The Monocle Book of Gentle Living Tyler Brule, Andrew Tuck, 2021-01-05 A timely handbook helping readers think about how to slow down, reconnect, and live a gentler life. Monocle has always been a champion of taking it slow. Past issues have encouraged readers to dive into a lake and go for a run. To sleep well. To eat food made with love. Even today, in a tense moment in history, the magazine has done its bit to argue for a new modern etiquette where communities are generous with their time, hospitality, and forgiveness. Now its editors and correspondents have brought all of this together into one volume with *The Monocle Manifesto for a Gentler Life*, a book that urges us all to slow down, reconnect, make good things, and think about the spaces we call home. Some of the highlights of this volume include: An illustrated guide to being nice, respecting your neighbors, and controlling your social media rants; practical tips on how to design a house that's good for you and your family; Q&As with the people who have decided to take a gentler approach to work and living; and a celebration of locally made food—with featured recipes—as well as the chefs that bring people together. The helpful tips and insights in this guide make it the perfect handbook for anyone looking to slow down and enjoy life.

In today's work culture, we're expected to hustle around the clock. But what if you could escape the traditional path and get on one that doesn't require working full-time until age 65? What if you could wake up every day without an alarm clock and do the things you love most? Tanja Hester and her husband Mark left their crazed careerist lifestyle to live their dream life in Lake Tahoe, retiring early from high-stress careers. Now Tanja will help you map out a customized plan for freedom and make it easy to succeed, whether you're good at math and budgeting -- or not! *Work Optional* is more than just a financial plan: it's a plan for your whole life -- designed by you, not by an employer or clients. Longitude Dava Sobel, 2010-07-05 The dramatic human story of an epic scientific quest and of one man's forty-year obsession to

find a solution to the thorniest scientific dilemma of the day--the longitude problem. Anyone alive in the eighteenth century would have known that the longitude problem was the thorniest scientific dilemma of the day--and had been for centuries. Lacking the ability to measure their longitude, sailors throughout the great ages of exploration had been literally lost at sea as soon as they lost sight of land. Thousands of lives and the increasing fortunes of nations hung on a resolution. One man, John Harrison, in complete opposition to the scientific community, dared to imagine a mechanical solution--a clock that would keep precise time at sea, something no clock had ever been able to do on land. Longitude is the dramatic human story of an epic scientific quest and of Harrison's forty-year obsession with building his perfect timekeeper, known today as the chronometer. Full of heroism and chicanery, it is also a fascinating brief history of astronomy, navigation, and clockmaking, and opens a new window on our world.

The Down Days Ilze Hugo, 2021-06-22 In the aftermath of a deadly outbreak bearing similarities to the Tanganyika Laughter Epidemic, a city at the tip of Africa is losing its mind--complete with hallucinations, paranoia, and good old-fashioned ghost sightings. Is it the result of secret government experiments, an episode of mass hysteria, the effects of trauma, a sign of the end times? In a quarantined city in which the inexplicable has already occurred, rumors, superstitions, and conspiracy theories abound. In these strange days, Faith works as a full-time corpse collector and a freelance truthologist, putting together disparate pieces of information to solve others' problems. But after Faith agrees to help an orphaned girl find the girl's abducted baby brother, she begins to wonder whether the boy is even real. Meanwhile, Sans, a ponyjacker in the human hair trade, is so distracted by a glimpse of his dream woman that he lets a bag of money he owes his gang partners go missing--leaving him desperately searching for both and soon questioning his own sanity. Over the course of a single week, the paths of Faith, Sans, and a cast of other hustlers--including a data dealer, a drug addict, a sin eater, and a hyena man--will cross and intertwine as they move about the city, looking for lost souls, uncertain absolution, and answers that may not exist. Part ghost story, part whodunit, part palimpsest, *THE DOWN DAYS* is a rollicking exploration of the mutability of memory, the subjectivity of perception, and the notion that truth is ultimately in the eye of the beholder--
