

Lisbon Manual

David J. Burn, Antonio Chemotti

The British Consul's Manual E. W. A. Tuson, 1856
Manual of Painting and Calligraphy José

Saramago, 2012-05-01 A disgruntled portrait artist in 1970s Portugal turns to writing in the Nobel Prize-winning author's debut novel, now available in English translation. *Manual of Painting and Calligraphy* was José Saramago's first novel. Written eight years before the critically acclaimed *Baltasar and Blimunda*, it is a story of self-discovery set in Portugal during the last years of Antonio Salazar's dictatorship. It tells the story of a struggling artist who is commissioned to paint a portrait of an influential industrialist. Disheartened by his squandered talent, the artist soon undergoes a creative and political awakening when he discovers the possibilities of writing. The brilliant juxtaposition of a passionate love story and the crisis of a nation foreshadows the themes of Saramago's major works.

The Book of Requiems, 1550-1650 David J.
Burn, Antonio Chemotti, 2023-07-20 Few western
musical repertoires speak more to the imagination
than the Requiem mass for the dead. Yet,
surprisingly, despite the significance of Requiem
settings for our musical culture, the literature
concerning them is sparse. The Book of Requiems
presents essays on the most important works in
this tradition, from the origins of the genre up
to the present day. Each chapter is devoted to a
specific Requiem, and offers both historical
information and a detailed work-discussion.
Conceived as a multi-volume essay collection by
leading experts, The Book of Requiems is an
authoritative reference publication intended as a
first port of call for musicologists, music
theorists, and performers both professional and
student. The present volume, the second in the
series, treats settings composed between c. 1550
and c. 1650, a period in which the Requiem becomes
a defining feature of the soundscape of Catholic
death rituals.

Digital and Sustainable Transformations in a Post-COVID World is dedicated to studying the consequences of the global crisis caused by the COVID-19 pandemic and the new needs and practices inherent in developing and disseminating digital and clean technologies.

Emplacing East Timor Kisho Tsuchiya, 2024-05-31
Emplacing East Timor explores the relationship between the cycle of regime change and that of knowledge production, offering an alternative framework to periodize the history from the 1850s

to the 2010s. Kisho Tsuchiya shows that the prevailing perceptions of East Timor have been shaped by large-scale wars, postwar consolidation, and the dominance of foreign observers. The transitions that construct what we know about East Timor have followed the rhythm of devastating violence and regime transformations. Playing a role as well are personal, institutional, and geopolitical interests and the creativity of Timorese and foreign observers. Acknowledging this cycle, Tsuchiya interweaves narrative of crucial events and political movements with an analysis of Timor's connections to global circulations and historical transitions. He traces key persons and communities that shaped the contour of East Timor—from Portuguese colonial officers to anthropologists, Japanese occupiers to Australian activists, and Timorese poets to revolutionaries. Their experiences and imaginations of (East) Timor have been expressed through scholarly works, secret documents, policy statements, ceremonies, revolutionary songs, and museums. Using multi-archival historical research, the author introduces sources in several languages and provides missing links, including secret documents in Portuguese archives and the National Archives of Timor-Leste, Japanese wartime sources, and Timorese sources in the Archives of Timorese Resistance. Emplacing East Timor skillfully synthesizes nationalism studies and borderland studies, creating a comprehensive approach to modern East Timorese national imaginings, the historical role of territorial borders, and its postcolonial problems.
