**Bad with Money** Gaby Dunn, 2019-01-01 "Humorous and forthright...[Gaby] Dunn makes facing money issues seem not only palatable but possibly even fun....Dunn's book delivers." -Publishers Weekly The beloved writer-comedian expands on her popular podcast with an engaging and empowering financial literacy book for Millennials and Gen Z. In the first episode of her "Bad With Money" podcast, Gaby Dunn asked patrons at a coffee shop two questions: First, what's your favorite sex position? Everyone was game to answer, even the barista. Then, she asked how much money was in their bank accounts. People were aghast. "That's a very personal question," they insisted. And therein lies the problem. Dunn argues that our inability to speak honestly about money is our #1 barrier to understanding it, leading us to feel alone, ashamed and anxious, which in turns makes us feel even more overwhelmed by it. In Bad With Money, she reveals the legitimate, systemic reasons behind our feeling of helplessness when it comes to personal finance, demystifying the many signposts on the road to getting our financial sh\*t together, like how to choose an insurance plan or buy a car, sign up for a credit card or take out student loans. She speaks directly to her audience, offering advice on how to make that #freelancelife work for you, navigate money while you date, and budget without becoming a Nobel-winning economist overnight. Even a topic as notoriously dry as money becomes hilarious and engaging in the hands of Dunn, who weaves her own stories with the perspectives of various comedians, artists, students, and more, arguing that—even without selling our bodies to science or suffering the indignity of snobby thrift shop buyers—we can all start taking control of our financial futures.

**Effective Listening** Sorin Dumitrascu,2017-02-10 Do you have problems truly listening? Do you find your mind wandering in the middle of conversations? Then this series in Effective Listening is for you!This course, Listening Basics, is the first in a series of courses to help you understand how you listen and how you can improve your listening skills.This course covers the three essential aspects for understanding how you listen. The three lessons in this course are:\*The Communication Process\*The Listening Process\*Listening as a Function of Communication.According to a U.S. Department of Labor study Skills and the New Economy, the average worker spends 55 percent of the day listening. Listening activities include using the telephone, engaging in conversation, and listening while in meetings and presentations. Unfortunately, most people fail to listen effectively and only remember 25 percent of what they hear. Could you listen more effectively at work?In dollar terms, it is extremely important for companies and employees to take listening seriously. One communications analyst has estimated that business personnel receive 63 percent of their salary for listening.Once you understand the listening process, you can learn and then practice listening skills. Training and practice can enhance your present listening skills. Otherwise, listening mistakes can cost your company clients and profits, and can decrease production.Imagine a trucking company dispatcher misunderstanding Albany, New York for Albany, Georgia. Such a simple listening error could cost a company thousands of dollars to redirect a truck and its goods.Better listening skills will prevent you from making expensive or embarrassing mistakes. This course will enable you to begin improving your listening ability.We need a definite purpose, a specific reason for listening, otherwise we don't pay attention and don't really hear or understand.--Robert MontgomeryOne of the key elements of communication is

listening. If you have developed good listening skills, it will be easier for you to pay attention, hear and understand messages. You can learn to be a more effective listener by learning specific listening skills. These skills can reinforce, improve, or change your present listening behavior in a variety of situations. This course, the second in the Effective Listening path, focuses on getting the most information possible out of a message. So, how do you listen for comprehension? First, you should be able to identify and interpret verbal and nonverbal cues that add context to a verbal message. Second, you should also be able to comprehend the meaning of the speaker's verbal message. Your comprehension is based on understanding what you hear and what you need to ask questions about. This course covers the following lessons that will help you develop better listening skills: \*Identifying Verbal and Nonverbal Cues\* Interpreting Cues\* Understanding What You Hear\* Checking Your Understanding\* Understanding in Special Listening Situations Because this course teaches listening skills, it is important to have your audio turned on for certain sections. In some instances, the text that is spoken will display in the caption text box. In these cases, the important feature is not what is said, but how it is said. In these sections, it would be most effective for you to turn off the captions to get the full effect of the audio. In other instances, audio is presented without accompanying text. To complete these sections, you must have your audio turned on. Listening to identify and comprehend messages helps you become a more effective communicator. When you can better understand what's said to you, you can become a more flexible listener.

**You're Not Listening** Kate Murphy, 2020-01-07 When was the last time you listened to someone, or someone really listened to you? If you're like most people, you don't listen as often or as well as you'd like. There's no one better qualified than a talented journalist to introduce you to the right mindset and skillset—and this book does it with science and humor. —Adam Grant, #1 New York Times bestselling author of *Originals* and *Give and Take* \*\*Hand picked by Malcolm Gladwell, Adam Grant, Susan Cain, and Daniel Pink for Next Big Ideas Club\*\* An essential book for our times. —Lori Gottlieb, New York Times bestselling author of *Maybe You Should Talk to Someone* At work, we're taught to lead the conversation. On social media, we shape our personal narratives. At parties, we talk over one another. So do our politicians. We're not listening. And no one is listening to us. Despite living in a world where technology allows constant digital communication and opportunities to connect, it seems no one is really listening or even knows how. And it's making us lonelier, more isolated, and less tolerant than ever before. A listener by trade, New York Times contributor Kate Murphy wanted to know how we got here. In this always illuminating and often humorous deep dive, Murphy explains why we're not listening, what it's doing to us, and how we can reverse the trend. She makes accessible the psychology, neuroscience, and sociology of listening while also introducing us to some of the best listeners out there (including a CIA agent, focus group moderator, bartender, radio producer, and top furniture salesman). Equal parts cultural observation, scientific exploration, and rousing call to action that's full of practical advice, *You're Not Listening* is to listening what Susan Cain's *Quiet* was to introversion. It's time to stop talking and start listening.
