A Thousand Mornings Mary Oliver, 2013-09-24 The New York Times-bestselling collection of poems from celebrated poet Mary Oliver In *A Thousand Mornings*, Mary Oliver returns to the imagery that has come to define her life's work, transporting us to the marshland and coastline of her beloved home, Provincetown, Massachusetts. Whether studying the leaves of a tree or mourning her treasured dog Percy, Oliver is open to the teachings contained in the smallest of moments and explores with startling clarity, humor, and kindness the mysteries of our daily experience.

Bone Swans C.S.E. Cooney, 2015-07-01 Winner of the 2016 World Fantasy Award for Best Collection Contains *The Bone Swans of Amandale*, 2015 Nebula Award finalist for Best Novella C. S. E. Cooney is one of the most moving, daring, and plainly beautiful voices to come out of recent fantasy. She's a powerhouse with a wink in her eye and a song in each pocket. —Catherynne M. Valente, New York Times-bestselling author of the *Fairyland* novels These stories are a pure joy. C. S. E. Cooney's imagination is wild and varied, her stories bawdy, horrific, comic, and moving-frequently all at the same time. Her characters are wickedly appealing, and her language—O! her language. Lush, playful, poetic, but never obscure or stilted, it makes her magic more magic, her comedy more comic, and her tragic moments almost unbearable. —Delia Sherman, author of *Young Woman in a Garden: Stories* *Bone Swans* is a joy of feathery bones & ghoulish clowns. I adored every word. Like an eyas cries for meat, I cry for more. C.S.E. Cooney's a major talent and these are major talent stories. Who can resist hero rats, pouting swans, feral children, flying carpets and the Flabberghast? So tongue-tied am I with delight I fall back on the usual cliches: gripping, delightful, insightful, rollicking & lyrical—and yet not one cliché is to be found in *Bone Swans*, only stories of surpassing delicacy and wit, told by a lady of rare talent. Please, ma'am, might I have some more? —Ysabeau S. Wilce, Andre Norton Award winning author of *Flora's Dare* A swan princess hunted for her bones, a broken musician and his silver pipe, and a rat named Maurice bring justice to a town under fell enchantment. A gang of courageous kids confronts both a plague-destroyed world and an afterlife infested with clowns but robbed of laughter. In an island city, the murder of a child unites two lovers, but vengeance will part them. Only human sacrifice will save a city trapped in ice and darkness. Gold spun out of straw has a price, but not the one you expect. World Fantasy Award winner Ellen Kushner has called Cooney's writing stunningly delicious! Cruel, beautiful and irresistible. *Bone Swans*, the infernally whimsical debut collection from C. S. E. Cooney, gathers five novellas that in the words of Andre Norton Award winner Delia Sherman are bawdy, horrific, comic, and moving-frequently all at the same time. Cooney's mentor, Science Fiction and Fantasy Writers of America Grand Master Gene Wolfe, proclaims in his introduction that her style is so original it can only be described as pure Cooney, and he offers readers a challenge: Try to define that when you've finished the stories in this book. More praise for *Bone Swans* Cooney's brilliantly executed collection of five stories is a delicious stew of science fiction, horror, and fantasy, marked by unforgettable characters who plumb the depths of pathos and triumph. ... All of these stories could easily serve as the foundation for novels while also working beautifully at their current length. These well-crafted narratives defiantly refuse to fade from memory long after the last word has been read. —Publishers Weekly, starred review In five beautifully crafted stories, Cooney builds imaginary worlds full of flying carpets, fairy-tale characters, and children confronted with a postapocalyptic Earth ... Each tale packs in enough plot for a novel, with adventurous characters who brim with wit. —Library Journal, starred review Writing without ostentation and featuring characters who may be flippant, terse, or even tongue-tied, Cooney produces memorable prose propelled by extraordinary ideas ... Faced with such twisted genius, I'll say no more! —Locus A fascinating mashup between the tropes and resonances of the mythic tale with the sensibilities of contemporary action-oriented fantasy: simultaneously lighthearted and serious, full of consequences but also ubiquitous happy endings. —Tor.com

The Swan Suit Katherine Fawcett, 2020-03-14 Blending banalities of everyday human routines and dilemmas with elements of fairy tales, magic, the macabre and the downright inventive, Katherine Fawcett's fiction is anything but predictable. In this collection, reimagined folktales appear alongside stories entirely new, serving to defamiliarize us from the undeniably odd tales we continue to pass

down generation after generation, and lend a vague familiarity to the stories of Fawcett's invention. One of the three little pigs launches a line of high-end, easy-to-prepare, wolf broth-based meals. The Devil is on a mission to steal a child's soul, but is distracted when he develops a massive crush on the day-care worker. A man stands in the shower contemplating his future when he discovers tiny mushrooms growing in his body's various nooks and crannies. Fawcett's wry humour and prodigious imagination are an addictive mix. The weird becomes normal, and the normal, fascinating. Subverting expectations at every turn, her matter-of-fact style and narrative skill make this collection a must-read for any lover of short fiction.

Many Miles Mary Oliver, 2010-04 Presents forty-one of the author's favorite poems, including a variety of short poems, poems about her bichon Percy, and such classics as *Doesn't Every Poet Write a Poem about Unrequited Love?* and *The Dipper*.

Field Guide to Drawing & Sketching Animals Tim Pond, 2019-01-02 Artist Tim Pond's lively and engaging book fuses science with art, providing the reader with the skills, techniques and knowledge they need to create sketches of animals filled with life and movement. There are some very good books written on life drawing, yet when it comes to drawing wildlife, illustrators and artists often revert to working solely from photographs, which can leave the artwork looking lifeless and flat. In this inspirational book, artist Tim Pond shows you how to observe and draw animals in zoos, farms, wildlife parks and aquariums, teaching you some fascinating facts about the animals along the way and ultimately bringing you closer to nature. One of the challenges with sketching wildlife is that animals are constantly moving. However by having some basic understanding of the biology of an animal, such as knowing that a duck has a cheek or that a cheetah can't retract its claws, can influence how you might sketch them, and results in a lively drawing that captures the form, movement and ultimately the spirit of the animal in question. Combining scientific knowledge with expert practical guidance is key to creating successful drawings of animals, and Tim's ability to convey this in a way that is both accessible and engaging makes this a unique and inspiring guide suitable for artists of all levels. Tim's book takes you on a journey of discovery that will enable you to develop the skills, techniques and knowledge you need to sketch a broad range of wildlife, encompassing mammals, reptiles, birds, fish and insects. It includes quick, gestural sketches as well as linear and tonal studies, in a variety of media - pencil, pen and ink, and watercolour. There are numerous studies comprising how to represent the different patterns of animals' coats, how to capture the plumage of an exotic bird in watercolour, and how to sketch a hippo's hooves, as well as guidance on tools, materials and basic techniques. The result is a treasure chest of fascinating facts, studies, sketches and annotated drawings that will not fail to ignite your enthusiasm for drawing animals from life.

The Future of Ice Gretel Ehrlich, 2010-02-10 This book was written out of Gretel Ehrlich's love for winter--for remote and cold places, for the ways winter frees our imagination and invigorates our feet, mind, and soul--and also out of the fear that our "democracy of gratification" has irreparably altered the climate. Over the course of a year, Ehrlich experiences firsthand the myriad expressions of cold,

giving us marvelous histories of wind, water, snow, and ice, of ocean currents and weather cycles. From Tierra del Fuego in the south to Spitsbergen, east of Greenland, at the very top of the world, she explores how our very consciousness is animated and enlivened by the archaic rhythms and erupting oscillations of weather. We share Ehrlich's experience of the thrills of cold, but also her questions: What will happen to us if we are "deseasoned"? If winter ends, will we survive?
