📖 **THE SHEER CURTAIN** MARIA ELENA GARZA,2016-06-17 This short novel is dedicated to my wonderful family: my children, CATHY, FERNANDO, PHILLIP; my grandchildren JOZETTE, ALAENA, PHOENIX; and my husband, MAX. The novel is especially written for an audience of young readers or adults who choose to have a child's imagination. It was such fun for me to develop the characters and scenes of this mystery. It all starts with a woman's silhouette that appears on the third-floor window of this old Victorian mansion. No one in the town of Sneila has ever seen her except when she stands behind the sheer curtain. The children of the town look forward to Halloween every year. The children together walk down the dirt road to the mansion that sits at the edge of town behind enormously tall trees and a black iron fence. Every Halloween, the children know that, in front of the mansion outside the gate, there will be a mysterious white cauldron filled with magic candies for each child. The candies are in baggies with each child's name written on the front of the baggie. How does she know every child's name? Where does this candy come from? The children agree that the candy is very different, like it's out of this world. These are only two of the mysteries that exist in the town of Sneila. Much mystery lives in the town of Sneila. The number of people in this town never changes. When one person dies, another is born. People who die are not buried. The number 8 appears throughout the town. Sometimes you have to add two digits to find the 8. The infinity symbol appears throughout the novel. Magic turtles surface and communicate with the two main characters, Samantha and Victoria. Flickering lights, hidden doors, basement, baskets, spaceships, magic turtles, mysterious bubbles, candles, and fairies create a magical kingdom. Wrinkles and gray hair are witnesses to times past. The surprise ending is sure to give you goose bumps! Other books from the author include the following: Sleepy Tears Laughing Tears Sleepy Tears Miss You Tears God's Love is Real (poetry book) Friends and Angels (poetry book) The Secret Meeting of the Sworceracs

📖 **NATURAL HAZARDS AND THE MITIGATION OF THEIR IMPACT** Gabor Mezsi,2022-08-18 This book deals with natural hazards of geophysical, meteorological, hydrological, and biological types that are causing increasing social and economic damage. The development of these hazards and their impact on the living and non-living environment are described in the individual chapters. The compilation synthesises a natural and social geography approach, explores mitigation options and focuses attention on the processes that are most prevalent in Europe and Western Asia, in addition to global phenomena. The author argues that, with the right knowledge and preparedness, the wide-ranging impacts of natural hazards intertwined with climate change can be reduced. This work provides a wealth of digitally accessible professional information to help readers identify and manage natural hazards. The book is useful for students, educators, professionals, practitioners, and those interested in decision making.

📖 **PLAY BIGGER** Al Ramadan,Dave Peterson,Christopher Lochhead,Kevin Maney,2016-06-14 The founders of a respected Silicon Valley advisory firm study legendary category-creating companies and reveal a groundbreaking discipline called category design. Winning today isn't about beating the competition at the old game. It's about inventing a whole new game—defining a new market category, developing it, and dominating it over time. You can't build a legendary company without building a legendary category. If you think that having the best product is all it takes to win, you're going to lose. In this farsighted, pioneering guide, the founders of Silicon Valley advisory firm Play Bigger rely on data analysis and interviews to understand the inner workings of “category kings”—companies such as Amazon, Salesforce, Uber, and IKEA—that give us new ways of living, thinking or doing business, often solving problems we didn't know we had. In Play Bigger, the authors assemble their findings to introduce the new discipline of category design. By applying category design, companies can create new demand where none existed, conditioning customers' brains so they change their expectations and buying habits. While this discipline defines the tech industry, it applies to every kind of industry and even to personal careers. Crossing the chasm revolutionized how we think about new products in an existing market. The Innovator's Dilemma taught us about disrupting an aging market. Now, Play Bigger is transforming business once again, showing us how to create the market itself.
