schultz, David Klein, and Tory Hoen (twentysomethings themselves) have been through it all before, and they maintain a sense of humor about their triumphs and missteps along the way. In addition to sharing their own experiences and anecdotes, they have polled hundreds of recent grads and consulted topic experts to give readers the information they need, to find their feet beyond campus. Packed with indispensable tips, candid advice, and humorous dispatches from early adulthood, this easy-to-use guide has everything you need to know but didn't learn in college! Topics include: Finding an Apt, Job Hunting, Healthcare, Credit, Top Recent Grad Cities, Cars, Student Debt, Saving & Investing, Office Etiquette, Networking, Dating, Travel, Cooking, Moving Home, The One-Year Rut, 401(k)s, and more.

Drama Education with Digital Technology Michael Anderson,David Cameron,John Carroll,2011-10-20 Drama Education with Digital Technology explores the rapidly evolving intersections between drama, digital gaming, technology and teaching. It documents the praxis (practice and research) that move beyond anecdotal discussion of approaches and design. The contributors explore the realities of teaching an ancient aesthetic form in classrooms full of technologically able students. It also examines cases from classroom practice to present teaching, with approaches and understandings that are based on evidence and supported by cutting edge learning theory from educational leaders in drama and technology.

GOSH Child Health Portal Project 2001 to 2003 Key Documents David South, Project Manager,2015-02-05 Britain's best-loved children's hospital and charity, Great Ormond Street Hospital for Children NHS Trust (GOSH), contracted me to lead a two-year project to modernise the hospital's web presence and take its brand into the 21st century. GOSH is both Britain's first children's hospital and a pioneering child health institution (along with its partner the Institute for Child Health). The hospital's outstanding reputation meant the project was carried out under intense public, media and professional scrutiny, and required a keen awareness of new media developments and the needs of the hospital's patients, their families and the public.

The Ringtone Dialectic Sumanth Gopinath,2013-07-19 The rise and fall of the ringtone industry and its effect on mobile entertainment, music, television, film, and politics. A decade ago, the customizable ringtone was ubiquitous. Almost any crowd of cell phone owners could produce a carillon of tinkly, beeping, synthy, musicalized ringer signals. Ringtones quickly became a multi-billion-dollar global industry and almost as quickly faded away. In The Ringtone Dialectic, Sumanth Gopinath charts the rise and fall of the ringtone economy and assesses its effect on cultural production. Gopinath describes the technical and economic structure of the ringtone industry, considering the transformation of ringtones from monophonic, single-line synthesizer files to polyphonic MIDI files to digital sound files and the concomitant change in the nature of capital and rent accumulation within the industry. He discusses sociocultural practices that seemed to wane as a result of these shifts, including ringtone labor, certain forms of musical notation and representation, and the creation of musical and artistic works quoting ringtones. Gopinath examines “declines,” “reversals,” and “revivals” of cultural forms associated with the ringtone and its changes, including the Crazy Frog fad, the use of ringtones in political movements (as in the Philippine “Gloriagate” scandal), the ringtone's narrative function in film and television (including its striking use in the films of the Chinese director Jia Zhangke), and the ringtone's relation to pop music (including possible race and class aspects of ringtone consumption). Finally, Gopinath considers the attempt to rebrand ringtones as “mobile music” and the emergence of cloud computing.

Global Mobile Media Gerard Goggin,2010-10-18 Gerard Goggin has produced an incisive and penetrating overview of the world according to mobiles. Covering sight, sound and status, plus a host of other issues, he provides a provocative analysis of how mobile communication gadgets come to play such a prominent role in our lives. Any scholar of New Media will want to read this book – James Katz, Department of Communication, Rutgers University, USA With billions of users worldwide, the cell phone is not only a successful communications technology; it is also key to the future of media. Global Mobile Media offers an overview of the complex topic of mobile media, looking at the emerging industry structures, new media economies, mobile media cultures and network politics of cell phones as they move centre-stage in media industries. The development, adoption and significance of cell phones for society and culture have been registered in a growing body of work. Where existing books have focused on communication, and on the social and cultural aspects of mobile media, Global Mobile Media looks at the media dimensions. Goggin provides a pioneering yet measured evaluation of how cell phone corporations, media interests, users and policy makers are together shaping a new media dispensation. Global Mobile Media successfully places new mobile media historically, socially and culturally in a wider field of portable media technologies through extensive case studies, including: the rise of smartphones, with a detailed discussion of the Apple iPhone and how it has catalysed a new phase in convergent media, audiences and innovation the new agenda in cultural politics and media policy, featuring topics such as iPhone apps and control, mobile commons, and open mobile networks a succinct map of the political economy of mobile media, identifying key players, patterns of ownership and control, institutions, and issues a critical account of cell phones’ involvement in and contribution to much-discussed new forms of production and consumption, such as user-generated content, p2p networks, open and free source software networks an anatomy of how cell phones relate to other online media, particularly the Internet and wireless technologies. Global Mobile Media is an engaging, accessible text which will be of immense interest to upper-level undergraduates, postgraduates and researchers in Communication Studies, Cultural Studies and Media Studies, as well as those taking New Media courses.

Innovation through Fusion CJ Meadows,2020-01-20 Just as nuclear fusion produces massive energy from combining two nuclei, a fusion in business, technology, and the arts can release massive value—creating whole new companies, industries, and human capabilities. Examples of the fusion technique for high-value, radical innovation are presented in this unique collection of stories about innovating across industries, fields, organizational silos, nations, social class, and more. This book is the result of a global research study of 30 world-class innovators who have collectively created billions of dollars’ worth of business value, as well as new advances in the arts and sciences that bring joy to the world and can save millions of lives. Insights from the journeys of the innovators provided in this book will help leaders, organizations, and individuals succeed in their innovative endeavors. In addition, each chapter provides a link to a short video that provides further insights, mostly from the innovators themselves. Innovation through Fusion is essential reading for individual innovators who would like to create the future; teams and organizations that need to craft radical or high-value innovations (especially across industries or organizational silos); and leaders concerned about declining returns on innovation efforts and uncertain about organizational survival in a disruptive world. The author provides a new model of lateral innovation—useful both as an innovation process and as a framework to assess your lateral innovation capabilities. The book is replete with value-creation examples of lives saved, billions of dollars of savings/growth, and new products, services, and companies, as well as stories of leading lateral innovators—who they are and how they succeeded. The Impulse Economy Gary Schwartz,2011-11-01 We live in a world where our mobile devices have become extensions of ourselves. We depend on them for instant connections to entertainment, social media, news, and deals. The phone has become our ticket, loyalty card, and catchall wallet. Networks are faster, phones are smarter, and the mobile shopper is ready to spend money now. What can a business do to maximize the mobile buying power of the new impulse consumer? Gary Schwartz has written a groundbreaking book that outlines the history of the mobile industry and shows just how businesses can build up their mobile platforms to maximize online sales. He’ll explain: • How to minimize barriers between the shopper and a sale. • How marketers can connect and, more important, reconnect with loyal shoppers. • The technology available now—and what’s coming soon—and how to pick a solution that will deliver results. But like Blink or Freakonomics, this isn’t just a book for businesses. It’s also an eye-opening look into the ways our economy is changing every second of every day. Gary Schwartz analyzes a phenomenon that’s

modifying people’s actions and challenges our assumptions about our behavior as consumers. Anyone interested in the ways our behavior as shoppers is changing—and what we can do to better harness this opportunity—will find this book to be essential reading.

Composition Concepts for Band and Orchestra Alexander Koops,John L. Whitener,2020-04-12 This book is intended to introduce concepts about music composition to band and orchestra students of all ages and engage them in actual creative composing projects. The National Core Arts Standards (2014) emphasize that students should be engaged in the “creative practices of imagination, investigation, construction, and reflection in multiple contexts.” These lesson plans attempt to accomplish that challenge in the context of large group band and orchestra ensemble classes using composition activities and projects.
