You're Kidding, Right? Brad Goldfarb, 2020-11-02 Retired early 2020, Brad Goldfarb was a successful financial advisor for thirty-five years. During his career, he received many requests and questions from his clients. This book is based on thirty of those actual questions where the only possible response is "You're kidding, right?" From his studies throughout his career, Brad recognized there was a common thread behind these thoughts and questions; they seemed to come from client's emotions and not necessarily rational thinking. Recognizing that these thoughts are common, Brad knew he could help investors from making mistakes that prevent them from consistently making money long term. Behavioral Economics is the Nobel prize-winning theory behind what leads investors to make emotional and irrational investment decisions. During his career, Brad has appeared on both radio and TV numerous times and lectured many audiences and financial advisors on some of the advanced analytical techniques he learned about Modern Portfolio Theory (MPT), risk measurement, and asset allocation when he earned the Certified Investment Management Analyst (CIMA) designation taught in conjunction with the prestigious Wharton Business School in Pennsylvania. He knew he could simplify this knowledge, so every investor could easily understand and apply it to their own strategy. This book was not written to offer specific advice to investors. It was not written with the idea of do-it-yourself. It was written to educate and enlighten investors to allow them to work more collaboratively with their financial advisor. Brad hopes you will use this book to gain a better understanding of asset allocation and risk so you can avoid the mistakes so many make during downturns and turmoil in the financial markets.

Burn Your Portfolio Michael Janda, 2013-05-27 It takes more than just a design school education and a killer portfolio to succeed in a creative career. *Burn Your Portfolio* teaches the real-world practices, professional do's and don'ts, and unwritten rules of business that most designers, photographers, web designers, copy writers, programmers, and architects only learn after putting in years of experience on the job. Michael Janda, owner of the Utah-based design firm Riser, uses humor to dispense nugget after nugget of hard-won advice collected over the last decade from the personal successes and failures he has faced running his own agency. In this surprisingly funny, but incredibly practical advice guide, Janda's advice on teamwork and collaboration, relationship building, managing clients, bidding work, production processes, and more will resonate with creative professionals of all stripes.

The naked truth about working from home Scott Anderson, 2020-04-25 Should you dress for success when working from home? Nope. What a waste! Can you work from home and have a healthy work-life balance? Yes, in fact, your opportunity for a balanced life improves. Don't risk the wrong kind of viral internet fame. Avoid the pitfalls and learn how to optimize your WFH environment to boost your productivity. This book is for anyone who works from home, or is considering working from home. Primarily it's aimed at those of you for whom working from home is new, or daunting. However, even if you're a WFH veteran, I hope you'll find some new ideas to improve your current experience. This book is not about setting up a remote working company, and it's certainly not one of those "How to make \$1733 a week working from home" books. Rather it contains practical instructions for working from home productively, while keeping you out of trouble. After 17 years of working remotely, I've made plenty of mistakes and learnt how to overcome challenges to achieve great results, working with entirely remote teams. Chapter list Who this is for? WFH FTW - The benefits of working from home Pimp my home office - How to set up your home office Kicking goals - How to improve productivity Let it ring - Setting healthy work boundaries Smoke signals and carrier pigeons - How to communicate well in remote teams Avoiding cabin fever - How to achieve balance None of us is as smart as all of us - How to build strong teams Avoid WFH fails Square peg, square hole - The specifics on apps and hardware Like a boss - Tips for Managers Summing up About me
