**Soul Talk** Horina Uali-Wari, 2019-12-06 Soul Talk - A Sense of Feeling is a compilation of love poems for young adults. Soul Talk are reflections, thoughts, emotions and imaginations that are sometimes kept and not spoken aloud. I wrote them for keeps - but I would like to share them now with others. I hope you enjoy reading and feel the love that I felt at the time I wrote them. It is a good and healthy exercise to allow yourself to imagine and feel love - even if from afar - than not imagine and not allow yourself to be consumed by love - at all. It is better to live and allow yourself to dream sometimes than not dream at all - and be a living person who is already dead inside.

**Pale Blue Dot** Carl Sagan, Ann Druyan, 2011-07-06 "Fascinating . . . memorable . . . revealing . . . perhaps the best of Carl Sagan's books."—The Washington Post Book World (front page review) In *Cosmos*, the late astronomer Carl Sagan cast his gaze over the magnificent mystery of the Universe and made it accessible to millions of people around the world. Now in this stunning sequel, Carl Sagan completes his revolutionary journey through

space and time. Future generations will look back on our epoch as the time when the human race finally broke into a radically new frontier—space. In *Pale Blue Dot*, Sagan traces the spellbinding history of our launch into the cosmos and assesses the future that looms before us as we move out into our own solar system and on to distant galaxies beyond. The exploration and eventual settlement of other worlds is neither a fantasy nor luxury, insists Sagan, but rather a necessary condition for the survival of the human race. “Takes readers far beyond Cosmos . . . Sagan sees humanity’s future in the stars.”—Chicago Tribune

*The Mountains Sing* Que Mai Phan Nguyen,2021-03-16 The International Bestseller A New York Times Editors’ Choice SelectionA Winner of the 2020 Lannan Literary Awards Fellowship [An] absorbing, stirring novel . . . that, in more than one sense, remedies history. —The New York Times Book Review “A triumph, a novelistic rendition of one of the most difficult times in Vietnamese history . . . Vast in scope and intimate in its telling . . . Moving and riveting.” —VIET THANH NGUYEN, author of *The Sympathizer*, winner of the Pulitzer Prize With the epic sweep of Min Jin Lee’s *Pachinko* or Yaa Gyasi’s *Homegoing* and the lyrical beauty of Vaddey Ratner’s *In the Shadow of the Banyan*, *The Mountains Sing* tells an enveloping, multigenerational tale of the Trần family, set against the backdrop of the Việt Nam War. Trần Diệu Lan, who was born in 1920, was forced to flee her family farm with her six children during the Land Reform as the Communist government rose in the North. Years later in Hà Nội, her young granddaughter, Hương, comes of age as her parents and uncles head off down the Hồ Chí Minh Trail to fight in a conflict that tore apart not just her beloved country, but also her family. Vivid, gripping, and steeped in the language and traditions of Việt Nam, *The Mountains Sing* brings to life the human costs of this conflict from the point of view of the Vietnamese people themselves, while showing us the true power of kindness and hope. *The Mountains Sing* is celebrated Vietnamese poet Nguyễn Phan Quế Mai’s first novel in English.

*Every Living Thing* Jenell Johnson,2023-01-03 This book examines the question of what we mean when we talk about life, revealing new insights into what life is, what it does, and why it matters. Jenell Johnson studies arguments on behalf of life—not just of the human or animal variety, but all life. She considers, for example, the Standing Rock Sioux tribe’s fight for water, deep ecologists’ Earth First! activism, the Voluntary Human Extinction Movement, and astrophysicists’ positions on Martian microbes. What she reveals is that this advocacy—vital advocacy—expands our view of what counts as life and shows us what it would mean for the moral standing of human life to be extended to life itself. Including short interviews with celebrated ecological writer Dorion Sagan, former NASA Planetary Protection Officer Catharine Conley, and leading figure in Indigenous and environmental studies Kyle Whyte, *Every Living Thing* provides a capacious view of life in the natural world. This book is a must-read for anyone interested in biodiversity, bioethics, and the environment.

**Political Discourse in the Media** Anita Fetzer, Gerda Eva Lauerbach, 2007-06-27 This book departs from the premise that political discourse is intrinsically connected with media discourse, as shaped by its cultural and transcultural characteristics. It presents a collection of papers which examine political discourse in the media from a cross-culturally comparative perspective in Arab, Dutch, British, Finnish, Flemish, French, German, Israeli, Swedish, US-American and international contexts. By using different theoretical frameworks, such as conversation analysis, discourse analysis, pragmatics and systemic functional linguistics, the papers reflect current moves in political discourse analysis to cross-disciplinary and methodological boundaries by integrating semiotics, particularly multimodality, cognition, context, genre and recipient design.
