Marchese, 2020-12-21 To get started, you'll need only what you can usually find in your home: items like paper, ziploc bags, index cards, coloring utensils, pencils, rubberbands, scissors, etc. As we progress in the world of making magic, we'll explore how to use 3D design tools like Tinkercad (you can register for a free account at tinkercad.com). You don't need a 3D printer in your home! Libraries, schools, and makerspaces around the world have 3D printers you can use! We'll explore simple programming using Arduino!

The Magician's Book Laura Miller, 2008-12-03

Enchanted by Narnia's fantastic world as a child, prominent critic Laura Miller returns to the series as an adult to uncover the source of these small books' mysterious power by looking at their creator, Clive Staples Lewis. What she discovers is not the familiar, idealized image of the author, but a more interesting and ambiguous truth: Lewis's tragic and troubled childhood, his unconventional love life, and his intense but ultimately doomed friendship with J.R.R. Tolkien. Finally reclaiming Narnia for the rest of us, Miller casts the Chronicles as a profoundly literary creation, and the portal to a lifelong adventure in books, art, and the imagination.

**The Magician King** Lev Grossman, 2011-08-09 Lev Grossman's new novel THE BRIGHT SWORD will be on sale July 2024 Return to Fillory in the riveting sequel to the New York Times bestseller and literary phenomenon, The Magicians, now an original series on SYFY, from the author of the #1 bestselling The Magician's Land. Quentin Coldwater should be happy. He escaped a miserable Brooklyn childhood, matriculated at a secret college for magic, and graduated to discover that Fillory—a fictional utopia—was actually real. But even as a Fillorian king, Quentin finds little peace. His old restlessness returns, and he longs for the thrills a heroic quest can bring. Accompanied by his oldest friend, Julia, Quentin sets off—only to somehow wind up back in the real world and not in Fillory, as they'd hoped. As the pair struggle to find their way back to their lost kingdom, Quentin is forced to rely on Julia's illicitly learned

sorcery as they face a sinister threat in a world very far from the beloved fantasy novels of their youth.

*The Magician's Handbook* Grant Clauser, 2017-10-07

Grant Clauser's newest collection of poems *The Magician's Handbook* uses the surreal and the speculative to examine the beauty and hardship in the everyday. At once magical and mundane, these poems follow the Magician who starts as a neophyte and, like most of us hope, ends as a Magus.

Magician's Magic Paul Curry, 2012-09-19 This book by a magician's magician discloses the secrets behind a collection of close-up marvels – including the author's *Out of the World*, reputed to be the best card trick of the past century.

The Magicians Lev Grossman, 2009-10-08 Quentin Coldwater is brilliant but miserable. Obsessed with the fantasy novels he read as a child, he finds the real world just doesn't compare. Then one day it happens: he stumbles unexpectedly into a hidden world and is invited to join a very exclusive college, where he will learn the secrets of magic. But something is still missing. And now Quentin will do anything to find what he's always been looking for. Praise for *The Magicians* Trilogy 'The best fantasy trilogy of the decade.' Charles Stross 'The most entertaining and compelling fantasy I've read in a long time.' *The Times* 'Lev Grossman has conjured a rare creature: a trilogy that simply gets better and better as it goes

along... Literary perfection.' Erin Morgenstern 'May just be the most subversive, gripping, and enchanting fantasy novel I've read this century.' Cory Doctorow 'Dark and dangerous and full of twists. Hogwarts was never like this.' George R. R. Martin 'Sad, hilarious, beautiful, and essential to anyone who cares about modern fantasy.' Joe Hill 'A darkly cunning story about the power of imagination itself.' The New Yorker 'The Magicians ought to be required reading... a terrific, at times almost painfully perceptive novel of the fantastic.' Kelly Link 'Brilliantly explores the hidden underbelly of fantasy and easy magic, taking what's simple on the surface and turning it over to show us the complicated writhing mess beneath.' Naomi Novik

**Magicians Impossible** Brad Abraham, 2017-09-12  
Harry Potter meets James Bond in this story of a twenty-something slacker who discovers that he is descended from a line of magical spies and is thrust into the middle of a secret and epic battle. "Magicians Impossible is a mind-bending page-turner! A brilliant and unique mash-up of spells, myth and mayhem, once it got its claws in me I couldn't put it down. Like a veteran stage magician, Brad Abraham has created a hip thriller that turns convention on its ear with misdirection and mayhem. A must read for enthusiasts of edgy and extreme fiction." –Don Coscarelli, director of John Dies At The End  
Twenty-something bartender Jason Bishop's world is shattered when his estranged father commits suicide, but the greater shock comes when he learns his father was a secret agent in the employ of the Invisible Hand; an

ancient society of spies wielding magic in a centuries-spanning war. Now the Golden Dawn—the shadowy cabal of witches and warlocks responsible for Daniel Bishop’s murder, and the death of Jason’s mother years before—have Jason in their sights. His survival will depend on mastering his own dormant magic abilities; provided he makes it through the training. From New York, to Paris, to worlds between worlds, Jason’s journey through the realm of magic will be fraught with peril. But with enemies and allies on both sides of this war, whom can he trust? The Invisible Hand, who’ve been more of a family than his own family ever was? The Golden Dawn, who may know the secrets behind his mysterious lineage? For Jason Bishop, only one thing is for certain; the magic he has slowly been mastering is telling him not to trust anybody.

Magic and Showmanship Henning Nelms, 2012-04-30  
Highly instructive book by a noted authority on the subject analyzes every phase of conjuring, from sleights, devices, misdirection, and controlling audience attention to incorporating patter and the effective use of assistants.

Too Many Magicians Randall Garrett, 2013-11-25  
Set in an alternate reality where Richard the Lionheart’s descendants rule the Anglo-French Empire, the laws of magic have developed in place of the laws of physics. In this late 20th century world, people still travel through pea fog by horse and carriage, but magic has made levitation and enchantment spells the norm, especially at a sorcerer’s convention. The International Sorcerer’s Convention is in full swing. Until London’s Chief Forensics Sorcerer, Sir James

Zwinge, is found dead inside a locked room, that is. Master Sean O Lochlainn had been at odds with Sir James over competing breakthroughs in incision-free surgery, making him the prime suspect. It's up to Lord Darcy to solve Sir James' murder and exonerate his own forensic sorcerer and trusted assistant. But the mystery deepens when the murder of a Naval spy is connected to that of Sir James' death. Conflict with Poland, a dominating world power, changes the game and suddenly there is a lot more at stake than the freedom of Lord Darcy's old friend. Too Many Magicians was nominated for the Hugo Award in 1967, and the complete Lord Darcy series later won the Sideways Award for Alternate History.
