To the Lighthouse Virginia Woolf,2023-01-01 This landmark work of modernist literature explores the inner lives of a typical English family while vividly exploring the nature of loss and memory. Following her celebrated masterpiece *Mrs. Dalloway*, Virginia Woolf continues to develop her groundbreaking stream-of-consciousness technique in *To the Lighthouse*. Every summer, the Ramsey family returns to the Isle of Skye for a tranquil holiday, where the imposing lighthouse seems to promise everlasting constancy. But as their idyllic holiday confronts the realities of World War I, the Ramseys must also face the inescapable nature of change. A profound evocation of marriage, parenthood, aging, and grief, *To the Lighthouse* is regarded as one of the greatest novels of the twentieth century.

The Lighthouse Effect Steve Pemberton,2021-09-28 In this stirring follow-up to his memoir, Steve Pemberton gives practical encouragement for how you can be a human lighthouse for others and through these inspiring stories will renew your hope for humanity. Our polarized, divisive culture seems to be without heroes and role models. We are adrift in a dark sea of disillusionment and distrust and we need human lighthouses to give us hope and direct us back to the goodness in each other and in our own hearts. Steve Pemberton found a lighthouse in an ordinary man named John Sykes, his former high school counselor. John gave Steve a safe harbor after Steve escaped an abusive foster home and together they navigated a new path that led to personal and professional success. Through stories of people like John and several others, you will identify how the hardships you have overcome equip you to be a human lighthouse, inspiring those around you. The humble gestures of kindness that change the course of our lives

can shift the course for America too. With a unique vision for building up individuals and communities and restoring trust, The Lighthouse Effect opens your eyes to those who are quietly heroic. You will reflect on the lighthouses in your own life and be reminded that the greatest heroes are alongside us--and within us.

Virginia Woolf Gillian Gill, 2019 An insightful, witty look at Virginia Woolf through the lens of the extraordinary women closest to her. How did Adeline Virginia Stephen become the great writer Virginia Woolf? Acclaimed biographer Gillian Gill tells the stories of the women whose legacies--of strength, style, and creativity--shaped Woolf's path to the radical writing that inspires so many today. Gill casts back to Woolf's French-Anglo-Indian maternal great-grandmother Thérèse de L'Etang, an outsider to English culture whose beauty passed powerfully down the female line; and to Woolf's aunt Anne Thackeray Ritchie, who gave Woolf her first vision of a successful female writer. Yet it was the women in her own family circle who had the most complex and lasting effect on Woolf. Her mother, Julia, and sisters Stella, Laura, and Vanessa were all, like Woolf herself, but in markedly different ways, warped by the male-dominated household they lived in. Finally, Gill shifts the lens onto the famous Bloomsbury group. This, Gill convinces, is where Woolf called upon the legacy of the women who shaped her to transform a group of men--united in their love for one another and their disregard for women--into a society in which Woolf ultimately found her freedom and her voice.

They name her Cecelia, which means "a gift from the sea," and call her Celia. She makes them a family again—and helps heal the hurt left by Quila's mother's passing. Two years later, though, another stranger arrives, one who changes everything all over again: A woman named Margaret, come looking for the final resting place of her sister, whose ship had gone down in a storm two years before. Guiding Lights Shona Riddell, 2020-10-01 Women have a long history of keeping the lights burning, from tending ancient altar flames or bonfires to modern-day lighthouse keeping. Yet most of their stories are little-known. *Guiding Lights* includes true stories from around the world, chronicling the lives of the extraordinary women who mind the world's storm-battered towers. From Hannah Sutton and her partner Grant, the two caretakers living alone on Tasmania's wild Maatsuyker Island, to Karen Zacharuk, the keeper in charge of Cape Beale on Canada's Vancouver Island, where bears, cougars and wolves roam, the lives of lighthouse women are not for the faint of heart. Stunning photographs from throughout history accompany accounts of the dramatic torching of Puysegur Point, one of NZ's most inhospitable lighthouses; 'haunted' lighthouses in across the US and their tragic tales; lighthouse accidents and emergencies around the world; and two of the world's most legendary lighthouse women: Ida Lewis (US) and Grace Darling (UK), who risked their lives to save others. The book also explores our dual perception of lighthouses: are they comforting and romantic beacons symbolizing hope and trust, or storm-lashed and forbidding towers with echoes of lonely, mad keepers? Whatever our perception, stories of women's courage and dedication in minding the lights – then and now – continue to capture our imagination and inspire.

Make It New Kurt Heinzelman, 2003 What was Modernism, and why does it still matter? The term itself first gained currency in the 1930s, describing a kind of art that already may have peaked, some would say as early as 1922. Whatever its ups and downs in its own time, as the novelist Julian Barnes claims in one of the twenty essays commissioned for the present volume, Modernism never vanished. It remains our immovable feast. Modernism was international in scope; it left its mark on all genres, from literature and painting to opera, dance, and

architecture; it pushed the boundaries of what was artistically possible and aesthetically important; and finally, for all its destructive urges which it shared with the century itself, it was also celebrative. This book is a response to the exhibition of the same name that opened at the Harry Ransom Center in October 2003. It includes original essays by such noted writers and artists as Russell Banks, Anita Desai, David Douglas Duncan, Elizabeth Hardwick, and Penelope Lively, which offer fresh perspectives on important Modernist figures, including William Gaddis, Ezra Pound, William Faulkner, E. M. Forster, Paul Robeson, Virginia Woolf, Henry James, Joseph Conrad, Frank Lloyd Wright, and Le Corbusier. In addition, essays by leading scholars in literature and art history focus on specific artifacts included in the exhibit. As the Center's Director, Thomas F. Staley, puts it in the Foreword, *Ours* is an attempt not of definition but of discovery and rediscovery. Book and exhibition permit both reader and viewer to experience the textures, structures, and resonances which made the first part of the twentieth century so innovative that its art is still virtually synonymous with what newness means.
