If He Had Been with Me Laura Nowlin, 2013-04-02

If he had been with me everything would have been different... I wasn't with Finn on that August night. But I should've been. It was raining, of course. And he and Sylvie were arguing as he drove down the slick road. No one ever says what they were arguing about. Other people think it's not important. They do not know there is another story. The story that lurks between the facts. What they do not know—the cause of the argument—is crucial. So let me tell you...

Look Both Ways Jason Reynolds, 2020-10-27 A collection of ten short stories that all take place in the same day about kids walking home from school--

See You in the Cosmos Jack Cheng, 2017-02-28 “I haven't read anything that has moved me this much since Wonder.” —Jennifer Niven, author of *All the Bright Places* A space-obsessed boy and his dog, Carl Sagan, take a journey toward family, love, hope, and awe in this funny and moving novel for fans of *Counting by 7s*, *Walk Two Moons*, and *The Curious Incident of the Dog in the Night-Time*. 11-year-old Alex Petroski loves space and rockets, his mom, his brother, and his dog Carl Sagan—named for his hero, the real-life astronomer. All he wants is to launch his golden iPod into space the way Carl Sagan (the man, not the dog) launched his Golden Record on the Voyager spacecraft in 1977. From Colorado to New Mexico, Las Vegas to L.A., Alex records a journey on his iPod to show other lifeforms what life on earth, his earth, is like. But his destination keeps changing. And the funny, lost, remarkable people he meets along the way can only partially prepare him for the secrets he'll uncover—from the truth about his long-dead dad to the fact that, for a kid with a troubled mom and a mostly not-around brother, he has way more family than he ever knew. Jack Cheng's debut is full of

joy, optimism, determination, and unbelievable heart. To read the first page is to fall in love with Alex and his view of our big, beautiful, complicated world. To read the last is to know he and his story will stay with you a long, long time. A Cosmic Kind of Love Samantha Young, 2022-10-18
One of Amazon's Best Romances of October! Space is the last thing an event planner and an astronaut need in this charming new romantic comedy from New York Times bestselling author Samantha Young. When event planner Hallie Goodman receives party-inspiration material from the bride of her latest wedding project, the last thing she expects to find is a collection of digital videos from Darcy's ex-boyfriend. Hallie knows it's wrong to keep watching these personal videos, but this guy is cute, funny, and an astronaut on the International Space Station to boot. She's only human. And it's not long until she starts sending e-mails and video diaries to his discontinued NASA address. Since they're bouncing back, there's no way anyone will ever be able to see them...right?

Christopher Ortiz is readjusting to life on earth and being constantly in the shadow of his deceased older brother. When a friend from NASA's IT department forwards him the e-mails and video messages Hallie has sent, he can't help but notice how much her sense of humor and pink hair make his heart race. Separated by screens, Hallie and Chris are falling in love with each other, one transmission at a time. But can they make their star-crossed romance work when they each learn the other's baggage?

Her Rebel Heart Jamie Farrell, 2017-03-05 "A poignant, unapologetically southern, laugh out loud look at what it means to truly be seen and loved." - Kait Nolan A sexy military pilot is about to meet his match in an unpredictable physics professor! Kaci Boudreaux is every Southern mama's nightmare, including her own. This former Miss Grits would rather tromp around in boots shooting off potato guns—and her mouth—than dress pretty and play nice with the boys. Especially her chauvinistic fellow professors, her ex-husband, and those military cargo pilots she accidentally started a war with. Lance Wheeler is every Southern belle's dream, except his ex-fiancé's. After being left at the altar, he'd love to take his C-130 and fly far, far away. But since his bird technically belongs to Uncle Sam (as does he), a distraction in the form of a feisty fireball of a physics professor will do while he's waiting for his next deployment with the Air Force. He's into her for the fun. She's into him for the challenge. But when their secrets start slipping out, their hearts will be on the line. She needs roots. He wants to see the world. What will they do about needing each other?

A Soldier and A Liar Caitlin Lochner, 2019-02-19 In a world on the brink of war, four superpowered teens must learn to work together for peace in Caitlin Lochner's action-packed debut novel, A

Soldier and A Liar. Lai Cathwell is good at keeping secrets. As a Nyte, a supernaturally gifted teenager who is feared and shunned by the ungifted, this skill is essential to survival. Orchestrating her own imprisonment to escape military duty has only honed her ability to deceive others. But when rebels start attacking the city, Lai is dragged back into the fight with a new team of Nytes. Thrown together with Jay, a self-conscious perfectionist consumed by the desire to be accepted; Al, a short-tempered fighter lying for the sake of revenge; and Erik, an amnesiac hell-bent on finding his memories and his place in the world, Lai realizes she's facing an entirely different kind of challenge—one that might just be impossible. But if this team can't learn to work together, the entire sector will be plunged into war.

It is an adventure of risk and rejuvenation, terror and wonder, as exciting as Michael Crichton's many masterful and widely heralded works of fiction.

Rhapsodic Laura Thalassa, 2023-01-10 Book one in the darkly hypnotic Bargainer series! The King of the Night always collects his debts... Callypso Lillis is a siren with a very big problem, one that stretches up her arm and far into her past. For the last seven years she's been collecting a bracelet of black beads up her wrist, magical IOUs for favors she's received. Only death or repayment will fulfill the obligations. Only then will the beads disappear. Everyone knows that if you need a favor, you go to the Bargainer to make it happen. He's a man who can get you anything you want... at a price. And everyone knows that sooner or later he always collects. But for one of his clients, he's never asked for repayment. Not until now. When Callie finds the Bargainer in her room, a grin on his lips and a twinkle in his eye, she knows things are about to change. At first, it's just a chaste kiss - a single bead's worth - and a promise for more. For the Bargainer, it's more than just a matter of rekindling an old romance. Something is happening in the Otherworld. Fae warriors are going missing one by one. Only the women are returned, each in a glass casket, a child clutched to their breast. And then there are the whispers among the slaves, whispers of an evil that's been awoken. If the Bargainer has any hope to save his people, he'll need the help of the siren he spurned long ago. Only, his foe has a taste for exotic creatures, and Callie just

happens to be one.

The Linux Command Line takes you from your very first terminal keystrokes to writing full programs in Bash, the most popular Linux shell. What the Hell Did I Just Read David Wong, 2017-10-03 It's the story They don't want you to read. Though, to be fair, They are probably right about this one. To quote the Bible, Learning the truth can be like loosening a necktie, only to realize it was the only thing keeping your head attached. No, don't put the book back on the shelf -- it is now your duty to purchase it to prevent others from reading it. Yes, it works with e-books, too, I don't have time to explain how.

While investigating a fairly straightforward case of a shape-shifting interdimensional child predator, Dave, John and Amy realized there might actually be something weird going on. Together, they navigate a diabolically convoluted maze of illusions, lies, and their own incompetence in an attempt to uncover a terrible truth they -- like you -- would be better off not knowing. Your first impulse will be to think that a story this gruesome -- and, to be frank, stupid -- cannot possibly be true. That is precisely the reaction they are hoping for. John Dies at the End's smart take on fear manages to tap into readers' existential dread on one page, then have them laughing the next (Publishers Weekly) and This Book is Full of Spiders was unlike any other book of the genre (Washington Post). Now, New York Times bestselling author David Wong is back with What the Hell Did I Just Read, the third installment of this black-humored thriller series.

The Scam Janet Evanovich, Lee Goldberg, 2016-06-07
NEW YORK TIMES BESTSELLER Nicolas Fox is a charming con man and master thief on the run. Kate O'Hare is the FBI agent who is hot on his trail. At least that's what everyone thinks. In reality, Fox and O'Hare are secretly working together to bring down super-criminals the law can't touch. Criminals like brutal casino magnate Evan Trace. Evan Trace is running a money-laundering operation through his casino in Macau. Some of his best customers are mobsters, dictators, and global terrorists. Nick and Kate will have to go deep undercover as high-stakes gamblers, wagering millions of dollars--and their lives--in an attempt to topple Trace's empire. It's a scam that will take Fox and O'Hare from the Las Vegas strip, to the sun-soaked beaches of Oahu's North Shore, and into the dark back alleys of Macau. Their only backup--a self-absorbed actor, a Somali pirate, and Kate's father, an ex-soldier who believes a rocket

launcher is the best way to solve every problem. What could possibly go wrong?

Mathematicians in Love Rudy Rucker, 2008-07-08 A riveting new science fiction novel from the writer who twice won the Philip K. Dick Award for best SF novel. Bela and Paul, two wild young mathematicians, are friends and roommates, and in love with the same woman, who happens to be Alma, Bela's girlfriend. They fight it out by changing reality using cutting edge math, to change who gets the girl. The contemporary world they live in is not quite this one, but much like Berkeley, California, and the two graduate students are trying to finish their degrees and get jobs. It doesn't help that their unpredictable advisor Roland is a mad mathematical genius who has figured out a way to predict isolated and specific bits of the future that can cause a lot of trouble. . . and he's starting to see monsters in mirrors. Bela and Paul start to mess around with reality, and when that happens, all heaven and hell break loose. Those monsters of Roland's were really there, but who are they? Childhood's End Arthur C. Clarke, 2012-11-30 In the Retro Hugo Award-nominated novel that inspired the Syfy miniseries, alien invaders bring peace to Earth—at a grave price: “A first-rate tour de force” (The New York Times). In the near future, enormous silver spaceships appear without warning over mankind's largest cities. They belong to the Overlords, an alien race far superior to humanity in technological development. Their purpose is to dominate Earth. Their demands, however, are surprisingly benevolent: end war, poverty, and cruelty. Their presence, rather than signaling the end of humanity, ushers in a golden age . . . or

so it seems. Without conflict, human culture and progress stagnate. As the years pass, it becomes clear that the Overlords have a hidden agenda for the evolution of the human race that may not be as benevolent as it seems. "Frighteningly logical, believable, and grimly prophetic . . . Clarke is a master." -Los Angeles Times

And all you'd get to eat and drink would be enormo buckets of coke and popcorn and six inches of hideous pink extruded gunk in a bun. Now here's a way to experience all those films in two and a half hours. With added jokes. Titanic! Lord of the Rings! Harry Potter! Gladiator! And some

others!Cleolinda Jones has taken the biggest films ever and put them through a shredder.
