

Los Angeles

Charles Dwight Willard

Los Angeles David Rieff, 2013-02-19 David Rieff looks at a city that was long the epitome of the American Dream and is now, for many, the emblem of the American urban nightmare. Writing before the riots of 1992, Rieff found not a city of dreams but a city of bitter contradictions. A city that, like the United States itself, was being transformed by immigrants and refugees from Latin America and East Asia from an extension of Europe to a diverse patchwork of the peoples of the world. This is an L.A. that has never been described before. With a new afterword.

Los Angeles John Walton Caughey, LaRee Caughey, 1977-10-18 Its intelligent combination of essays reveals much about Los Angeles which does not always find its way into socio-historical texts about the area. The editors' remarks preceding each essay expertly bind the book together. I suspect it will wind up as one of the more dog-eared volumes on my shelf.—Mayor Tom Bradley of Los Angeles

A People's Guide to Los Angeles Laura Pulido, Laura Barraclough, Wendy Cheng, 2012-04-23 This book documents 115 little-known sites in Los Angeles where struggles related to race, class, gender, sexuality, and the environment have occurred. They introduce us to people and events usually ignored by mainstream media and, in the process, create a fresh history of Los Angeles.

Everything Now Rosecrans Baldwin, 2021-06-15 A LOS ANGELES TIMES BESTSELLER. NAMED A BEST CALIFORNIA BOOKS OF 2021 BY THE NEW YORK TIMES A provocative, exhilaratingly new understanding of the United States' most confounding metropolis—not just a great city, but a full-blown modern city-state America is obsessed with Los Angeles. And America has been thinking about Los Angeles all wrong, for decades, on repeat. Los Angeles is not just the place where the American dream hits the Pacific. (It has its own dreams.) Not just the vanishing point of America's western drive. (It has its own compass.) Functionally, aesthetically, mythologically, even technologically, an independent territory, defined less by distinct borders than by an aura of autonomy and a sense of unfurling destiny—this is the city-state of Los Angeles. Deeply reported and researched, provocatively argued, and eloquently written, Rosecrans Baldwin's *Everything Now* approaches the metropolis from unexpected angles, nimbly interleaving his own voice with a chorus of others, from canonical L.A. literature to everyday citizens. Here, Octavia E. Butler and Joan Didion are in conversation with activists and astronauts, vampires and veterans. Baldwin records the stories of countless Angelenos, discovering people both upended and reborn: by disasters natural and economic, following gospels of wealth or self-help or personal destiny. The result is a story of a kaleidoscopic, vibrant nation unto itself—vastly more than its many, many parts. Baldwin's concept of the city-state allows us, finally, to grasp a place—Los Angeles—whose idiosyncrasies both magnify those of America, and are so fully its own. Here, space and time don't quite work the same as they do elsewhere, and contradictions are as stark as southern California's natural environment. Perhaps no better place exists to watch the United States's past, and its possible futures, play themselves out. Welcome to Los Angeles, the Great American City-State.

Imagining Los Angeles David Fine, 2016-06-01 The literary image of Los Angeles has evolved since the 1880s from promotional literature that hyped the region as a New Eden to contemporary visions of the city as a perplexing,

sometimes corrupt, even apocalyptic place that reflects all that is wrong with America. In *Imagining Los Angeles*, the first literary history of the city in more than fifty years, critic David Fine traces the history and mood of the place through the work of writers as diverse as Helen Hunt Jackson, Mary Austin, Norman Mailer, Raymond Chandler, Joan Didion, Carolyn See, and many others. His lively and engaging text focuses on the way these writers saw Los Angeles and used the image of the city as an element in their work, and on how that image has changed as the city itself became ever larger, more complex, and more socially and ethnically diverse. This is essential reading for anyone interested in the literature and changing image of Southern California.

Metropolis in the Making Tom Sitton, 2001-08-01 Los Angeles came of age in the 1920s. The great boom of that decade gave shape to the L.A. of today: its vast suburban sprawl and reliance on the automobile, its prominence as a financial and industrial center, and the rise of Hollywood as the film capital of the world. This collection of original essays explores the making of the Los Angeles metropolis during this remarkable decade. The authors examine the city's racial, political, cultural, and industrial dynamics, making this volume an essential guide to understanding the rise of Los Angeles as one of the most important cities in the world. These essays showcase the work of a new generation of scholars who are turning their attention to the history of the City of Angels to create a richer, more detailed picture of our urban past. The essays provide a fascinating look at life in the new suburbs, in the oil fields, in the movie studios, at church, and at the polling place as they reconceptualize the origins of contemporary urban problems and promise in Los Angeles and beyond. Adding to its interest, the volume is illustrated with period photography, much of which has not been published before.

Becoming Los Angeles D. J. Waldie, 2020-08-18 Best-selling author and beloved chronicler of Los Angeles D.J. Waldie reconsiders the city in a collection of contemporary essays. Nobody sees Los Angeles with more eloquence than D. J. Waldie. - Susan Brenneman, Los Angeles Times Deputy Op-Ed Editor *Becoming Los Angeles*, a new collection by the author of the acclaimed memoir *Holy Land*, blends history, memory, and critical analysis to illuminate how Angelenos have seen themselves and their city. Waldie's particular concern is commonplace Los Angeles, whose rhythms of daily life are set against the gaudy backdrop of historical myth and Hollywood illusion. It's through sacred ordinariness that Waldie experiences the city's seasons. In his exploration of sprawling Los Angeles, he considers how the city's image was constructed and how it fostered willful amnesia about the city's conflicted past. He encounters the immigrants and exiles, the dreamers and con artists, the celebrated and forgotten who became Los Angeles. He measures the place of nature in the city and the different ways that nature has been defined. He maps on the contours of Los Angeles what embracing--or rejecting--an Angeleno identity has come to mean. *Becoming Los Angeles* draws on a decade of Waldie's writing about the intersection of the city's history and its aspirations. He asks, what do we talk about when we talk about Los Angeles today? In a global, cosmopolitan city, is there value in cultivating a local imagination? And he wonders how to describe a city that is denser and more polarized and challenged by climate change, homelessness, and economic disparity. There will always be romance in the idea of Los Angeles, but it requires renewed hope to sustain. *Becoming Los Angeles* is a further

account of how Waldie gained a sense of place, which James Mustich, author of 1,000 Books to Read Before You Die, described as an almost sacramental act of attention. Becoming Los Angeles is ultimately a book about learning how to fall in love with wherever it is you are. Called a writer whose work is a gorgeous distillation of architectural and social history by the New York Times, whose essays and memoirs, said the Los Angeles Times, conjure the idiosyncratic splendor of Southern California life, D. J. Waldie is the author of the acclaimed Holy Land: A Suburban Memoir and other books that illuminate the ordinary and the everyday in lyrical prose. In collaboration with Diane Keaton, Waldie provided the text for two photographic explorations of home: California Romantica, dealing with homes in the Spanish Colonial Revival Style of the early twentieth century, and House, examining post-modern interpretations of domesticity. California Romantica became a Los Angeles Times non-fiction bestseller in 2007. D. J. Waldie's narratives about suburban life have appeared in BUZZ, The Kenyon Review, The Massachusetts Review, The Georgetown Review, Salon, dwell, Los Angeles Magazine, Spiritus, Gulf Coast, Urbanisme, Bauwelt, and other publications. His book reviews and commentary have appeared in the Los Angeles Times, the Wall Street Journal, and the New York Times. He lives in the home where he was born in Lakewood, California, where he was formerly the Deputy City Manager.

City of Quartz Mike Davis, 2006-09-17 This new edition of the visionary social history of Los Angeles is "as central to the L.A. canon as anything that . . . Joan Didion wrote in the seventies" (New Yorker) No metropolis has been more loved or more hated. To its official boosters, "Los Angeles brings it all together." To detractors, L.A. is a sunlit mortuary where "you can rot without feeling it." To Mike Davis, the author of this fiercely elegant and wide-ranging work of social history, Los Angeles is both utopia and dystopia, a place where the last Joshua trees are being plowed under to make room for model communities in the desert, where the rich have hired their own police to fend off street gangs, as well as armed Beirut militias. In City of Quartz, Davis reconstructs L.A.'s shadow history and dissects its ethereal economy. He tells us who has the power and how they hold on to it. He gives us a city of Dickensian extremes, Pynchonesque conspiracies, and a desperation straight out of Nathaniel West—a city in which we may glimpse our own future mirrored with terrifying clarity. In this new edition, Davis provides a dazzling update on the city's current status.

The Herald's History of Los Angeles City Charles Dwight Willard, 1901

City at the Edge of Forever Peter Lunenfeld, 2021-08-10 An engaging account of the uniquely creative spirit and bustling cultural ecology of contemporary Los Angeles How did Los Angeles start the 20th century as a dusty frontier town and end up a century later as one of the globe's supercities - with unparalleled cultural, economic, and technological reach? In City at the Edge of Forever, Peter Lunenfeld constructs an urban portrait, layer by layer, from serendipitous affinities, historical anomalies, and uncanny correspondences. In its pages, modernist architecture and lifestyle capitalism come together via a surfer girl named Gidget; Joan Didion's yellow Corvette is the brainchild of a car-crazy Japanese-American kid interned at Manzanar; and the music of the Manson Family segues into the birth of sci-fi fandom. One of the book's innovations is to brand Los Angeles as the alchemical

city. Earth became real estate when the Yankees took control in the nineteenth century. Fire fueled the city's early explosive growth as the Southland's oil fields supplied the inexhaustible demands of drivers and their cars. Air defined the area from WWII to the end of the Cold War, with aeronautics and aerospace dominating the region's industries. Water is now the key element, and Southern California's ports are the largest in the western hemisphere. What alchemists identify as the ethereal fifth element, or quintessence, this book positions as the glamour of Hollywood, a spell that sustains the city but also needs to be broken in order to understand Los Angeles now. Lunenfeld weaves together the city's art, architecture, and design, juxtaposes its entertainment and literary histories, and moves from restaurant kitchens to recording studios to ultra-secret research and development labs. In the process, he reimagines Los Angeles as simultaneously an exemplar and cautionary tale for the 21st century.

Land of Smoke and Mirrors Vincent Brook, 2013-01-22 Unlike the more forthrightly mythic origins of other urban centers—think Rome via Romulus and Remus or Mexico City via the god Huitzilopochtli—Los Angeles emerged from a smoke-and-mirrors process that is simultaneously literal and figurative, real and imagined, material and metaphorical, physical and textual. Through penetrating analysis and personal engagement, Vincent Brook uncovers the many portraits of this ever-enticing, ever-ambivalent, and increasingly multicultural megalopolis. Divided into sections that probe Los Angeles's checkered history and reflect on Hollywood's own self-reflections, the book shows how the city, despite considerable remaining challenges, is finally blowing away some of the smoke of its not always proud past and rhetorically adjusting its rear-view mirrors. Part I is a review of the city's history through the early 1900s, focusing on the seminal 1884 novel *Ramona* and its immediate effect, but also exploring its ongoing impact through interviews with present-day Tongva Indians, attendance at the 88th annual *Ramona* pageant, and analysis of its feature film adaptations. Brook deals with Hollywood as geographical site, film production center, and frame of mind in Part II. He charts the events leading up to Hollywood's emergence as the world's movie capital and explores subsequent developments of the film industry from its golden age through the so-called New Hollywood, citing such self-reflexive films as *Sunset Blvd.*, *Singin' in the Rain*, and *The Truman Show*. Part III considers LA noir, a subset of film noir that emerged alongside the classical noir cycle in the 1940s and 1950s and continues today. The city's status as a privileged noir site is analyzed in relation to its history and through discussions of such key LA noir novels and films as *Double Indemnity*, *Chinatown*, and *Crash*. In Part IV, Brook examines multicultural Los Angeles. Using media texts as signposts, he maps the history and contemporary situation of the city's major ethno-racial and other minority groups, looking at such films as *Mi Familia* (Latinos), *Boyz n the Hood* (African Americans), *Charlotte Sometimes* (Asians), *Falling Down* (Whites), and *The Kids Are All Right* (LGBT).

Land of Sunshine William Deverell, Greg Hise, 2006-06-30 Most people equate Los Angeles with smog, sprawl, forty suburbs in search of a city—the great what-not-to-do of twentieth-century city building. But there's much more to LA's story than this shallow stereotype. History shows that Los Angeles was intensely, ubiquitously planned. The

consequences of that planning-the environmental history of urbanism--is one place to turn for the more complex lessons LA has to offer. Working forward from ancient times and ancient ecologies to the very recent past, *Land of Sunshine* is a fascinating exploration of the environmental history of greater Los Angeles. Rather than rehearsing a litany of errors or insults against nature, rather than decrying the lost opportunities of roads not taken, these essays, by nineteen leading geologists, ecologists, and historians, instead consider the changing dynamics both of the city and of nature. In the nineteenth century, for example, density was considered an evil, and reformers struggled mightily to move the working poor out to areas where better sanitation and flowers and parks made life seem worth the living. We now call that vision sprawl, and we struggle just as much to bring middle-class people back into the core of American cities. There's nothing natural, or inevitable, about such turns of events. It's only by paying very close attention to the ways metropolitan nature has been constructed and construed that meaningful lessons can be drawn. History matters. So here are the plants and animals of the Los Angeles basin, its rivers and watersheds. Here are the landscapes of fact and fantasy, the historical actors, events, and circumstances that have proved transformative over and over again. The result is a nuanced and rich portrait of Los Angeles that will serve planners, communities, and environmentalists as they look to the past for clues, if not blueprints, for enhancing the quality and viability of cities.

Latino Los Angeles in Film and Fiction Ignacio López-Calvo, 2011 Los Angeles has long been a place where cultures clash and reshape. The city has a growing number of Latina/o authors and filmmakers who are remapping and reclaiming it through ongoing symbolic appropriation. In this illuminating book, Ignacio López-Calvo foregrounds the emotional experiences of authors, implicit authors, narrators, characters, and readers in order to demonstrate that the evolution of the imaging of Los Angeles in Latino cultural production is closely related to the politics of spatial location. This spatial-temporal approach, he writes, reveals significant social anxieties, repressed rage, and deep racial guilt. *Latino Los Angeles in Film and Fiction* sets out to reconfigure the scope of Latino literary and cultural studies. Integrating histories of different regions and nations, the book sets the interplay of unresolved contradictions in this particular metropolitan area. The novelists studied here stem from multiple areas, including the U.S. Southwest, Guatemala, and Chile. The study also incorporates non-Latino writers who have contributed to the Latino culture of the city. The first chapter examines Latino cultural production from an ecocritical perspective on urban interethnic relations. Chapter 2 concentrates on the representation of daily life in the barrio and the marginalization of Latino urban youth. The third chapter explores the space of women and how female characters expand their area of operations from the domestic space to the public space of both the barrio and the city. A much-needed contribution to the fields of urban theory, race critical theory, Chicana/o-Latina/o studies, and Los Angeles writing and film, López-Calvo offers multiple theoretical perspectives—including urban theory, ecocriticism, ethnic studies, gender studies, and cultural studies—contextualized with notions of transnationalism and post-nationalism.

Los Angeles A. M. Homes, 2002 Whether in history books or on the silver screen, the Los Angeles landscape has

long served as an ever-shifting backdrop against which countless American anxieties and aspirations play out. The New York-based novelist and short-story writer Homes checks readers into the famed hotel Chateau Marmont and uses life at this iconic landmark as a multifaceted prism through which she views and experiences Los Angeles culture, past and present.

The Devil in Los Angeles ,2011-07-01 Have you ever wondered why things are so bad in Los Angeles? Why is everything so irritating? Why are the lines so long? Why is everyone so selfish and immature? If you spend your time asking questions like these then you should meet the person responsible. Barlaam Smith is the devil assigned to Southern California. He has been so successful that he has worked himself out of a job. The people in his area are now so bad that he doesn't have to do a thing and his statistics are still incredible. In fact, many Angelinos could do his job better than he could on his best (or worst) day. Through his work in media and other modern means the city does his work automatically. So, he's bored and has begun to question himself. He's been pretending to be a human for ages, so the longer he stays on Earth the more human he becomes while all around him we humans become less so. What can he do?
