*Lite Worship Services for Advent and Christmas* Cynthia E. Cowen, 2000-07 Popular CSS author Cynthia Cowen returns with three more imaginative programs that will spice up the Advent/Christmas season for any size congregation. Prepare Your Heart For Christmas is a service of carols and reflections that's perfect for a midweek Advent program. Designed as a youth program, Advent Bells includes a brief skit with bell ringers and unique chorus songs. We Welcome The Light Of Christmas is a memorable family service for Christmas Eve with a humorous sketch about the Good News and a lost Frisbee which has turned into the Christmas star. A prolific and enthusiastic writer of worship resources, Cynthia E. Cowen has produced numerous pieces for CSS Publishing Company since 1991. She received a B.A. degree in education from Northern Michigan University and is a graduate of the Northern Great Lakes Synod Lay School for Mission. Cowen serves on synod leadership teams for youth, women, and clergy, was a licensed lay minister in a small congregation, and is currently a rostered Associate in Ministry in Youth And Family at Our Saviour's Lutheran Church, Iron Mountain, Michigan. She was elected to the Executive Board of the churchwide Women of the ELCA in 1996, and has served on its Printed Resources committee.

*Democratic Accountability in Latin America* Scott Mainwaring, Christopher Welna, 2003-07-31 This volume on democratic accountability addresses one of the burning issues on the agenda of policy makers and citizens in contemporary Latin America: how democratic leaders in Latin America can improve accountability while simultaneously promoting governmental effectiveness. Written by well-known scholars from both Latin America and the United States, the volume enhances understanding of these key themes, which are central to the future of democracy in Latin America. - ; This volume on democratic accountability addresses one of the burning issues on the agenda of policy makers and citizens in contemporary Latin America. In much of Latin America, disenchantment and cynicism have set in regarding the quality of elected governments raising the prospect of a new round of democratic erosion and breakdowns. One of the important emerging challenges for improving the quality of democracy revolves around how to build more effective mechanisms of accountability. A widespread perception prevails in much of the region that government officials are not sufficiently subject to routinized controls by oversight agencies. Corruption, lack of oversight, impunity of state actors, and improper use of public resources are major problems in most countries of the region. Dealing with these issues is paramount to restoring and deepening democratic legitimacy. The fundamental question in this volume is how democratic leaders in Latin America can improve accountability while simultaneously promoting governmental effectiveness. These issues have acquired urgency in contemporary Latin America because of heightened public concern about corruption and improper governmental actions on the one hand, yet on the other, uncertainty about the potential tradeoff between tightened accountability of officials and effective policy results. The volume enhances understanding of three key issues. First, it enriches understanding of the state of non-electoral forms of democratic accountability in contemporary Latin America. What are some of the major shortcomings in democratic accountability? How can they be addressed? What are some major innovations in the efforts to enhance democratic accountability? A second contribution of the volume is conceptual. Accountability is a key concept in the social sciences, yet its meaning varies widely from one author to the next. The authors in this volume, especially in the first four chapters, explicitly debate how best to define and delimit the concept. Finally the volume also furthers understanding of the interactions between various mechanisms and institutions of accountability. Many of the authors address how electoral accountability (the accountability of elected officials to the voters) interact with the forms of

accountability in which state agencies oversee and sanction public officials. The volume provides extensive treatment of this important but hitherto under-explored interaction. -
