*Be More Toddler: A leadership education from our little learners* Emma Turner,2019-12-18 The narrative around leadership needs to change. After reading scores of leadership books in an attempt to find a voice which resonated, Emma Turner (a primary teacher of 22 years with over a decade of school leadership experience including being part of one of the first all female Co-Headships from 2009, and mum of three small children) realised that the bulk of leadership advice out there did not take into account trying to balance parenting three children as well as working in a leadership post. This book takes a practical, humorous and unique perspective on the leadership narrative by looking at leadership through the eyes of what we notice about toddlers. Packed with real examples of what works as well as reassurance that leadership is extremely do-able for many of us, this book aims to demystify some of the leadership behaviours; encourage us all to believe we can be leaders; and to, 'Be More Toddler'.

**How to Create Little Happy Learners** Sophie David,2022-05-26 How to Create Little Happy Learners presents an inspiring selection of learning and craft activities designed to promote a love of learning. Written by Sophie David, a former early years teacher and adviser who is now a stay-at-home mum with 3 children under 5, she is now channelling her knowledge and creativity to show-case the craft ideas she was using to keep her children entertained. Here, she offers over 60 fun-packed activities for children, all highlighting different skills (fine motor, phonics, maths, creativity, communication and independence). Split into topics ranging from animals to transport, Sophie not only offers crafting activities that involve children and can be used time and time again utilising everyday items, she also adapts each activity for different age groups (from 0-5 years) so you can reuse the book as your child grows. Some activities include: - Searching for animal fossils (phonics and creativity) - Bug Count (problem solving and maths) - Emotion stones (communication) - Creating sensory bags (baby play and motor skills) This book offers a bank of great activities to not only inspire a love of learning in your children but to make that journey a fun, craft filled one.

*The SAGE Encyclopedia of Contemporary Early Childhood Education* Donna Couchenour,J. Kent Chrisman,2016-08-16 The general public often views early childhood education as either simply “babysitting” or as preparation for later learning. Of course, both viewpoints are simplistic. Deep understanding of child development, best educational practices based on development, emergent curriculum, cultural competence and applications of family systems are necessary for high-quality early education. Highly effective early childhood education is rare in that it requires collaboration and transitions among a variety of systems for children from birth through eight years of age. The SAGE Encyclopedia of Contemporary Early Childhood Education presents in three comprehensive volumes advanced research, accurate practical applications of research, historical foundations and key facts from the field of contemporary early childhood education. Through approximately 425 entries, this work includes all areas of child development – physical, cognitive, language, social, emotional, aesthetic – as well as comprehensive review of best educational practices with young children, effective preparation for early childhood professionals and policy making practices, and addresses such questions as: · How is the field of early childhood education defined? · What are the roots of this field of study? · How is the history of early childhood education similar to yet different from the study of public education? · What are the major influences on understandings of best practices in early childhood education?
