Crafting Love Maggie Oman Shannon, 2018-12-11 “It is good to love many things, for therein lies the true strength, and whosoever loves much performs much, and can accomplish much, and what is done in love is well done.” -Vincent Van Gogh As the future unfolds before us, it seems people are getting busier, more distracted, and less connected to the physical and spiritual world. This can be especially problematic for our relationships, as love is something that just does not magically exist on its own. Love must be cultured, tended, and cared for as if it were a special garden unlike any other. Whether you desire to foster, encourage remembrance, or express gratitude for the love you feel toward the known and unknown in your life, it can be done through the practice of mindfulness and crafting. Crafting Love is filled with thematic chapters meant to inspire your own journey in your expression of love, whether you build an “I Love You...” notebook for your partner, Anytime Valentines for your friends and mentors, a Conversation Starter Table Cloth for your family, Portable Place Shrines for natural places and animals, an “I Am” Affirmation Mandala for yourself, or a Rhythm Painting for the Divine. With the help of a few uplifting friends along the way, Maggie Oman Shannon will help launch your exploration for your love of

materials, love of the process, and love of everything and everyone around you through creating transcendent, one-of-a-kind projects with your own hands and heart.

Inter-professional Approaches to Young Fathers Jane Reeves, 2008 With one of the highest teenage pregnancy rates in Europe, young fatherhood, as a site of economic and personal adversity, has become a focus of concern in Britain during the late 1990s. However, despite this policy interest there is surprisingly little British empirical evidence to review. One of the aims of the book is to draw together contemporary research evidence, social theory and policy which may effect how practitioners, students and academics conceptualise and work with young fathers. Consequently, each chapter illustrates the points it makes using discrete evidence from that particular field. Moreover, in order to make this process more user friendly each chapter provides a summary of this literature and evidence. Finally, in order to make the book come alive it draws on case studies, which are drawn, variously, from two studies conducted by the editor.

Love You Bye Scott Mills, 2012-08-30 The story of how a painfully shy boy from the suburbs of Southampton made it to the biggest radio station in the UK, and just about managed to stay there... Scott Mills is a daily companion to millions of listeners as the host of the afternoon show on Radio 1 - a station that has been his home for over 14 years. Whether regaling us with a typically embarrassing celebrity anecdote or trying to control a particularly chaotic round of 'Innuendo Bingo', his company is always brilliantly entertaining, thanks to his infectious enthusiasm and easygoing manner. But behind the microphone sits a man whose route to the top has been anything but straightforward. In this witty and endearingly honest autobiography, Scott describes his incredible career and the hurdles he's faced along the way. Aside from the sometimes humiliating - and frequently hilarious - jobs that are part and parcel of a local radio DJ's apprenticeship, he's had to

deal with crippling anxiety attacks, alcohol and weight issues, and a great deal more over the years. But his desire to land his dream job has always prevailed, and he's now one of the nation's favourite radio and television broadcasters, travelling the world on both serious assignments and altogether more bizarre adventures. From washing cars on a garage forecourt off the A4 in the name of radio entertainment, to encounters with some of the world's biggest celebrities, Love You Bye provides Scott's legions of fans with a fascinating look at the man whose voice they know so well.
