Temple Legend Rudolf Steiner,1997 At the time of these lectures Steiner was planning to inaugurate the second section of the Esoteric School, which was to deal in a direct way with a renewal - out of his own spiritual research - of ritual and symbolism. He gave these lectures as a necessary preparation, to clarify the history and nature of the cultic tradition. He thus discusses principally Freemasonry and its background, but also the Rosicrucians, Manichaeism, the Druids, the Prometheus Saga, the Lost Temple, Cain and Abel - and much else besides.

The Temple Legend Rudolf Steiner,2014-12-05 In these unique lectures, given to members of his Esoteric School (1904-14), Rudolf Steiner's main intention is to throw light on the hidden content of the picture-language of myths, sagas and legends. Pictures, he explains, are the real origin of all things - the primeval spiritual causes. In the ancient past people assimilated these pictures through myths and legends. In order to work in a healthy way with pictures or symbols today, however, it is necessary that one should first become acquainted with their esoteric content - to understand them. At the time of these lectures Steiner was planning to inaugurate the second section of the Esoteric School, which was to deal in a direct way with a renewal - out of his own spiritual research - of ritual and symbolism. He gave these lectures as a necessary preparation, to clarify the history and nature of the cultic tradition. He thus discusses principally Freemasonry and its background, but also the Rosicrucians, Manichaeism, the Druids, the Prometheus Saga, the Lost Temple, Cain and Abel - and much else besides. Temples and Sanctuaries from the Early Iron Age Levant William E. Mierse,2012-10-08 The vision for this impressive work on temple architecture in the Levant grew out of the author's work on Roman temple designs on the Iberian Peninsula and continual references to Semitic influences on the designs of sanctuaries both on the Peninsula and in North Africa. It was assumed that Phoenician colonization had brought with it the full flowering of Levantine architectural forms. As Mierse began to search for relevant material on the ancient Levant, however, he discovered that no overall synthesis had ever been written, and it was virtually impossible to recognize and isolate Semitic elements in architectural forms. This book addresses this need. The analysis presented here is comparative and follows the methodology most commonly employed by architectural historians throughout the twentieth century. It is a formalist approach and permits the isolation of lines of continuity and the detection of discontinuity. While Mierse relies heavily on this traditional method, he also introduces some approaches from the postprocessual school of archaeology in its attempts to discern an appropriate way for cult to be investigated by archaeology. The sanctuaries that this book presents were erected between the end of the Late Bronze Age (conventionally assigned the date of 1200 B.C.E.) and the annexation of the Levantine region into the Assyrian Empire (when Mesopotamia again became highly influential in the region). The topic concerns temples that were produced during the period when the Levant was its own entity and politically independent of Egypt, Mesopotamia, or Anatolia. During this period, the designs chosen for inclusion in this book must reflect local choices rather than resulting from imposed outside concepts. The architecture that emerged in the wake of the downfall of the Late Bronze Age and the subsequent reemergence of social cohesiveness manifested significant changes in form and function. The five centuries under review reveal exciting developments in sacred architecture and show that, although the architects of the first millennium B.C.E. maintained important lines of continuity with the developments of the previous two millennia, they were also capable of creating novel forms to meet new needs. Included in this fascinating volume are 90 pages of photos, drawings, floor plans, and maps.

The Lost 116 Pages: Reconstructing the Book of Mormon's Missing Stories Don Bradley,2019-11-21 On a summer day in 1828, Book of Mormon scribe and witness Martin Harris was emptying drawers, upending furniture, and ripping apart mattresses as he desperately looked for a stack of papers he had sworn to God to protect. Those pages containing the only copy of the first three months of the Joseph Smith's translation of the golden plates were forever lost, and the detailed stories they held forgotten over the ensuing years--until now. In this highly anticipated work, author Don Bradley presents over a decade of historical and scriptural research to not only tell the story of the lost pages but to reconstruct many of the detailed stories written on them. Questions explored and answered include: Was the lost manuscript actually 116 pages? How did Mormon's abridgment of this period differ from the accounts in Nephi's small plates? Where did the brass plates and Laban's sword come from? How did Lehi's family and their descendants live the Law of Moses without the temple and Aaronic priesthood? How did the Liahona operate? Why is Joseph of Egypt emphasized so much in the Book of Mormon? How were the first Nephites similar to the very last? What message did God write on the temple wall for Aminadi to translate? How did the Jaredite interpreters come into the hands of the Nephite kings? Why was King Benjamin so beloved by his people? Despite the likely demise of those pages to the sands of time, the answers to these questions and many more are now available for the first time in nearly two centuries in *The Lost 116 Pages: Reconstructing the Book of Mormon's Missing Stories*.
