Making Local News Phyllis Kaniss,1997-12-08 Why do crimes and accidents earn more news coverage than development and policy issues affecting thousands of people? Filled with revealing interviews with both journalists and city officials, Making Local News is the first comprehensive look at how the economic motives of media owners, professional motives of journalists, and the strategies of media-wise politicians shape the news we see and hear, thereby influencing urban policy. Making Local News by Phyllis Kaniss . . . is significant. . . . If we can continue to get smarter about that which journalism leaves out or distorts in its coverage of politics, we may eventually get smarter about politics itself.—Mitchell Stephens, The Philadelphia Inquirer View A convincing analysis of the factors and forces which color how and why local issues do, or do not, become newsworthy. —Michael H. Ebner, Journal of Interdisciplinary History This work serves as a reminder of the importance of a medium that is often overlooked until economic realities threaten its very existence. —Choice Kaniss is truly a pioneer in the study of local news.—Susan Herbst, Contemporary Sociology

Media Management Ann Hollifield,Jan LeBlanc Wicks,George Sylvie,Wilson Lowrey,2015-08-11 Media Management: A Casebook Approach provides a detailed consideration of the manager's role in today's media organizations, highlighting critical skills and responsibilities. Using media-based cases that promote critical thinking and problem-solving, this text addresses topics of key concern to managers: diversity, group cultures, progressive discipline, training, and market-driven journalism, among others. The cases provide real-world scenarios to help students anticipate and prepare for experiences in their future careers. Accounting for major changes in the media landscape that have affected every media industry, this Fifth Edition actively engages these changes in both discussion and cases. The text considers the need for managers to constantly adapt, obtain quality information, and be entrepreneurial and flexible in the face of new situations and technologies that cannot be predicted and change rapidly in national and international settings. As a resource for students and young professionals working in media industries, Media Management offers essential insights and guidance for succeeding in contemporary media management roles.

Babylost Monica J. Casper,2022-03-18 The U.S. infant mortality rate is among the highest in the industrialized world, and Black babies are far more likely than white babies to die in their first year of life. Maternal mortality rates are also very high. Though the infant mortality rate overall has improved over the past century with public health interventions, racial disparities have not. Racism, poverty, lack of access to health care, and other causes of death have been identified, but not yet adequately addressed. The tragedy is twofold: it is undoubtedly tragic that babies die in their first year of life, and it is both tragic and unacceptable that most of these deaths are preventable. Despite the urgency of the problem, there has been little public discussion of infant loss. The question this book takes up is not why babies die; we already have many answers to this question. It is, rather, who cares that babies, mostly but not only Black and Native American babies, are dying before their first birthdays? More importantly, what are we willing to do about it? This book tracks social and cultural dimensions of infant death through 58 alphabetical entries, from Absence to ZIP Code. It centers women's loss and grief, while also drawing attention to dimensions of infant death not often examined. It is simultaneously a sociological study of infant death, an archive of loss and grief, and a clarion call for social change.

Community Journalism Jock Lauterer,2009-11-20 No matter how ambitious they may be, most novice journalists don't get their start at the New York Times. They get their first jobs at smaller local community newspapers that require a different style of reporting than the detached, impersonal approach expected of major international publications. As the primary textbook and sourcebook for the teaching and practice of local journalism and newspaper publishing in the United States, Community Journalism addresses the issues a small-town newspaper writer or publisher is likely to face. Jock Lauterer covers topics ranging from why community journalism is important and distinctive; to hints for reporting and writing with a community spin; to design, production, photojournalism, and staff management. This third edition introduces new chapters on adjusting to changing demographics in the community and best practices for community papers. Updated with fresh examples throughout and considering the newest technologies in editing and photography, this edition of Community Journalism provides the very latest of what every person working at a small newspaper needs to know.
