The Philosophy of Death Steven Luper,2009-05-28 The Philosophy of Death is a discussion of the basic philosophical issues concerning death, and a critical introduction to the relevant contemporary philosophical literature. Luper begins by addressing questions about those who die: What is it to be alive? What does it mean for you and me to exist? Under what conditions do we persist over time,

and when do we perish? Next, he considers several questions concerning death, including: What does dying consist in; in particular, how does it differ from ageing? Must death be permanent? By what signs may it be identified? Is death bad for the one who dies? If so why? Finally he discusses whether, and why, killing is morally objectionable, and suggests that it is often permissible; in particular, (assisted) suicide, euthanasia and abortion may all be morally permissible. His book is a lively and engaging philosophical treatment of a perennially fascinating and relevant subject.

Boom Town Sam Anderson,2018-08-21 A brilliant, kaleidoscopic narrative of Oklahoma City—a

great American story of civics, basketball, and destiny, from award-winning journalist Sam Anderson NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • NPR • Chicago Tribune • San Francisco Chronicle • The Economist • Deadspin Oklahoma City was born from chaos. It was founded in a bizarre but momentous “Land Run” in 1889, when thousands of people lined up along the borders of Oklahoma Territory and rushed in at noon to stake their claims. Since then, it has been a city torn between the wild energy that drives its outsized ambitions, and the forces of order that seek sustainable progress. Nowhere was this dynamic better realized than in the drama of the Oklahoma City Thunder basketball team’s 2012-13 season, when the Thunder’s brilliant general manager, Sam Presti, ignited a firestorm by trading future superstar James Harden just days before the first game. Presti’s all-in gamble on “the Process”—the patient, methodical management style that dictated the trade as the team’s best hope for long-term greatness—kicked off a pivotal year in the city’s history, one that would include pitched battles over urban planning, a series of cataclysmic tornadoes, and the frenzied hope that an NBA championship might finally deliver the glory of which the city had always dreamed. Boom Town announces the arrival of an exciting literary voice. Sam Anderson, former book critic for New York magazine and now a staff writer at the New York Times magazine, unfolds an idiosyncratic mix of American history, sports reporting, urban studies, gonzo memoir, and much more to tell the strange but compelling story of an American city whose unique mix of geography and history make it a fascinating microcosm of the democratic experiment. Filled with characters ranging from NBA superstars Kevin Durant and Russell Westbrook; to Flaming Lips oddball frontman Wayne Coyne; to legendary Great Plains meteorologist Gary England; to Stanley Draper, Oklahoma City's would-be Robert Moses; to civil rights activist Clara Luper; to the citizens and public servants who survived the notorious 1995

bombing of the Alfred P. Murrah federal building, Boom Town offers a remarkable look at the urban tapestry woven from control and chaos, sports and civics.

A Passion for Ideas Heinrich von Pierer,Bolko von Oetinger,2002 Business and industry leaders are eager to find ways to spark the creative instinct in their work forces. The creation, implementation, and sustainability of new ideas is the lifeblood ensuring the growth and viability of any organization. Without continuing innovation, competitive advantage and global market share are endangered. Once-thriving organizations can find themselves unprepared for the future. This newly translated work examines the multi-layered environment of innovation by melding the thoughts of business management pundits like Peter Senge with the views of artist, politicians, and other non-traditional thinkers like Tao Ho, Peter Greenaway, and Wolfgang Rihm. These thought leaders share their insights and help us to understand the process of creativity and construction and the methods to move organizations forward in an ever-changing climate.

Self-therapy for the Stutterer Malcolm Fraser,2002 Malcolm Fraser knew from personal experience what the person who stutters is up against. His introduction to stuttering corrective procedures first came at the age of fifteen under the direction of Frederick Martin, M.D., who at that

time was Superintendent of Speech Correction for the New York City schools. A few years later, he worked with J. Stanley Smith, L.L.D., a stutterer and philanthropist, who, for altruistic reasons, founded the Kingsley Clubs in Philadelphia and New York that were named after the English author, Charles Kingsley, who also stuttered. The Kingsley Clubs were small groups of adult stutterers who met one night a week to try out treatment ideas then in effect. In fact, they were actually practicing group therapy as they talked about their experiences and exchanged ideas. This exchange gave each of the members a better understanding of the problem. The founder often led the discussions at both clubs. In 1928 Malcolm Fraser joined his older brother Carlyle who founded the NAPA-Genuine Parts Company that year in Atlanta, Georgia. He became an important leader in the company and was particularly outstanding in training others for leadership roles. In 1947, with a successful career under way, he founded the Stuttering Foundation of America. In subsequent years, he added generously to the endowment so that at the present time, endowment income covers over fifty percent of the operating budget. In 1984, Malcolm Fraser received the fourth annual National Council on Communicative Disorders' Distinguished Service Award. The NCCD, a council of 32 national organizations, recognized the Foundation's efforts in adding to stutterers', parents', clinicians', and the public's awareness and ability to deal constructively with stuttering.
