A Dictionary of Cebuano Visayan John Wolff,2016-01-27 This is a dictionary of Cebuano Visayan, the language of the central part of the Philippines and much of Mindanao. Although the explanations are given in English, the aim of this work is not to provide English equivalents but to explain Cebuano forms in terms of themselves. It is meant as a reference work for Cebuano speakers and as a tool for students of the Cebuano language. There is a total of some 25,000 entries and an addenda of 700 forms which were prepared after the dictionary had been composed. This dictionary is the product of eleven years work by more than a hundred persons. The work was edited by John Wolff but the sources are entirely native, and all illustrations are composed by native speakers. To date, this work probably represents the most authoritative dictionary of the Cebuano Visayan language.

Stakeholder Engagement and Sustainability Reporting Marco Bellucci,Giacomo Manetti,2018-07-27 In a context of growing social and environmental concerns, the role of large enterprises and corporations in encouraging sustainability has drawn increasing attention in recent years. Both academic debates and public-opinion research have called into question the extended responsibilities of firms in our increasingly inter-connected world. By studying issues associated with the greatest challenges mankind is currently facing — from climate change to social exclusion — the scientific community is aware of the need to account for the actions and agendas of companies, especially large ones. They are becoming important global political actors with great power, but also unprecedented responsibilities. With this in mind, the authors believe that it is more important than ever that large enterprises, on the one hand, take into account the opinion of their stakeholder while defining their strategies and, on the other hand, disclose material and relevant information on their ability to contribute to sustainability while delivering value for all of their stakeholders. A consensus is being reached on the responsibility of large enterprises to report in a triple bottom perspective — not only on their financial performances, but also on their social and environmental outcomes. Consequently, it is important to understand what elements organizations need to report on in order to provide stakeholders with relevant and comprehensive sustainability reports. Against this background, this book presents a significant and original contribution, both empirically and theoretically, to the social and environmental accounting literature by studying the various features of stakeholder engagement in sustainability reporting.

THE S.T.A.R.S PROJECT Lee Andrew Taylor,2014-03-14 S.T.A.R.S (Scientific Testing aimed at a Rat's Survival) is a project set up by the government to increase the population of rats in the town of Aaronsville, UK. In today's society, rats have become a lifeline for people, and their blood is used to heal the sick. But a worldwide virus killed off most of the population a few years ago. The local government set up a lab to help maintain the rats and to mate them for the future. But now, a few years later, a change has happened; a change within the rats has arrived. They have grown wise to people and want out. Scientists have been studying the rats for a long time, but now the rats have begun to study them. They sit and watch the humans from behind their glass cages. They sit and plan an escape. Tonight, they will flee from the lab, taking revenge on the human race who thought it best to cage them. Tonight, the town of AARONSVILLE will once again be awakened with the scurrying of rodents, but this time the outcome will be different. THE RATS ARE COMING!!!

And yet we played on, because we had hope that we might be the lucky ones. In the early 1900s, teenaged Sunja, the adored daughter of a crippled fisherman, falls for a wealthy stranger at the seashore near her home in Korea. He promises her the world, but when she discovers she is pregnant--and that her lover is married--she refuses to be bought. Instead, she accepts an offer of marriage from a gentle, sickly minister passing through on his way to Japan. But her decision to abandon her home, and to reject her son's powerful father, sets off a dramatic saga that will echo down through the generations. Richly told and profoundly moving, Pachinko is a story of love, sacrifice, ambition, and loyalty. From bustling street markets to the halls of Japan's finest universities to the pachinko parlors of the criminal underworld, Lee's complex and passionate characters--strong, stubborn women, devoted sisters and sons, fathers shaken by moral crisis--survive and thrive against the indifferent arc of history. *Includes reading group guide*
