*Futanari Sex* Ed Ashley Berry, 2017 Leslie's new school is full of surprises. But the biggest are her fellow students. Half of the girls are like nothing she's ever seen before: tall, athletic, sexually charged, and all packing serious heat between their legs. Life was hard enough in her old school, but Leslie's about to find out she isn't just the new kid. To these girls, she's fresh meat. Long Description: As the newest student of White Reef High, Leslie's in for many big surprises. First, there's Ms. Hawke, who takes a very hands-on approach to physical education. Then there's half the student body, who are more bubbly, pretty and confident than Leslie could ever hope to be. And then there's the other half. These girls are something else. Tall, athletic, sexually charged, and all packing serious heat between their legs. Life was hard enough in

her old school, but Leslie's about to find out she isn't just the new kid. She's fresh meat. FUTANARI Sex ED is over 10,000 words of sex-filled fun between well-hung futanaris and eager females, and has a HFN ending. ~~~~~ Excerpt ~~~~~ Z ara held her hands to her hips, jutting one out to the side. "You can look, you know." She swept her hand in a downwards motion, as if presenting herself for an audience. "It likes the attention." Her smile was infectious, and Leslie found her lips twitch into a shy grin herself. And since she had permission, she let herself take a peek. She definitely liked what she saw. God, what a cock! And to her surprise, it had freckles, just like the rest of Zara. Those little dots made her enticing penis cute and sexy at the same time. Ms. Hawke instructed the class to stand on their mats. "Let's start with the absolute basics. First, all the futas need to get hard." The teacher began her 'demonstration,' running her closed fist up and down the length of her cock until it filled with blood and stood out straight from her body. The tip was a bright red, and a long blue vein snaked down the length of her shaft. The lights from overhead caught against a speck of pre-cum on the dick's tip, making it glimmer. Leslie was enraptured, her heart racing as she watched her PE teacher rub her enormous dick in front of everyone. She hoped nobody noticed her going red again. It went without saying that things here were very different from her old school! ... All right, everyone; clothes off!" Leslie felt dizzy as she watched every last person in the class, including Ms. Hawke herself, undress and throw their clothes in a pile in the corner of their mats. In a few blinks, Leslie was standing in front of a class of naked young women – and she was the only one with her clothes still on. Some of the taller girls, the ones who were now very obviously futanari, held hands with their partners, and some of were even kissing. Others simply stood around with their arms crossed, looking

like they would rather be paired with anyone but their assigned partner. “Look, I know you’re new here, but you’re really going to have to start following my instructions the first time I give them, Hall.” Ms. Hawke was looking at her seriously. “It wouldn’t be fair if I gave you special treatment; I expect all of my students to listen to what I say and follow me without question. So take your clothes off and be ready to help me demonstrate for the class.” “Demonstrate?!” Leslie couldn’t believe what she heard. “You’re going to...we’re going to...” Ms. Hawke pulled off the elastic in her hair and shook her hair out, the mousy blonde locks whipping from side to side. When her hair was free, she blew a few strands from face and replied: “Of course. I’m not going to let my students to fuck each other before showing them how to first.” ~~~~~ PG Excerpt ~~~~~ “Now,” the teacher continued. “It isn’t enough that I stand here and lecture you, much as I enjoy hearing the sound of my own voice.” Every girl rolled her eyes. “But since everyone here is eighteen, I thought we would make things a little more, well, practical today.” This got their attention. Girls immediately began chattering, their faces beaming with excitement. “Here is the list of pairs I’ve put together myself. All those whose partners are absent will be assigned together, or will join me up the front.” A titter rose. The teacher flipped a page on her clipboard and cleared her throat. “Stanley and LeHorn. Nichols and Prabhu. Chang and Finn.” This went on, with girls partnering up as their names were read out. Some looked less than enthused about their pairing, but others came together with giggles and coy smiles. One girl demanded that she be paired with her best friend, and the teacher barked so loud that Leslie nearly jumped out of her skin. Once they were all paired off, something became uncomfortably clear to Leslie. Her name hadn’t been called out. “Um, m-miss?” she said, raising her hand weakly and

trying to get the teacher's attention over the noise. "M-miss? I didn't... I mean I'm new, and I don't...I didn't..." The teacher took one glance at her, and then exhaled through her. "Sorry, they told me I'd have a new kid today. Totally skipped my mind." She flipped over the page. "Name?" "L-Leslie Hall," she stammered. "Leslie...Hall..." she repeated quietly, writing it down. She then placed the pencil in her breast pocket and removed her sunglasses. Her eyes were a beautiful ocean green, and they crinkled at the corners as she smiled. In an instant, this teacher was friendly and had none of the hardness she had shown before. "Nice to meet you, Leslie. I'm Ms. Hawke." She held out her hand. Leslie smiled back and shook her hand, albeit a little tentatively. "Nice to meet you too, Ms. Hawke." The teacher looked out at the crowd. "Well, looks like everyone has their partner today. You'll have to be mine. Hope that's alright with you?" "Mm-hmm. I mean, yes, that's fine, Ms. Hawke." The teacher chuckled, throwing her a mischievous look. "Relax, kid. You've picked a great day for your first PE lesson."

**SYSTEMS THINKING** Maria José Esteves de Vasconcellos,2021-04-30 An articulating and integrating frame of reference, for understanding the paradigmatic changes taking place in Science, proposed by Maria José Esteves de Vasconcellos. Following the developments that happened within science itself – in Thermodynamics, Quantum Physics, Cybernetics, Biology, to name a few, – during the 20th century, we can clearly see how such developments pushed science towards its limits and made some scientists rethink their epistemological assumptions. We, then, associate the three new assumptions of the new-paradigmatic science – complexity, instability, and intersubjectivity – with what has been identified as a world systemic view: a view that, while scientific, focuses on the relations rather than on the artificially isolated elements, as it has been done by the traditional science.

*The Field Agent* R. S. Twells, 2021-08-27 Recruited as babies by a mysterious organization known as the Orphanage, sixteen-year-old twin brothers Bennet and Collin mean the world to each other, even though they're complete opposites. Collin is training to be a field agent while Bennet is an earpiece, in

constant communication with his brother, monitoring his activities and providing computer support from a safe distance. When a mission goes horribly wrong, Bennet is left bereft, missing his other half. Already introverted, he retreats into himself. In his final statement, Collin urged him to leave the Orphanage, but it's the only home he's ever known. Instead, he makes a drastic decision: he'll fill the Collin-sized hole in his heart by rejecting his computer-focused career path, trying instead to match Collin's physical prowess so he can become a field agent like him. Training with Collin's old girlfriend, Darcy, a skilled assassin, Bennet tries to prove he can be just as skillful with his fists and a gun as at the keyboard, in the face of skepticism from the Orphanage and all of his classmates. As he struggles to succeed, Bennet must question how much he has hurt those around him and how much more important it is to be himself than just a copy of his brother. When his class is given its final assignment, both his new skills as a field agent and his old skills as an earpiece are put to the ultimate test. Failure could prove fatal, not only to himself but to his fellow agents-in-training—the only family he has left. And as if that weren't enough, the fate of the entire world hangs in the balance . . .

Petronella and the Janjilons Cheryl Bentley, 2015-01-06 "...the story was well done, Petronella a good strong female lead. Lorraine Baker, Bookseller, Wales ... a great book for reluctant readers ... A good fantasy read with good vs. evil Ann Klausing, Books-a-Million There are three witches, a hidden school and a lot of evil in this story.
