**Think Like a Poker Pro** Byron Jacobs, 2016-03-24 Do you suspect that your poker skill is insufficiently well rewarded? Do you wonder how the professionals always get the money? Would you like to know how top players study and refine their game? If you have ambitions to join the ranks of the consistently winning players, this book will help you plan your campaign. Poker is a strange and fascinating game. There is a great deal more to being a successful player than simply knowing how to play a good game. Playing good poker is largely a technical skill which can be learned. Being a consistently successful player is much harder and necessitates acquiring expertise in many other areas. Byron Jacobs has been a successful online poker player for seven years. In this book he identifies precisely how this can be achieved and shows how much of the battle actually needs to be conducted away from the table. If you already play a fair game of poker but want to become one of the very few players who consistently “play well”, then you need this book. The concepts discussed in this book are brought into clear focus on the accompanying 180 minute CD of videos where the author can be seen explaining his decision-making process. Here is an extract:

*Exploitative Play in Live Poker* Alexander Fitzgerald, 2018-11-19 Many poker players can make good decisions at the table with a reasonable frequency. Nevertheless, there are numerous situations where even very experienced players behave in predictable ways. These deeply-ingrained habits lead them to make mistakes. The problem is that these situations won't often arise at the table by chance - you have to make them happen. *Exploitative Play in Live Poker* is a ground-breaking work that teaches you how to create the circumstances where your opponents will be likely to blunder and how to exploit them when they do. To achieve this you will need to put to one side starting hand charts, balance and GTO (Game Theory Optimal) play. Instead you will incorporate new concepts that may well place you outside your comfort zone. However, your style will now be forcing the other players at the table outside of their comfort zone and, unlike you, they won't know how to adapt. Learn how to: Counter the auto-continuation-bettor Develop a powerful donk-betting strategy Use the overbet, the check-raise and the three-barrel effectively As well as being a highly successful player, Alex Fitzgerald runs a poker consultancy that serves more than 1,000 professional poker players in 60 countries. As part of this work, he has very likely trawled through more hand history databases than anyone else. This gives him a unique insight into how players really play, especially when placed under pressure and forced into unfamiliar situations.

**The Mathematics of Poker** Bill Chen, Jerrod Ankenman, 2006 For decades, the highest level of poker have been dominated by players who have learned the game by playing it, road gamblers' who have cultivated intuition for the game and are adept at reading other players' hands from betting patterns and physical tells. Over the last five to ten years, a whole new breed has risen to prominence within the poker community. Applying the tools of computer science and mathematics to poker and sharing the information across the Internet, these players have challenged many of the assumptions that underlay traditional approaches to the game.'

Red Chip Poker Doug Hull, James Sweeney, Christian Soto, 2014-02-02 The first volume in a series, the book reviews a collection of poker hands played from the button, cutoff, and hijack positions which illustrate concepts to help improve the reader's poker game.

*Exploitive No Limit Holdem* Paul Ratchford, 2014-06-26 My biggest strength at the poker table is my ability to adapt in real time to my opponents. *Exploitive No Limit Holdem* was written not just to help you understand advanced NLHE theory, but more importantly to help you apply that knowledge exploitively at the poker table. I focus more on the attacking side of poker than the defending side. In many ways I feel like a good defense will come naturally for those who have a good offense. If you understand how and why you are targeting an opponent, you will also notice when you are the mark. When you finish reading this book I am confident that you will be a better player. Wherever possible I try to give you real world examples of the concepts I am discussing. Theory without applications is useless, and I recognize that my readers need more than just theory to help them improve. Included in *Exploitive No Limit Holdem* is an extensive discussion of how to improve your red line, the mental game, math, expected value, game theory, and risk management. Very little in poker is “solved” and that makes teaching the game challenging. *Exploitive No Limit Holdem* focuses not only on how to fix leaks in your game and attack opponents' weaknesses, but also on how you can keep growing as a player after reading this book. *Exploitive No Limit Holdem* can help you deepen your understanding of No Limit Holdem, which will enable you to adapt and stay profitable in a dynamic and rapidly changing industry like poker.

**How to Play Poker Every Day and Survive!!!** John Heberle, 2012-12-29 HOW TO PLAY POKER EVERY DAY AND SURVIVE!!! is written for the poker player who loves to play, but would rather WIN than LOSE. Texas Hold'em has become the most popular poker game played in the world today. Many players enjoy playing regularly, if not daily, in their local card casino or with friends, but wonder why they rarely win. Is it really Bad Luck, Bad Draws or Drawn-out on Again? This book covers basic techniques that the average player can use to improve their gaming skills and promote long-term regular WINS. This book discusses the game at many levels and situations, but focuses mainly on open table play in a card casino environment, with bonuses of three chapters on tournament play and two on Omaha. It assumes that you have a basic knowledge of poker, Texas

Hold'em and card odds. This is not intended to be a technical treatise on probabilities, but a practical discussion of how to play in varying situations to improve your winnings. ABOUT THE AUTHOR - I have played poker in limit and no limit games for many years. Since I retired about three years ago, I have worked as a Poker Proposition Player at a very popular card casino in Southern California. As a Prop, I use my own money-win or lose. I am dealt a lot of hands each day, week and month. I have to be a winner overall to survive. I don't expect to win every day and actually average my wins and losses month by month to evaluate my performance. You too can play every day and survive as I do!! COMMENTS FROM GUITAR MAN Great stuff. You've carved out a unique and powerful niche for yourself as a kind of poker pro for the rest of us. I think your readers will be fascinated. You take them from I wish I could do that to I think I could do that.

**52 Tips for Texas Hold 'Em Poker** Barry Shulman,2005 One of the fascinating aspects about Hold'em is its dual nature. The game is both incredibly simple and incredibly complex. If you've watched any World Poker Tour (WPT) broadcast, you've heard Hold'em described as a game that takes a minute to learn and a lifetime to master. That is really true, and a large part of the appeal of the game is that you can sit down and learn how to play almost immediately. However, after playing a bit, you become aware that Hold'em has many layers, each more complex than the previous one. The deeper you develop your understanding of the game, the better your results should be. The best thing for you is this: most players never work to develop their games. What they know about the game is strictly what they draw from their personal experience at the table, much of which they don't properly interpret. In fact, they often misinterpret their experience in counterproductive ways. So there is great opportunity for those who wish to invest a bit of time and effort in improving their game. Currently, a huge number of books on limit Hold'em are available, with many more being written. However, very little exists for the brand new player, whose only exposure to Hold'em may be what he has seen on television and perhaps a few hands played at a casino or in a home game. This book provides someone who has played little or no limit Hold'em with a sound basic strategy that will add to both his enjoyment of the game and his bottom line. You must walk before you can run, and this book teaches those first steps. If you absorb and put into practice the information in this book, you should become a winning low-limit hold'em player. This will put you ahead of the 90 percent or so of public cardroom poker players who lose money at the game. Once you acquire a framework for beating the game, you can then take your game to the next level. The book is designed for simplicity. We present 52 tips, each of which provides a valuable kernel of information. We present the tips chronologically as you progress through a hand of Hold'em. Obviously, everything to know about hold'em cannot be reduced to just 52 items. However, these 52 tips deal with some of the most important and most frequently encountered decisions you will have to make. Hold'em can be both very complex and quite simple. This book keeps the game as simple as possible for you. Specifically, we do this by presenting a strategy that helps you steer clear of many of the common pitfalls in Hold'em, pitfalls that can quickly erode your stack of chips. Staying out of potentially dangerous situations is very important to a player new to the game, as many of them require a feel for the game that only experience can produce. Although this book is aimed at the newer player, the concepts are relevant to all levels of Hold'em. Thus, we think that most players will find some benefits to their game by reading this book. Even if the tips presented in the book are not new to you, you will find it beneficial to treat them as a refresher course, since a true mastery of poker involves not only learning concepts, but remembering and putting them into practice.

**Treat Your Poker Like a Business** ,2009-12 Poker star Dusty Schmidt presents his first book [→ one that stands to shake up poker in the same way Moneyball did for baseball. Schmidt offers an inspiring look at how in just five years, he went from not knowing a thing about poker to netting a seven-figure annual income. Far from a mathematical or technological genius, Schmidt says what guides him through is a fundamental understanding of business. Treat Your Poker Like A Business provides a foundation upon which all poker will be evaluated in the future, and will help an entire generation of poker players evolve their games into empires. A consummate grinder, Dusty Schmidt has played nearly 7 million hands of online poker over more than 10,000 hours during his five-year career. He's won over \$3 million during that period, and has never experienced a losing month. In 2007, he achieved Poker Stars' SuperNova Elite status in just eight months while playing high-stakes cash games exclusively. Schmidt posted the world's highest win rate in both 5/10 NL and 10/20 NL in both 2007 and 2008. In a four-month period between Nov. 2007 and Feb. 2008, Schmidt won in excess of \$600,000 in high-stakes cash games. He is now a highly respected instructor at Stoxpoker.com, and plays as high as 25/50 NL. As a young man, Schmidt was a top-ranked golfer. He broke two of Tiger Woods' junior records, and was the leading money winner on the Golden States Tour when, at age 23, he suffered a career-ending heart attack. Schmidt returned to golf in 2009, winning medalist honors in qualifying for the Oregon Amateur Championship. Later that year, Schmidt famously represented himself in federal court in his suit against the United States Golf Association, which controversially stripped him of his amateur status, in part due to his poker profession. Schmidt is now a volunteer assistant coach for the University of Oregon's men's golf team, working under his good friend, Head Coach Casey Martin. Schmidt is also a successful entrepreneur. He is part-owner of Stoxpoker.com and Imagine Media, and the creator of 10thGreen.com, the first social network for golfers. His story has been featured in Sports Illustrated, Card Player, Poker News, Golf Magazine, Fairways and Greens, Golf Week, Golf World and the Portland Oregonian, as well as on ESPN, cnn.com, wallstreetjournal.com, forbes.com, fortune.com, espn.com, golfdigest.com and golf.com, among many others. He recently founded the House of Cards Project, a philanthropic effort to provide food and shelter to disadvantaged families. His life story will be told in the book [→Raise: The Impossibly True Tale of Dusty Schmidt, [→? to be released later in 2010. He lives in Portland, Ore., with his wife, Nicole, and daughter, Lennon.
