Is Lighter Better? Joanne L. Rondilla, Paul R. Spickard, 2007 Colorism is defined as discriminatory treatment of individuals falling within the same 'racial' group on the basis of skin color. In other words, some people, particularly women, are treated better or worse on account of the color of their skin relative to other people who share their same racial category. Colorism affects Asian Americans from many different backgrounds and who live in different parts of the United States. *Is Lighter Better?* discusses this often-overlooked topic. Joanne L. Rondilla and Paul Spickard ask important questions such as: What are the colorism issues that operate in Asian American communities? Are they the same issues for all Asian Americans--for women and for men, for immigrants and the American born, for Chinese, Filipinos, Koreans, Vietnamese, and other Asian Americans? Do they reflect a desire to look like White people, or is some other motive at work? Including numerous stories about and by people who have faced discrimination in their own lives, this book is an invaluable resource for people interested in colorism among Asian Americans.

Lighter as We Go Mindy Greenstein, Jimmie Holland, 2015 Contrary to common wisdom and the fears of mid-lifers, our sense of well-being actually goes up in older age, even in the presence of illness or disability. *Lighter as We Go* is the first book to explore how and why that is, drawing on positive psychology concepts of character strengths and virtues.--Publisher information.

Lighter Yung Pueblo, 2022-10-04 #1 NEW YORK TIMES BESTSELLER • “An empathetic and wise book that will guide you on a journey toward a deeper understanding of self.”—Nedra Glover Tawwab, LCSW, New York Times bestselling author of *Set Boundaries, Find Peace* A radically compassionate plan for turning inward and lifting the heaviness that prevents us from healing ourselves and the world, from the New York Times bestselling author of *Clarity & Connection* “During the years when I had abandoned myself, my mind felt undeniably heavy. I knew I needed to find a clear way to help me feel lighter.” yung pueblo’s path to deep healing began only after years of drug abuse had taken a toll on his mind and body. Searching for a way forward, he found that by honestly examining and addressing the anxieties and fears that he had been running away from, he no longer felt like a stranger inside of his heart and mind. And once he dedicated himself to meditation and trusting his intuition, he started to finally feel mentally lighter, with more love emerging from within. This was not an easy journey, and it’s one that he is still on, but it showed him that real healing is possible. In *Lighter*, yung pueblo demonstrates how we can all move forward in our healing, from learning self-compassion to letting go to becoming emotionally mature. As the heaviness falls away, our minds will finally stop feeling overburdened with tension and we’ll be able to reconnect with the present. And the world around us will hopefully become more inviting in crisp and newly vibrant ways. But these are just the first steps. As we grow stronger and expand our self-awareness, it’s our responsibility—and also part of the healing journey—to take actions to support the health and harmony of all people. The final section of *Lighter* shows how we can and must contribute to building a world that is no longer structurally harmful but, instead, structurally compassionate. yung pueblo’s hope is that as more of us heal, our actions will become more intentional, our decisions will become more compassionate, our thinking will become clearer, and the future will become brighter.

Ronson, the World's Greatest Lighter Urban K. Cummings, 1993-06-01

Smaller Faster Lighter Denser Cheaper Robert Bryce, 2014-05-13 In the face of today's environmental

and economic challenges, doomsayers preach that the only way to stave off disaster is for humans to reverse course: to de-industrialize, re-localize, ban the use of modern energy sources, and forswear prosperity. But in this provocative and optimistic rebuke to the catastrophists, Robert Bryce shows how innovation and the inexorable human desire to make things Smaller Faster Lighter Denser Cheaper is providing consumers with Cheaper and more abundant energy, Faster computing, Lighter vehicles, and myriad other goods. That same desire is fostering unprecedented prosperity, greater liberty, and yes, better environmental protection. Utilizing on-the-ground reporting from Ottawa to Panama City and Pittsburgh to Bakersfield, Bryce shows how we have, for centuries, been pushing for Smaller Faster solutions to our problems. From the vacuum tube, mass-produced fertilizer, and the printing press to mobile phones, nanotech, and advanced drill rigs, Bryce demonstrates how cutting-edge companies and breakthrough technologies have created a world in which people are living longer, freer, healthier, lives than at any time in human history. The push toward Smaller Faster Lighter Denser Cheaper is happening across multiple sectors. Bryce profiles innovative individuals and companies, from long-established ones like Ford and Intel to upstarts like Aquion Energy and Khan Academy. And he zeroes in on the energy industry, proving that the future belongs to the high power density sources that can provide the enormous quantities of energy the world demands. The tools we need to save the planet aren't to be found in the technologies or lifestyles of the past. Nor must we sacrifice prosperity and human progress to ensure our survival. The catastrophists have been wrong since the days of Thomas Malthus. This is the time to embrace the innovators and businesses all over the world who are making things Smaller Faster Lighter Denser Cheaper.

Choi Oi! The Lighter Side of Vietnam Tony Zidek,2016-02-03 This humorous, comic guide to Vietnam War-era Vietnam is a hilarious explanation of the land, customs, and people the American advisor has found so fascinating, provoking, agreeable, disturbing, infuriating and lovable. The American, and especially the American serviceman, can be counted on to find the lighter side of life anywhere in the world—even in Vietnam. And that's just what cartoonist Tony Zidek has captured in this 120 page laugh-along-with-the-Vietnamese comic guide. Vietnam, as the author explains, is the land of gazebbies, dummy sticks, cyclos, and no sweat pills. It is also a land where a very serious life-and-death struggle faces its residents every day. For this reason the author hopes that this book was intended in some small way will help the American soldier see past his daily hardships and uncertainties to the lighter side of Vietnam.

Better, Faster, Lighter Java Bruce Tate,Justin Gehtland,2004-05-28 Sometimes the simplest answer is the best. Many Enterprise Java developers, accustomed to dealing with Java's spiraling complexity, have fallen into the habit of choosing overly complicated solutions to problems when simpler options are available. Building server applications with heavyweight Java-based architectures, such as WebLogic, JBoss, and WebSphere, can be costly and cumbersome. When you've reached the point where you spend more time writing code to support your chosen framework than to solve your actual problems, it's time to think in terms of simplicity. In *Better, Faster, Lighter Java*, authors Bruce Tate and Justin Gehtland argue that the old heavyweight architectures are unwieldy, complicated, and contribute to slow and buggy application code. As an alternative means for building better applications, the authors present two lightweight open source architectures: Hibernate--a persistence framework that does its job with a minimal API and gets out of the way, and Spring--a container that's not invasive, heavy or complicated. Hibernate

and Spring are designed to be fairly simple to learn and use, and place reasonable demands on system resources. Better, Faster, Lighter Java shows you how they can help you create enterprise applications that are easier to maintain, write, and debug, and are ultimately much faster. Written for intermediate to advanced Java developers, Better, Faster, Lighter Java, offers fresh ideas--often unorthodox--to help you rethink the way you work, and techniques and principles you'll use to build simpler applications. You'll learn to spend more time on what's important. When you're finished with this book, you'll find that your Java is better, faster, and lighter than ever before.

Lighter Than My Shadow Katie Green, 2013-10-11 A poignant, heart-lifting graphic memoir about anorexia, eating disorders and the journey to recovery Like most kids, Katie was a picky eater. She'd sit at the table in silent protest, hide uneaten toast in her bedroom, listen to parental threats that she'd have to eat it for breakfast. But in any life a set of circumstance can collide, and normal behaviour might soon shade into something sinister, something deadly. *Lighter Than My Shadow* is a hand-drawn story of struggle and recovery, a trip into the black heart of a taboo illness, an exposure of those who are so weak as to prey on the vulnerable, and an inspiration to anybody who believes in the human power to endure towards happiness. 'Even at its most heartbreaking it never feels sombre ... Inspiring, plucky and, in the end, consoling, it's hard to put down' Observer
