Sport Broadcasting for Managers Hunter Fajak, Stephen Frawley, 2022-06-07 This is the first book to focus on sport broadcasting as a core aspect of contemporary sport business and management. It explains how sport business professionals can manage sport broadcasting as an essential component of their work. Drawing on cutting-edge theory and research into sport broadcasting around the world, the book introduces the history and core concepts of sport broadcasting, before showing how broadcasting intersects with sport management practice. It covers key themes and issues such as the law and regulation, valuation and negotiation, strategy, logistics and consumer behaviour. Outlining best practice for sport managers, this book is essential reading for any course on sport business and management, sport marketing or sport media, and a useful companion to courses on broadcast production, sports journalism or digital media.

The People's Game? S. Morrow, 2003-09-30 The beautiful game is big business. Football leagues worldwide are being dominated by clubs who are becoming richer and more powerful. Enormous corporate investment, deals with media giants, huge volumes of merchandising and dedicated TV channels mean that football teams are as concerned with the affairs of the boardroom as what is going on on the pitch. In this dynamic new book, Stephen Morrow examines the changing face of football, looking at issues such as the role of the stock exchange, the viability of the stakeholder approach, the 'new economics' of football including the role of media firms and the social impact of the sport.

Sport and Mediatization Kirsten Frandsen, 2019-11-05 Contemporary society is highly media-saturated, and no sector more so than sport. Drawing on case studies from the Tour de France to fitness apps, this book introduces the concept of 'mediatization' and examines how media - historically and

currently - are significant drivers for social and cultural change in sport. Utilizing different analytical approaches, case studies illustrate how so-called legacy media have historically been involved in the establishment of the institution of sport and have persistently been heavily involved in structural changes in the same domain. However, digital media currently add significantly to the development of a more complex picture of globalized interdependencies and still growing media presence in all aspects of the everyday lives of both sporting organizations, athletes and audiences/fans. The book seeks to eschew media centrism, acknowledging that changes are not only 'driven' by media but also related to other macro-social forces of change, such as globalization, commercialization, and individualization. Offering a new analytical framework, *Sport and Mediatization* enables students and scholars in the transdisciplinary field of media and sports studies to analyze and understand the influence of media in a much more complex environment.

The Demand for International Football Telecasts in the United States Georgios Nalbantis, Tim Pawlowski, 2017-02-06 This book provides a comprehensive overview and economic analysis of US consumer demand for televised football (soccer). Accounting for transnational demand, research is focused on the US consumers demand for the English Premier League, Spanish La Liga, Italian Serie A, German Bundesliga, French Ligue 1 and the UEFA Champions League, which represent the most popular and marketable football competitions worldwide, and have recently sealed lucrative media rights contracts in many large markets, including the US. The study also takes account of North American Major League Soccer (MLS) in order to provide a more comprehensive overview of the country's football market and to allow for direct comparisons with the aforementioned European competitions. These findings offer valuable insights for US broadcasters, European league organizers and managers to adjust existing strategies and/or develop new strategies in

conquering the US football market.

The English Premier League Richard Elliott,2017-06-14 The English Premier League (EPL) is one of the world's most valuable and high-profile sports leagues, with millions of fans around the globe. The 2016/17 season marked the 25th anniversary of the EPL, providing a unique opportunity to reflect on how it has contributed, both positively and negatively, to key developments in football – and in sport and culture more broadly – at local, national and global levels. Drawing on central themes in the social scientific study of sport, such as globalisation, celebrity, fandom, commercialisation, gender, sexuality and race, this book is the first to assess the historical development and current significance of the EPL. With original contributions from several of the world's leading football scholars, it provides in-depth case studies of the multifaceted role of the EPL in the contemporary world of sport, as well as offering thought-provoking predications for the future challenges that it will face. *The English Premier League: A Socio-Cultural Analysis* is a fascinating read for any sport studies student or scholar with a particular interest in football and the sociology of sport.

the Dark shall do what Light cannot Sanem

Ozdural,2015-04-10 We live in a world of Light and Dark, Day and Night, Good and Evil. How do we deal with evil? Despite its power and resources, the state with all its laws and police is neither omnipotent nor omnipresent. It is not always enough. There is a place called Pera which lies beyond the Light Veil, on the other side of reality. There are light trees there that eat sunlight and bear fruit that, in turn, lights up and energises (literally) the community of Pera. There are light birds that glitter in the night because they have eaten the seed of the lightberry. The House of Light and Dark, which is the domain of the Sun and her brother,

Twilight, welcomes all creatures living in Pera. But in the midst of all the glitter, laughter and the songs, it must be remembered that the lightberry is poisonous to the non-Pera born, and the Land is afraid when the Sun retreats, for it is then that Twilight walks the streets... In Pera, as in our world, there is deceit and cruelty. There are people who would harm defenceless children, and those who would jeopardise the health and wealth of their communities for personal gain. What happens, though, when the Sun is not able to shine her light into the repulsive crevices of humanity? When, with all the goodwill in the world, we cannot keep the children safe, or the forests intact. What happens when the rivers are polluted irreversibly, and we can hear the land groan: barren and toxic? And the people have lost their savings, their homes and their communities... Then, the Dark shall do what Light cannot. With some of the characters that we originally met in LiGa™, Sanem Ozdural's first novel, the Dark shall do what Light cannot transports us from New York to the colourful and wonderful world of Pera. On the way we meet the pirate Patron and her ship the Flying Fish, the only one that can sail through the Light Veil; Orion (Imm.), the Hunter, respected by some and feared by others; and Shadow, the formidable soul of Pera.

The Use of Video Technologies in Refereeing Football and Other Sports Manuel Armenteros, Anto J. Benitez, Miguel Ángel Betancor, 2019-11-25 For a long time, various different lobbying sectors have claimed that the use of video technology is an effective aid in decision-making. Now the IFAB has taken a historic step in the approval of experiments on the use of video to provide support to football refereeing. The Use of Video Technologies in Refereeing Football and Other Sports analyses the capacity of audio-visual technology from different perspectives to help understand the best implementation of the Video Assistant Referee (VAR) system in football and, more generally, in other sports. This book addresses in-depth interdisciplinary viewpoints on the need and the opportunity of

the implementation procedures regarding how to use it, considering that it could lead to very important changes. The book goes on to examine various approaches to the most interesting topics for players, amateurs, coaches, referees and referees coaches. Offering viewpoints from both academics and professionals, this new volume addresses the VAR issue in a multidisciplinary way, analysing the implications of video replay application in football from the perspective of players, coaches, television professionals, referees, amateurs, sports lawyers, media and educators.

Global Media Sport David Rowe, 2011-12-01 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com. How has globalization impacted on sports media? What are the economic ramifications? And what is the future of sports media? In order to answer these questions, this book investigates the constituents, dimensions and implications of the flows of media sport from the Global West to the Global East, and in the reverse direction. At an historical moment when the relative stability of the Western media sport order is under challenge, it analyses a range of key structures, practices and issues whose ramifications extend far beyond the fields of play and national contexts in which sport events take place. The book will appraise and analyse the state of sports television, rise of new sports media, emergence of hybrid sport cultural forms, eruption of sport-related political controversies, scandals and power struggles, mutations of forms of global sport fandom, and projections of the future of global media sport. In bringing together the latest research from across a number of disciplines, this book offers an exciting contribution to the emerging field of global sports media.

The Routledge Companion to Global Film Music in the Early Sound Era Jeremy Barham, 2023-12-22 In a major expansion of

the conversation on music and film history, The Routledge Companion to Global Film Music in the Early Sound Era draws together a wide-ranging collection of scholarship on music in global cinema during the transition from silent to sound films (the late 1920s to the 1940s). An extensive editorial Introduction and 50 chapters from an array of international experts connect the music and sound of these films to regional and transnational issues—culturally, historically, and aesthetically—across five parts: Western Europe and Scandinavia Central and Eastern Europe North Africa, The Middle East, Asia, and Australasia Latin America Soviet Russia Filling a major gap in the literature, The Routledge Companion to Global Film Music in the Early Sound Era offers an essential reference for scholars of music, film studies, and cultural history.

Proceedings of the 7th International Conference on Social and Political Sciences (ICoSaPS 2022) Leni Winarni,Takuo Sasaki,Suyatno Suyatno,Aulia Suminar Ayu,2023-01-14 This is an open access book. This conference will discuss transformation issues in various fields along with the COVID-19 crisis in the world. During these two years of this pandemic, the world faced many significant changes. These changes have impacted various aspects of life, not only on a small scale in people's everyday life, but also on a large scale that changes the social structure of society in the global world. The keywords in this transformation are adaptation, resilience, and innovation. Each party involved in the change is required to make adjustments so as not to be left behind. The important aspect is to what extent these parties come up with new findings to survive amid the pace of this rapid global transformation. By focusing on transformation issues, this conference will bring scholars, practitioners and policy makers from various disciplines to discuss changes in various fields of life

during the COVID-19 pandemic and in the future. This conference is also expected to be a medium for disseminating research findings related to issues of change in various fields including but not limited to social, economic, cultural, educational, political and government, gender, environment, religion, communication, and international relations.

Soccer's Neoliberal Pitch John M. Sloop, 2023-05-23

American sports agnostics might raise an eyebrow at the idea that soccer represents a staging ground for progressive cultural, social, and political possibility within the United States. It is just another game, after all, in a society where mass-audience spectator sport largely avoids any political stance in other than a generic, corporate-friendly patriotism. But John Sloop picks up on the work of Laurent Dubois and others to see in American soccer—a sport that has achieved immense participation and popularity even as it struggles to establish major league status—a game that permits surprisingly diverse modes of thinking about national identity because of its marginality. As a rhetorician who engages with both critical theory and culture, John Sloop seeks to read soccer as the game intersects with gender, race, sexuality, class, and the logic of neoliberal values. The result of this engagement is a sense of both enormous possibility, and real constraint. If American soccer offers more possibility because of its marginality, looking at how these cultural, social, and political possibilities are closed off or constrained can provide valuable insights into American culture and values. In *Soccer's Neoliberal Pitch*, Sloop analyzes a host of soccer-adjacent case studies: the equal pay dispute between the US women's national team and the US Soccer Federation, the significance of hooligan literature, the introduction of English soccer to American TV audiences, the strange invisibility of the Mexican soccer league despite its consistent high TV ratings, and the reading of US national teams as underdogs despite the nation's quasi-imperial dominance of the Western hemisphere. While there is a growing bookshelf of titles

on soccer and a growing number on American soccer, Soccer's Neoliberal Pitch is the first and only book-length analysis of soccer through a rhetorical lens. This book is a model for critical cultural work with sports, with appeal to not only sports studies, but cultural studies, communication, and even gender studies classrooms. It is, independent of its bona fides, an engaging and enjoyable read for the soccer fan and the soccer-curious--

Routledge Handbook of Sport and COVID-19 Stephen Frawley, Nico Schulenkorf, 2022-08-24 This book examines the initial impact of the coronavirus pandemic on global sport and the varying consequences of the sport shutdown on all levels of society. It also considers the many lessons that have been learnt so that sport stakeholders can successfully adjust and operate under the new normal. Featuring authors, cases and examples from around the world, the book explores the impact of COVID-19 on sport at all levels, from community sport - where local clubs, gyms and development programmes had to find ways to survive with pitches closed and projects cancelled - to the major professional sport leagues and sport mega-events, with events postponed and teams playing in empty stadia. It considers the economic, social and developmental impacts of the pandemic, including physical, mental and social wellbeing, and looks at how key professional and community sport organizations have reacted to the crisis, reflecting on the lessons learnt and preparations for

future pandemics and challenges of similar size and significance. With COVID-19 now endemic in the global population, this is an essential reference for anybody working in sport, from students and researchers to managers, policymakers and development officers.
