**Lose Weight** Fanton Publishers, 2018-11-06 Lose weight and fat, not your mind and dignity! Statistics indicate that over 30% of the world's population is overweight or obese! This puts an estimated 2 billion people to a 50% risk of developing such health problems like diabetes, hypertension, heart disease, metabolic syndrome and many others. You don't want to be among this part of the population! If you are overweight, you understand that many of the quick fixes are not really quick fixes because you have to work extra hard to make it through the stipulated period of the program. You probably only see it on the internet that so and so has been losing weight through such techniques like juicing, smoothies and taking low carb diets but haven't really met anyone in real life to tell you how the dieting or juicing programs work. If you have ever tried these diets, what happened? Did you drop out because of the many rules involved in the diets? Or did you drop because you could no longer keep the cravings away? What many diets don't address is; what will happen after the diet? Will you go back to your old eating habits and expect not to go back to being overweight simply because you cannot really keep your food portions in check? Workouts are not any different either; after spending an endless number of hours at the gym trying to burn the belly fat or get rid of those love handles, when do you stop? Are the results permanent? Are you supposed to keep at it indefinitely? What if you cannot keep up with the demands of a gym? My wife has been to the gym several times trying to lose weight after our son was born and I can honestly say going to the gym consistently and indefinitely is for gym rats! And not everyone wants that kind of life! The question is; can you still lose weight and keep it off without extreme dieting and workouts? I can proudly say that it is possible to lose weight and keep it off without becoming a gym rat or starving yourself. And this book will show you exactly in as few words as possible. In this book, you will learn that you really don't have to do so much to lose weight. You will learn: Simple tactics for tricking your body to accept less food per eating Effective ways to keep your cravings in check How you will stay motivated How to deal with temptations and cheat meals And much, much more! Unlike other techniques, this weight loss technique doesn't involve dieting; you are safe from fasting! It is also one of the most sustainable weight loss strategies out there that will keep off the pounds for good since you will learn how not to eat too much food by adopting the techniques outlined here. If you are ready to start seeing the pounds coming off without having to put in as much effort, click Buy Now in 1-Click or Add to Cart NOW.

**How to Lose Weight Fast: Diet Plan** Crimson Carlito, 2011-11-04 You've heard it time and again: fad diets don't work for permanent weight loss. But what about those times when you really need to lose some weight fast? It's hard to pass up the promise of crash diets like the Lemonade Diet, Cabbage Soup Diet, or Lose 21 Pounds in 21 Days when your mission is to squeeze into a new outfit in time for a reunion, wedding, or other special event. So what's wrong with dropping 20 pounds fast so you can wow your friends and family with a svelte new shape? The truth is that nothing is wrong with losing weight rapidly -- as long you do it the right way, says Michael Dansinger, MD. He's the medical doctor for NBC's The Biggest Loser show, which spotlights quick and dramatic weight

loss. In theory, one could drop as much as 20 pounds in a week following a very ambitious eating and exercise plan, devoting more than seven hours per week to rigorous exercise, and under a physician's care like we do on the television program, he says. But even if you can't drop everything to go to weight loss boot camp, you can safely lose 3 or more pounds a week at home with a healthy diet and lots of exercise, says weight loss counselor Katherine Tallmadge, RD. In fact, having a goal like looking great at a wedding or reunion can be a great motivator, as long as you follow a weight loss plan that you can keep up after the special event. But you need to plan ahead and allow enough time to make changes to your shape. Don't wait until one week before the reunion to try and lose 10 pounds, advises Tara Gidus, MS, RD, team dietitian for the Orlando Magic.
