In this life-changing book, Mary Hunt shows you how to live a rich, fulfilling life without any consumer debt. By applying her simple principles and specific methods, you will learn how to effectively manage and maximize the money you have. No more guessing, wondering, or worrying. Just peace and a more abundant life. What have you got to lose?

**Can We Avoid Another Financial Crisis?** Steve Keen, 2017-05-09 The Great Financial Crash had cataclysmic effects on the global economy, and took conventional economists completely by surprise. Many leading commentators declared shortly before the crisis that the magical recipe for eternal

stability had been found. Less than a year later, the biggest economic crisis since the Great Depression erupted. In this explosive book, Steve Keen, one of the very few economists who anticipated the crash, shows why the self-declared experts were wrong and how ever-rising levels of private debt make another financial crisis almost inevitable unless politicians tackle the real dynamics causing financial instability. He also identifies the economies that have become 'The Walking Dead of Debt', and those that are next in line – including Australia, Belgium, China, Canada and South Korea. A major intervention by a fearlessly iconoclastic figure, this book is essential reading for anyone who wants to understand the true nature of the global economic system.

**Mastering Real Estate Investment** Frank Gallinelli, 2008 By the author of the bestselling guide, *What Every Real Estate Investor Needs to Know about Cash Flow...* (McGraw-Hill, 2004) Develop a command of the essential formulas and concepts that underlie income-property investing: \* Capitalization Rate \* Net Operating Income \* Present Value \* Debt Coverage Ratio \* Internal Rate of Return and much more Here Gallinelli revisits the 37 key metrics from his Cash Flow book and guides you through examples that will lead you to mastery of those concepts. He then takes you beyond those formulas to the next level, with detailed case studies of four different properties: \* Single-Family Rental \* Renovation Project \* Apartment Building \* Strip Shopping Center You'll analyze these properties with him and learn to look behind the

numbers, to think like a successful investor and to recognize both the opportunities and the perils you might encounter when you invest in real estate. Frank Gallinelli is the founder and President of RealData, Inc., one of the real estate industry's leading software firms since 1982. He has written several books and numerous articles on real estate investing, and teaches income-property analysis in Columbia University's Master of Science in Real Estate Development program.

**Consumer and SME Credit Law** Nora Beausang, 2021-12-16 With 2000+ pages of guidance, this important new textbook provides an extensive and in-depth guide to the current labyrinthine regulatory regime relating to consumer and SME credit (by way of cash loans) and protection generally, including the Consumer Protection Code, the Consumer Credit Act (housing loans and non-housing loans), the EU Consumer Credit Regulations, the EU Mortgage Credit Regulations and the Central Bank Housing Loan Regulations. Other lending-related conduct of business requirements are also covered in detail, including the Code of Conduct on Mortgage Arrears, the Lending to SME Regulations, the Code on Related Parties Lending and the Credit Reporting Act, together with applicable EBA/ECB Guidelines dealing with loan origination, product oversight and governance, non-performing exposures/loans and arrears. The regulated activities triggering authorisation as a retail credit firm or credit servicing firm are also addressed in detail. The book additionally extends beyond lending to have application to the wider business

of regulated firms in the financial services arena, dealing in detail with issues including the general principles and requirements of the Consumer Protection Code, the fitness and probity regime including the area of minimum competency, distance marketing requirements and other background to the regulatory regime in Ireland including the increased regulatory focus on the culture of regulated firms and product oversight and governance. The available redress/recourse mechanisms are also covered, including the Financial Services and Pensions Ombudsman, the Credit Review Office, the regulatory and other consequences of breach of applicable requirements and the significant risk management area for regulated firms of their customers' statutory right to redress on breach of financial services legislation. In addition, the book has relevance to professionals dealing with consumers in any contractual context including extensive treatment of how the concept of 'consumer' has developed under common law, the unfair commercial practices regime and the increasingly topical area of unfair contract terms legislation. Relevant case law of the Irish courts and other common law jurisdictions, together with an expanding corpus of decisions from the CJEU, are addressed in detail. This book's practical style is designed to assist bankers, other regulated firms, lawyers, compliance professionals and regulators in the application of a complex area. Rather than simply setting out the separate requirements, the book seeks to navigate the at times contradictory legislative and regulatory strands to give (in so far as is

possible) a coherent sense of how they integrate. Much of the content is unique and cannot be found in any other publication. An essential addition to the library of every lender, practitioner and compliance and regulatory risk professional, particularly in the areas of consumer and SME credit.
