Hatching Magic Ann Downer,2003-05 Poor Theodora Oglethorpe! Her biologist father has gone off to explore the jungles of Laos without her, her two best friends are away on vacation, and a long, hot, lonely Boston summer is all she has to look forward to. Poor Gideon! Wycca, his pet wyvern, has disappeared through a magic hole in time in search of a place to lay her egg. Kobold, Gideon's rival wizard, wants nothing more than to capture Wycca and turn her against her master. In a desperate attempt to rescue Wycca from Kobold's evil clutches, Gideon follows her through the magic hole...and finds himself transported from his castle in thirteenth-century England to the terrifyingly modern world of Boston, Massachusetts, in the year 2002. Little does Gideon know that what he needs most in order to find his wyvern is stuck to the bottom of Theodora's shoe. And little does Theodora know that Gideon is the reason why her summer vacation has begun to seem a whole lot more interesting...

The End of the Magical Kingdom: The Evil Princess L.M. Warren,2015-09-23 The rules of being a fairy tale princess are simple: 1. Always overdress. 2. Always play to win. 3. Share with those less fortunate. 4. Stay true to yourself. 5. And for heaven's sake NEVER fall in love with a WITCH. Princess Mary Melancholy has no idea how to be happy. Self conscious and socially awkward, all she really wants is to believe in something the way everyone else does. Her royal troubles abound since she's engaged to be married as part of a peace treaty between two warring kings and has a weird habit of singing out in public. Mary meets a witch named Salem who is cantankerous, bawdy and banned from the land because of her Evil intentions. But when Salem accidentally kisses the princess and they both feel a spark of attraction, a forbidden romance begins that threatens the future of two kingdoms. The choice is Mary's. Will she believe in love and scandalize the family as The Evil Princess or accept responsibility and protect her people?

Private Fire Matthew James Babcock,2011-04-18 Matthew J. Babcock's Private Fire: Robert Francis's Ecopoetry and Prose presents an introduction to and analysis of nearly six decades of nature-centered literature produced by one of America's most intriguing but tragically obscure writers. Private Fire tracks the steady trajectory of Francis's life and career, situates him among more visible twentieth-century writers, and presents a broad and eclectic explication of his contribution to American environmental literature. Specifically, readers will investigate the influence Dickinson and Frost exerted on Francis, Francis's traditional and experimental poetry, his satirical essays, his novel and wilderness sketches, and his published and unpublished ruminations on spirituality, homoerotics, vegetarianism, and pacifism during World War II and Vietnam. Major themes include poetry and political dissidence, aesthetics and poverty, sexuality and nature, environmental preservation, literature and over-mechanization, and conservation in the age of industry and information.

The Hour of Magic (Geronimo Stilton and the Kingdom of Fantasy #8) Geronimo Stilton,2016-05-31 Fairies, dragons, wizards, and more await Geronimo on every magical Kingdom of Fantasy adventure! I, Geronimo Stilton, was amazed to find myself called back to the Kingdom of Fantasy for another adventure. Blossom, Queen of the Fairies, needed my help -- time itself was under threat! Something evil was making the hands of the magical Tick Tock Timepiece spin faster and faster. It was causing Blossom to age at an alarming rate . . . and if she perished, so would the entire Kingdom of Fantasy! Holey cheese! It was up to me to restore time and harmony to the land. Could I do it before the clock reached its final hour?

Spiritual and Demonic Magic Daniel Pickering Walker,2000 First published by the Warburg Institute in 1958, this book is considered a landmark in Renaissance studies. Whereas most scholars had tended to view magic as a marginal subject, Walker showed that magic was one of the most typical creations of the late fifteenth and sixteenth centuries. Walker takes readers through the magical concerns of some of the greatest thinkers of the Renaissance, from Marsilio Ficino, Giovanni Pico della Mirandola, and Jacques Lefevre d’Etaples to Jean Bodin, Francis Bacon, and Tommaso Campanella. Ultimately he demonstrates that magic was interconnected with religion, music, and medicine, all of which were central to the Renaissance notion of spiritus. Remarkable for its clarity of writing, this book is still considered essential reading for students seeking to understand the assumptions, beliefs, and convictions that informed the thinking of the Renaissance. This edition features a new introduction by Brian Copenhaver, one of our leading experts on the place of magic in intellectual history.

Big Java Cay S. Horstmann,2009-12-30 This book introduces programmers to objects at a gradual pace. The syntax boxes are revised to show typical code examples rather than abstract notation. This includes optional example modules using Alice and Greenfoot. The examples feature annotations with dos and don'ts along with cross references to more detailed explanations in the text. New tables show a large number of typical and cautionary examples. New programming and review problems are also presented that ensure a broad coverage of topics. In addition, Java 7 features are included to provide programmers with the most up-to-

Conference Proceedings of The Philosophy of Computer Games 2008 Stephan Günzel,Michael Liebe,Dieter Mersch,2009 This first volume of the DIGAREC Series holds the proceedings of the conference "The Philosophy of Computer Games", held at the University of Potsdam from May 8-10, 2008. The contributions of the conference address three fields of computer game research that are philosophically relevant and, likewise, to which philosophical reflection is crucial. These are: ethics and politics, the action-space of games, and the magic circle. All three topics are interlinked and constitute the paradigmatic object of computer games: Whereas the first describes computer games on the outside, looking at the cultural effects of games as well as on moral practices acted out with them, the second describes computer games on the inside, i.e. how they are constituted as a medium. The latter finally discusses the way in which a border between these two realms, games and non-games, persists or is already transgressed in respect to a general performativity.
