The Lighthouses of New England Edward Rowe Snow,2011-04-14 This is a reissue of one of Edward Rowe Snow's most enduring classics. First published in 1945, it relates the histories of over fifty of the region's lighthouses in rich detail. Snow gives special emphasis to the story of heroine Abbie Burgess at Maine's Matinicus Rock Light, to the rich histories of Boston Light and Minot's Ledge Light. Modern day lighthouse expert Jeremy D'Entremont has provided extensive annotations to Snow's chapters, bringing the information about each lighthouse up to date.

Guardians of the Lights Elinor De Wire,2015-10-17 In a charming blend of history and human interest, this book paints a colorful portrait of the lives of a vanished breed—the lighthouse keepers—from the year 1716, when the first lighthouse was established in America, to the early 1980s when automation replaced the last human “guardian of the light. A wealth of material from the archives of the 19th and 20th centuries—primarily letters, diaries, and newspaper accounts—provides vivid stories about lighthouse keeping in this country: the daily work; coping with fog, storms and other catastrophes; legends and ghosts; women's and families' roles; lighthouse children and pets; the natural world around lighthouses; and the diverse characters of those who held the job. Lighthouse keeping was a unique occupation, now obsolete, and this book is a fitting tribute to these tough, usually solitary, and dedicated heroes who kept the lights burning every night, without fail.

Living at a Lighthouse LuAnne Gaykowski Kozma,1987

Lighthouses and Life Saving Along the Connecticut and Rhode Island Coast James Claflin,2001-06-06 Lighthouses and Life Saving along the Connecticut and Rhode Island Coast is the third in a series of titles offering a unique tribute to the men and women who protected the mariners as they traveled along New England's rocky coastline. Thousands of vessels faced the dangers of the rugged sea which caused hundreds of shipwrecks off the coast with devastating losses. Author James Claflin combines a thoroughly descriptive text with this diverse collection of over two hundred vintage images, from private as well as museum collections, to create an illustrated history of an area strongly reliant on its coastal trade. The U.S. Light-House Establishment and the U.S. Life-Saving Service, which later merged to become the U.S. Coast Guard, assumed the responsibility of lighting and protecting the coasts. Inside, you will see the lighthouse keeper at Bullock's Point Light as he surveys the damage from the Hurricane of 1938, witness the life savers at Block Island's Sandy Point Station where first word of the wreck of the steamer Larchmont was received, and experience life on an offshore lightship. The book guides you through the days of the life savers-the work they performed, their rescues, and the evolution of their architecture through the years.

Point Loma Lighthouse Katherine Menz,1990

Lighthouses of Humboldt County Julie Clark ,2021-10-11 The impenetrable coast of Humboldt County has been a historic navigational conundrum for sea captains since the 16th century. The Humboldt bar crossing, the lack of safe harbors, the storms, the unpredictable seas, and the rocky shores caused tragic shipwrecks, drownings, and maritime disasters. Beginning in 1850, the Department of the Treasury funded the construction of 11 lighthouses in California, including the Humboldt Harbor Lighthouse, the first one in Humboldt County. Due to its poor location in the sand dunes, the lighthouse was abandoned in 1892. New lighthouses were built in more appropriate locations such as Table Bluff, Cape Mendocino, Trinidad, and Punta Gorda. An increase in population on the north coast resulted in the reliance on passenger schooners and freight vessels, making these lighthouses critical to Humboldt County's economic stability and success. The Trinidad Head Lighthouse is the only one in operation today, yet the lighthouses of Humboldt County and their keepers remain integral to California's maritime history.

Lighthouse Families Cheryl Shelton-Roberts,Bruce Roberts,2013-10-01 What was it like to live and work at a lighthouse during the heyday of shipping and fishing? How did lighthouse keepers and their families stationed on remote islands while away the long, cold, lonely hours between trips to the mainland for food and supplies? Here you'll find a record of the charming memories and stories of America's lighthouse keepers, including descriptions of daily life at a lighthouse.

Wind Point Lighthouse Barb Wardius,Ken Wardius,2007-10-03 Several lighthouses have called Racine home, but none is more synonymous with the nautical heritage of the “Belle City” than Wind Point. Always a beehive of activity, the Wind Point Lighthouse is one of the larger lighthouse complexes on the Great Lakes, and a hardworking keeper, two assistants, and their families made their livelihood here. For over 125 years, the tall stately tower has faithfully stood guard, shining its bright beam out over Lake Michigan nightly. Countless mariners relied on the Wind Point Lighthouse, along with a booming trademark foghorn for safe passage. Today the Wind Point Lighthouse is the most well-known symbol of Racine and is a success story among Great Lakes lights. A devoted friends group, in partnership with the Village of Wind Point, sees that the legacy and history of the Wind Point Lighthouse is preserved for future generations.

Lighthouses Ariel Books,2004-03 The diminutive size belies this book's widespread popularity. Lighthouses have a certain mystique and glory all their own. This little book sheds light on the extensive, impressive history of a coastal mainstay.

Canandaigua Island Lighthouse Barb Wardius,Ken Wardius,2006 The Canandaigua Island Lighthouse is one of the most picturesque of any lighthouses still operating on the Great Lakes today. The beautiful peninsula of Door County has a long and bountiful tradition of maritime history, including its many lighthouses. Canandaigua Island has illuminated the coastline on the Lake Michigan side of Door County for over 100 years. Canandaigua Island's story involves bricks and mortar, engineering marvels, and, most noteworthy, people. The dedication of Canandaigua's keepers and their families over the years was remarkable. Countless mariners relied on them. Lighthouse life could be challenging, at times tedious, but also extremely rewarding. Most visitors will agree that Canandaigua Island is indeed an extraordinary place. Rhode Island Lighthouses Richard Holmes,2008 The book is a pictorial history of Rhode Island's thirty-one lighthouses and two lightships stations. There are over 200 photographs in the book, including rare views of Gould Island Lighthouse, Nayatt Point Lighthouse and Point Judith Lighthouse. There are plans for Nayatt Point Lighthouse and Brenton Reef Lightship LV-102/WAL 525.

North Point Milwaukee Lighthouse Ken Wardius,Barb Wardius,Friends Nplh,2011 The North Point Milwaukee Lighthouse, neatly nestled in beautifully landscaped Lake Park on Milwaukee's east side, is a local maritime jewel. Incorporated as part of legendary landscape architect Frederick Law Olmsted's grand design for this scenic urban park, North Point rests far atop a bluff overlooking Lake Michigan, making it one of the highest light stations on the Great Lakes. Three distinctly different lighthouses have been located here, each with its own unique story. Notable keepers include Georgia Stebbins, who came to North Point as a sickly young woman and was transformed by fresh air and hard work into a feisty, dedicated lightkeeper and served with distinction for over 30 years. Abandoned and boarded up for many years, North Point has been resurrected from near ruin. Today, the North Point Lighthouse Friends see to it that this historic sentinel is preserved for future generations.

Sentinel of the Seas Dennis M. Powers,2007 One of the most rugged expanses in the continental U.S., the coast of northern California and Oregon saw frequent shipping disasters in the 19th century, before Congress ordered the construction of lighthouses on such dangerous promontories as Heceta Head, Cape Mendocino and a seaward-trending pile of rocks called St. George Reef. The brave, resourceful engineer who

directed the Tillamook Rock lighthouse construction, Alexander Ballantyne, was later engaged for the St. George job, and it's this story that author Powers (Treasure Ship) chronicles here. Without any maps to illustrate it, however, readers will need an atlas to follow the movement of men and ships up and down the coast. Later chapters describing lighthouse life prove less problematic; lighthouse keepers were fascinating, courageous characters (and included a good number of women) who not only kept lights burning and fog horns sounding, but also risked life and limb to rescue people stranded in torrential weather.

Lighthouses and Life-Saving on the Oregon Coast David Pinyerd,2007 An addition to the Images of America series commemorates the true heroes who served to warn, protect, and rescue those who went to sea off the Oregon coast, beginning with the first Oregon lighthouse built at the Umpqua River in 1857 to the establishment of the Life-Saving Service and today's Coast Guard.
