Carver launch a sensational series with technical blueprints of the racing ships by visionary automotive designer Hayashi. A Midwesterner by birth and upbringing (I grew up in Huron, Ohio), I've lived in New England ever since attending college at Brown University, in Rhode Island. Now I live outside Boston with my wife and daughters, and also with a boxer named Hermione and a cat named Moonlight. I've loved science fiction since I first began to read, and from the time I began writing, I always knew my first love was going to be SF. I'm not sure where you'd place me as a writer: I love astronomy and cosmology and hard SF concepts, and yet the characters are the most important thing to me in any story, whether it's a story I'm reading or a story I'm writing. It's the people, and the sense of wonder, that have always made science fiction--and science!--so awe-inspiring to me. Basically, I have always tried to write stories that I would want to read myself. Some years ago, I developed and hosted on the air an educational TV series for middle-school classrooms, called Writing Science Fiction and Fantasy--teaching kids the basics of how to turn ideas into stories. That later turned into a computer-based course called, oddly enough, Science Fiction and Fantasy Writing. In 2005, I decided it was about time to put the information online as a public service, available for free to any aspiring writer. It's online now, and you can use it anytime you like, just by going to <http://www.writesf.com>. I also invite you to stop by and read my regular blog, at <http://starrigger.blogspot.com>, or my web site at <http://www.starrigger.net>. Thanks for visiting! And please take a look at the video trailer for my novel Sunborn. If you'd like to view it in full-screen for full effect, you can do that at <http://www.youtube.com/watch?v=K03RMcSeiY4>. --Jeffrey A. Carver
