Lowrider Coloring Book Oscar Nilsson,2011-04-14 Paint your own lowrider just the way you like it! Impalas, Cadillacs and Rivas. In the Lowrider Coloring Book, you will color the classic and most popular Lowrider models. Lowrider culture reaches back to 1930s Los Angeles, where it became popular for style-conscious Latino-Americans to load their cars with sandbags to bring it closer to the road. Style was everything, and when lowered cars were banned in California in the 1950s, it became necessary to find a way to raise and lower the car simply to avoid fines. The solution was to use hydraulics from old fighter planes left over from World War II. The rapper Kid Frost showcased lowriding in the early 90s hit Lowrider, and since then, the cars are closely associated with hip hop culture. Today, lowriding is bigger than ever with thousands of enthusiasts in most parts of the world. All strive to outdo each other with the most elegant varnish, interior, hydraulics, chrome and rims. The custom cars you'll be coloring in the Lowrider Coloring book were converted by some of the best and most legendary enthusiasts. What color is your Impala?

**Vehicles** David Lipset,Richard Handler,2014-08-01 Metaphor, as an act of human fancy, combines ideas in improbable ways to sharpen meanings of life and experience. Theoretically, this arises from an association between a sign—for example, a cattle car—and its referent, the Holocaust. These “sign-vehicles” serve as modes of semiotic transportation through conceptual space. Likewise, on-the-ground vehicles can be rich metaphors for the moral imagination. Following on this insight, Vehicles presents a collection of ethnographic essays on the metaphoric significance of vehicles in different cultures. Analyses include canoes in Papua New Guinea, pedestrians and airplanes in North America, lowriders among Mexican-Americans, and cars in contemporary China, Japan, and Eastern Europe, as well as among African-Americans in the South. Vehicles not only “carry people around,” but also “carry” how they are understood in relation to the dynamics of culture, politics and history.

**Kristin Bedford: Cruise Night** ,2021-04-13 Scenes from the Mexican American lowrider life: a clothbound photobook documenting a vibrant LA car culture Known for her quiet portraits of American cultural movements, Los Angeles-based photographer Kristin Bedford's new work, Cruise Night, is an intimate and unstaged exploration of Los Angeles' Mexican American lowrider car culture. From 2014 to 2019 Bedford attended hundreds of lowrider cruise nights, car shows, quinceañeras, weddings and funerals. Her images offer a new visual narrative around the lowrider tradition and invite outsiders to question prevalent societal stereotypes surrounding this urban Mexican American culture. Bedford's photos explore the nuances of cars as mobile canvases and the legendary community that creates them. With bright color photography and a unique female vantage point, Cruise Night is an original look at a prolific American movement set against the Los Angeles cityscape.

Reaching for the Stars José M. Hernández,2012-09-04 The book that inspired the new film A Million Miles Away. Born into a family of migrant workers, toiling in the fields by the age of six, Jose M. Hernández dreamed of traveling through the night skies on a rocket ship. Reaching for the Stars is the inspiring story of how he realized that dream, becoming the first Mexican-American astronaut. Hernández didn't speak English till he was 12, and his peers often joined gangs, or skipped school. And yet, by his twenties he was part of an elite team helping develop technology for the early detection of breast cancer. He was turned down by NASA eleven times on his long journey to donning that famous orange space suit. Hernández message of hard work, education, perseverance, of reaching for the stars, makes this a classic American autobiography.

Imagine Design Create Tom Wujec,2011-05 Imagine, Design, Create offers a wide-ranging look at how the creative process and the tools of design are dramatically changing--and where design is headed in the coming years. Bringing together stories of good design happening around the world, the book shows how people are using fresh design approaches and new capabilities to solve problems, create opportunities, and improve the way we live and work. From the impact of SOM's Cathedral of Christ the Light in Oakland to the spark that inspired Thomas Heatherwick's U.K. Pavilion in Shanghai; from the new processes fueling Zaha Hadid's extraordinary architecture to the digital tools Ford is using to transform car design, each of these stories explores questions that swirl around the idea of design. How does design change our lives for the better? How is our capacity to produce good design evolving? How will the next generation of designers work? What will they make? What new areas of human experience is design opening for us? Now that designers can do almost anything--what should they do? The Publisher has two cover versions for this title. The books will ship with either a black or white cover. The interior contents are the same.

**Land of Necessity** Alexis McCrossen,2009-06-19 Published in cooperation with the William P. Clements Center for Southwest Studies, Southern Methodist University. In Land of Necessity, historians and anthropologists unravel the interplay of the national and transnational and of scarcity and abundance in the region split by the 1,969-mile boundary line dividing Mexico and the United States. This richly illustrated volume, with more than 100 images including maps, photographs, and advertisements, explores the convergence of broad demographic, economic, political, cultural, and transnational developments resulting in various forms of consumer culture in the borderlands. Though its importance is uncontestable, the role of necessity in consumer culture has rarely been explored. Indeed, it has been argued that where necessity reigns, consumer culture is anemic. This volume demonstrates otherwise. In doing so, it sheds new light on the history of the U.S.-Mexico borderlands, while also opening up similar terrain for scholarly inquiry into consumer culture. The volume opens with two chapters that detail the historical trajectories of consumer culture and the borderlands. In the subsequent chapters, contributors take up subjects including smuggling, tourist districts and resorts, purchasing power, and living standards. Others address home décor, housing, urban development, and commercial real estate, while still others consider the circulation of cinematic images, contraband, used cars, and clothing. Several contributors discuss the movement of people across borders, within cities, and in retail spaces. In the two afterwords, scholars reflect on the U.S.-Mexico borderlands as a particular site of trade in labor, land, leisure, and commodities, while also musing about consumer culture as a place of complex political and economic negotiations. Through its focus on the borderlands, this volume provides valuable insight into the historical and contemporary aspects of the big “isms” shaping modern life: capitalism, nationalism, transnationalism, globalism, and, without a doubt, consumerism. Contributors. Josef Barton, Peter S. Cahn, Howard Campbell, Lawrence Culver, Amy S. Greenberg, Josiah McC. Heyman, Sarah Hill, Alexis McCrossen, Robert Perez, Laura Isabel Serna, Rachel St. John, Mauricio Tenorio-Trillo, Evan R. Ward

Homies David Gonzales,2017-01-03 Created by David Gonzalez, the Homies first appeared as an underground comic strip that debuted in Lowrider magazine in 1978, a reflection of his friends and lifestyle. At first a group of tightly knit Chicano buddies from East Los Angeles, the Homies expanded their crew to over 300 characters from all different cultures, genres, and even species. In an inner-city world plagued by poverty and oppression, they formed a strong, binding cultural support system that enabled them to overcome negativity and turn to laughter and good times as an antidote for reality--Page 4 of cover.
