*Buying a Bride* Marcia A. Zug, 2016-06-07 There have always been mail-order brides in America. In this book Zug starts with the so-called Tobacco Wives of the Jamestown colony and moves forward to today's modern same-sex mail-order grooms to explore the advantages and disadvantages of mail-order marriage. It's a history of deception, physical abuse, and failed unions. It's also the story of how mail-order marriage can offer women surprising and empowering opportunities.

*Shakespeare's Complete Sonnets* William Shakespeare, 1908

*God as Sacrificial Love* Asle Eikrem, 2018-01-25 In dialogue with a range of post-enlightenment critiques of Christian theologies regarding sacrificial love, Asle Eikrem presents an unconventional systematic approach to this multi-layered and complex theological topic. From Hegel to prominent 20th century theologians, from feminist theologies to postmodern philosophers, this volume engages in a critical conversation with a host of different voices on all the classical topics in theology (creation, trinity, incarnation, atonement, sin, faith, sacraments, and eschatology), also providing a moral and socio-historical vision for Christian living. The result is a unique appraisal of the significance that the life and death of Jesus holds for the world today.

**Mourning, Spirituality and Psychic Change** Susan Kavalier-Adler, 2004-06-02 This book explores how a successful analyst can help patients to utilise mourning for past troubles to move them forward to a lasting change for the better, emotionally, psychically and erotically.

*Plato's Lysis* Terry Penner, Christopher Rowe, 2005-10-20 The *Lysis* is one of Plato's most engaging but also puzzling dialogues; it has often been regarded, in the modern period, as a philosophical failure. The full philosophical and literary exploration of the dialogue illustrates how it in fact provides a systematic and coherent, if incomplete, account of a special theory about, and

special explanation of, human desire and action. Furthermore, it shows how that theory and explanation are fundamental to a whole range of other Platonic dialogues and indeed to the understanding of the corpus as a whole. Part One offers an analysis of, or running commentary on, the dialogue. In Part Two Professors Penner and Rowe examine the philosophical and methodological implications of the argument uncovered by the analysis. The whole is rounded off by an epilogue of the relation between the *Lysis* and some other Platonic (and Aristotelian) texts.

**Missionary Positions** Lauren McGrow, 2017-08-28 *Missionary Positions* challenges common Christian assumptions about sex workers. Using feminist, postcolonial perspectives, interviews with pastoral practitioners and personal narrative, Lauren McGrow carves out a space for the dynamic theological agency and life complexity of sex workers to be acknowledged.

The Politics of Love Carla Christina Hustak, 2024 *The Politics of Love* explores the entanglement of emotions, social movements, and science in reconfiguring human and nonhuman relations. As Darwin's evolutionary theory informed the development of sexual science and the sex reform movement between the 1890s and the 1920s, sex reformers emerged as a group of diverse and culturally influential professionals--doctors, psychologists, artists, political activists, novelists, and academics--who shared a profound commitment to changing the world by changing the practice of sex. Sex reformers reinvented love as a scientific practice of sex that brought humans and nonhumans into the fold of early-twentieth-century racial, gender, and sexual politics. Carla Christina Hustak illuminates how sex reformers' insistence that love can shift human and nonhuman relations is more than just a historical narrative--it is a moment in time interconnected with urgent contemporary concerns over the global implications of our emotional relationships to other humans, animals, the earth, and atmospheric and technological forces.

*Evolution and Human Sexual Behavior* Peter B. Gray, 2013-04-01 A comprehensive survey of the evolutionary science of human sexual behavior, *Evolution and Human Sexual Behavior* invites us to

imagine human sex from the vantage point of our primate cousins, in order to underscore the role of evolution in shaping all that happens, biologically and behaviorally, when romantic passions are aroused.

*The Variorum Edition of the Poetry of John Donne, Volume 2* John Donne, 2000 Based on an exhaustive study of the manuscript and print history of Donne's poetry, this edition presents newly edited critical texts of the poems and a comprehensive digest of the critical-scholarly commentary on them from Donne's time forward. Textual introductions briefly locate the poems in the context of Donne's life or poetic development, outline the 17th-century textual history of the poems, and sketch the treatment of the text by modern editors. A detailed textual apparatus presents variants collated from many sources and traces the lines of textual transmission--Provided by publisher.

**Dreamcrafting** Paul Levesque, Art McNeil, 2003-02-16 Many people set out to achieve a dream--starting a business or learning to play the piano or publishing a book--but they don't succeed, and the dream fizzles away. In many cases, these people have lots of skills and expertise, such as deep knowledge of the business or career they are interested in, so why don't they succeed? Paul Levesque and Art McNeil have discovered that making a dream come true requires cultivating skills of a higher order--macroskills--that inevitably spell the difference between success and failure no matter what the specifics of a person's dreams are. These are the skills Dreamcrafting outlines in detail.

**Will & Love** Darren Dyck, 2023-03-10 Will & Love examines four of Shakespeare's love plays (Romeo and Juliet, Troilus and Cressida, Twelfth Night, and Antony and Cleopatra) in light of the Augustinian psychology at the heart of the theological romance tradition. This tradition, which Shakespeare inherits from medieval theologian-poets such as Boethius, Dante, Petrarch, and

Chaucer, issues from the idea, initially expressed by Augustine in his Confessions, that love functions as volitional weight, as a kind of magnetism or almost-gravitational force—that it moves the lover in mysterious ways yet without diminishing his or her agency. Will & Love highlights Shakespeare's conception of love in terms of motion and explores the metaphysical, ethical, psychological, and dramatic implications of his doing so.

**Toward a Feminist Theory of the State** Catharine A. MacKinnon, 1989 Presents the author's analysis of politics, sexuality and the law from the perspective of women. Using the debate over Marxism and feminism as a point of departure, MacKinnon develops a theory of gender centred on sexual subordination and applies it to the State.

*The Making of Romantic Love* William M. Reddy, 2012-08-30 Here, Reddy illuminates the birth of a cultural movement that managed to regulate selfish desire and render it innocent - or innocent enough. Reddy strikes out from this historical moment on an exploration of love, contrasting the medieval development of romantic love in Europe with contemporaneous eastern traditions in Bengal.

*Loving Across the Color Line* Sharon Rush, 2000 In this memoir, the author relates how her loving, maternal relationship opened her eyes to the harsh realities of the American racial divide.

*Ethnopsychology* Rolando Díaz-Loving, 2019-10-08 This book presents an overview of Mexican ethnopsychology, an original theoretical and methodological approach that seeks to complement the mainstream psychological science - based on universal principles, processes and constructs - with scientific methods to study the idiosyncratic features and behaviors typical of specific cultural groups. It proposes a historic-bio-psycho-socio-cultural theoretical model to describe research findings of social, psychological, collective and individual phenomena. Psychology is at a crossroads

of years of research with stress on internal validity and little attention to contextual and cultural variables. It becomes fundamental to continue on the internal validity track but at the same time incorporate external validity issues. The growth of indigenous movements and data allows for a profound evaluation of the extents to which apparent universal phenomena are truly universal, and to what extent they are idiosyncratic manifestations of the cultures where the mainstream research is conducted. Mexican ethnopsychologists have been following this path for decades, since the pioneer work of Rogelio Díaz-Guerrero, but until now little has been published in English about this innovative theoretical approach. *Ethnopsychology - Pieces from the Mexican Research Gallery* fills this gap by presenting the international community an overview of Mexican ethnopsychology and thus providing a useful tool to behavioral, social and health scientists interested in understanding how culture shapes both collective and individual behaviors.

**The Search for the Secure Base** Jeremy Holmes, 2001 Viewing attachment-based therapy as a variant of object relations, the book argues strongly for a rapprochement between psychoanalysis and attachment theory.

**Gospel Without Borders** Jim Rotholz, 2015-03-04 To what degree does culture facilitate or distort the Christian faith, the gospel of Jesus, and the life of the church? In America, the distortion is enormous. *Gospel Without Borders* carefully examines the complex intersection of culture and faith in America, providing insights that allow for better understanding and a more genuine experience of biblical and historic Christianity. *Gospel Without Borders* analyzes the formative and interactive roles that human nature and cultural history play in contemporary expressions of Christianity in America. It outlines their profound but little appreciated influence upon the shape and scope of Christian faith within society-at-large, the church, and the lives of individuals. The

study illuminates the dimensions of a largely unheralded gospel message characterized by unimpeded faith that fully accords with the kingdom Jesus stridently proclaimed. It outlines the dimensions of faith freed from the disappointing forms of culturalized Christianity that always prove insufficient on a personal level and woefully inadequate to the demands of contemporary life within our globalizing world. Today's world can only be effectively impacted through a gospel without borders--a compelling gospel most Americans have yet to hear, and too many Christians--of every cultural and denominational background--have yet to fully embrace.

**Bad Music** Christopher Washburne, Maiken Derno, 2004 Why are some popular musical forms and performers universally reviled by critics and ignored by scholars-despite enjoying large-scale popularity? How has the notion of what makes good or bad music changed over the years-and what does this tell us about the writers who have assigned these tags to different musical genres? Many composers that are today part of the classical canon were greeted initially by bad reviews. Similarly, jazz, country, and pop musics were all once rejected as bad by the academy that now has courses on these and many other types of music. This book addresses why this is so through a series of essays on different musical forms and performers. It looks at alternate ways of judging musical performance beyond the critical/academic nexus, and suggests new paths to follow in understanding what makes some music popular even if it is judged to be bad. For anyone who has ever secretly enjoyed ABBA, Kenny G, or disco, *Bad Music* will be a guilty pleasure!
