What you'll find inside..... - Bowhunting history - Traditional and modern archery - Deer and turkey hunting strategies - Cedar arrow building; step-by-step - Bowhunting tips and techniques - Photos and illustrations - Georgia County #1 bow harvest story - Plus down-to-earth stories from a master bowhunter Whether you are new to archery and bowhunting - or have years of experience, you will find this book educational and entertaining. I am a typical father, husband, military veteran, and bowhunter, who has lived *The Bowhunting Life* for more than forty years. As a bowyer and arrowsmith, I have a passion for traditional archery, but also hunt with a modern compound bow. Respecting the forest and the animals you hunt is much more important than the type of bow you use. My tips and techniques for hunting whitetail and turkey with a bow will increase your odds of bowhunting success tremendously. My unique Southern, down-to-earth writing style will have you feeling like you're right there with me in the tree stand, as the record-book buck inches into range. Come along with me, on my most unforgettable and exciting hunts, as I chase monster deer and boss gobblers with stick & string in the Georgia swamp bottoms. My writing has appeared in *Bowhunter Magazine*, *Bow & Arrow*, *Archery World*, *Western Bowhunter* and other outdoor publications. Beware; reading this book may cause immediate symptoms of Buck Fever Learn bowhunting secrets from a master. Scroll up & click the buy button today. Back in the early 1960s, I watched Fred Bear on

the The American Sportsman show, hunting Grizzly Bear with his recurve bow. That was it! I knew that I had witnessed the ultimate hunting challenge, and have been an avid archer and bowhunter ever since. Like most archers of that time, when the compound bow came on the market, I hung up my recurve for a compound. I spent most weekdays shooting 100's of practice arrows and weekends deer hunting and shooting 3d tournaments. Archery for me changed during the 1980s. After reading the Howard Hill book *Hunting the Hard Way*, I bought my first longbow - an 80# straight limb Martin. It wasn't long before I harvested my first buck & gobbler with a longbow. Traditional archery became an obsession. Archery has come full circle for me. I now enjoy hunting with a modern compound bow, which I used to harvest the Columbia County, Georgia #1 P&Y record book buck.

It also played a leading role in raiding, siege and naval warfare. How to Shoot the Longbow Hugh D. H. Soar, 2015 A Leading Expert on Traditional Archery Offers Insight Into How the Longbow Was Drawn from Medieval Sources to Modern Recreations Soar's book [*The Crooked Stick*] is indispensable.--Bernard Cornwell, New York Times bestselling author Relying on more than fifty years' experience in archery, historian Hugh D. H. Soar reflects on how the longbow was drawn and shot across the centuries through examining the design of the bow and early literature about the bow, combined with his and his colleagues' applied knowledge using replica bows. No complete medieval longbow has survived, but those found aboard the Tudor warship *Mary Rose* provide the best archaeological evidence to the possible construction of the medieval bow. Contemporary treatises written about the proper manner of shooting the bow, together with the resurgence in interest and construction of replica bows

beginning in the late sixteenth century that form part of the author's collection provide the basis for this work. *How to Shoot the Longbow: A Guide from Historical and Applied Sources* is a fascinating and practical look at the use of a legendary invention.

War Bows Mike Loades,2019-02-21 War bows dominated battlefields across the world for centuries. In their various forms, they allowed trained archers to take down even well-armoured targets from great distances, and played a key role in some of the most famous battles in human history. The composite bow was a versatile and devastatingly effective weapon, on foot, from chariots and on horseback for over a thousand years, used by cultures as diverse as the Hittites, the Romans, the Mongols and the Ottoman Turks. The Middle Ages saw a clash between the iconic longbow and the more technologically sophisticated crossbow, most famously during the Hundred Years War, while in Japan, the samurai used the yumi to deadly effect, unleashing bursts of arrows from their galloping steeds. Historical weapons expert Mike Loades reveals the full history of these four iconic weapons that changed the nature of warfare. Complete with modern ballistics testing, action recreations of what it is like to fire each bow and a critical analysis of the technology and tactics associated with each bow, this book is a must-have for anyone interested in ancient arms.
